## DEPARTMENT OF ENERGY

[OE Docket No. EA–291–A]

### Application To Export Electric Energy; Dominion Energy Marketing, Inc.

**AGENCY:** Office of Electricity Delivery and Energy Reliability, DOE.

**ACTION:** Notice of application.

**SUMMARY:** Dominion Energy Marketing, Inc. (DEMI) has applied to renew its authority to transmit electric energy from the United States to Canada pursuant to section 202(e) of the Federal Power Act.

**DATES:** Comments, protests or requests to intervene must be submitted on or before August 17, 2006.

**ADDRESSES:** Comments, protests or requests to intervene should be addressed as follows: Office of Electricity Delivery and Energy Reliability, Mail Code: OE–20, U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585–0350 (FAX 202–586–5860).

**FOR FURTHER INFORMATION CONTACT:** Steven Mintz (Program Office) 202–586–9506 or Michael Skinker (Program Attorney) 202–586–2793.

**SUPPLEMENTARY INFORMATION:** Exports of electricity from the United States to a foreign country are regulated and require authorization under section 202(e) of the Federal Power Act (FPA) (16 U.S.C. 824a(e)).

On June 25, 2004, the Department of Energy (DOE) issued Order No. EA–291 authorizing DEMI to transmit electric energy from the United States to Canada as a power marketer. That Order expired on June 25, 2006.

On June 23, 2006, DEMI filed an application with DOE for renewal of the export authority contained in Order No. EA–297 for an additional five-year term and requested that if accepted, the renewal be effective as of June 26, 2006. DEMI does not own or control any transmission or distribution assets, nor does it have a franchised service area. The electric energy which DEMI proposes to export to Canada would be purchased from electric utilities and Federal power marketing agencies within the U.S.

DEMI will arrange for the delivery of exports to Canada over the international transmission facilities currently owned

by Basin Electric Power Cooperative, Bonneville Power Administration, Eastern Maine Electric Cooperative, International Transmission Co., Joint Owners of the Highgate Project, Long Sault, Inc., Maine Electric Power Company, Maine Public Service Company, Minnesota Power, Inc., Minnkota Power Cooperative, Inc., New York Power Authority, Niagara Mohawk Power Corp., Northern States Power Company, and Vermont Electric Transmission Co.

The construction, operation, maintenance, and connection of each of the international transmission facilities to be utilized by DEMI has previously been authorized by a Presidential permit issued pursuant to Executive Order 10485, as amended.

*Procedural Matters:* Any person desiring to become a party to this proceeding or to be heard by filing comments or protests to this application should file a petition to intervene, comment or protest at the address provided above in accordance with §§ 385.211 or 385.214 of the Federal Energy Regulatory Commission's Rules of Practice and Procedures (18 CFR 385.211, 385.214). Fifteen copies of each petition and protest should be filed with DOE on or before the date listed above.

Comments on the DEMI application to export electric energy to Canada should be clearly marked with Docket EA–291–A. Additional copies are to be filed directly with Michael C. Regulinski, Esq., Dominion Resources Services, Inc., 120 Tredegar Street, Richmond, VA 23219 and David Martin Connelly, Esquire, Bruder, Gentile and Marcoux, L.L.P., 1701 Pennsylvania Avenue, NW., Suite 900, Washington, DC 20006–5807.

A final decision will be made on this application after the environmental impacts have been evaluated pursuant to the National Environmental Policy Act of 1969, and a determination is made by the DOE that the proposed action will not adversely impact on the reliability of the U.S. electric power supply system.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above or by contacting Odessa Hopkins at [Odessa.hopkins@hq.doe.gov](mailto:Odessa.hopkins@hq.doe.gov).

Issued in Washington, DC, on July 12, 2006.

**Ellen Russell,**

*Acting Director, Permitting and Siting, Office of Electricity Delivery and Energy Reliability.*

## DEPARTMENT OF ENERGY

### Office of Science; Advanced Scientific Computing Advisory Committee (ASCAC)

**AGENCY:** Department of Energy.

**ACTION:** Notice of open meeting.

**SUMMARY:** This notice announces a meeting of the Advanced Scientific Computing Advisory Committee (ASCAC). Federal Advisory Committee Act (Pub. L. 92–463, 86 Stat. 770) requires that public notice of these meetings be announced in the **Federal Register**.

**DATES:** Tuesday, August 8, 2006, 8:30 a.m. to 5 p.m.; Wednesday, August 9, 2006, 9 a.m. to 12:30 p.m.

**ADDRESSES:** American Geophysical Union, (AGU), 2000 Florida Avenue, NW., Washington, DC 20009–1277.

**FOR FURTHER INFORMATION CONTACT:** Melea Baker, Office of Advanced Scientific Computing Research; SC–21/Germantown Building; U.S. Department of Energy; 1000 Independence Avenue, SW.; Washington, DC 20585–1290; Telephone (301) 903–7486, (E-mail: [Melea.Baker@science.doe.gov](mailto:Melea.Baker@science.doe.gov)).

#### SUPPLEMENTARY INFORMATION:

*Purpose of the Meeting:* The purpose of this meeting is to provide advice and guidance with respect to the advanced scientific computing research program.

*Tentative Agenda:* Agenda will include discussions of the following:

#### Tuesday, August 8, 2006

ASCR Overview.  
DOE Science.  
SciDAC Overview.  
Charge 2, Networking Subcommittee Overview.  
Charge 1, Science Based Performance Metrics.  
Subcommittee Overview.  
Independent Review—Leadership Class Facilities.  
Public Comment.

*Wednesday, August 9, 2006.*

ORNL Leadership Class Petascale Project.  
ANL Leadership Class Petascale Project.  
Summary Review of Applied Programs in SC.  
NERSC Upgrades.  
ESNet Upgrades.  
Public Comment.

*Public Participation.* The meeting is open to the public. If you would like to file a written statement with the Committee, you may do so either before or after the meeting. If you would like to make oral statements regarding any of

the items on the agenda, you should contact Melea Baker via FAX at 301-903-4846 or via e-mail ([Melea.Baker@science.doe.gov](mailto:Melea.Baker@science.doe.gov)). You must make your request for an oral statement at least 5 business days prior to the meeting. Reasonable provision will be made to include the scheduled oral statements on the agenda. The Chairperson of the Committee will conduct the meeting to facilitate the orderly conduct of business. Public comment will follow the 10-minute rule.

**Minutes:** The minutes of this meeting will be available for public review and copying within 30 days at the Freedom of Information Public Reading Room; 1E-190, Forrestal Building; 1000 Independence Avenue, SW., Washington, DC 20585; between 9 a.m. and 4 p.m., Monday through Friday, except holidays.

Issued in Washington, D.C. on July 13, 2006.

**Rachel M. Samuel,**

*Deputy Advisory Committee Management Officer.*

## DEPARTMENT OF ENERGY

[OE Docket No. PP-310]

### Application for Presidential Permit; Northern Electric Cooperative

**AGENCY:** Office of Electricity Delivery and Energy Reliability, DOE.

**ACTION:** Notice of application.

**SUMMARY:** Northern Electric Cooperative (Northern) has applied for a Presidential permit to construct, operate, maintain, and connect an electric transmission line across the U.S. border with Canada.

**DATES:** Comments, protests, or requests to intervene must be submitted on or before August 17, 2006.

**ADDRESSES:** Comments, protests, or requests to intervene should be addressed as follows: Office of Electricity Delivery and Energy Reliability (OE-20), U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585-0350.

**FOR FURTHER INFORMATION CONTACT:** Ellen Russell (Program Office), 202-586-9624 or Michael T. Skinker (Program Attorney), 202-586-2793.

**SUPPLEMENTARY INFORMATION:** The construction, operation, maintenance, and connection of facilities at the international border of the United States for the transmission of electric energy between the United States and a foreign country is prohibited in the absence of

a Presidential permit issued pursuant to Executive Order (EO) 10485, as amended by EO 12038.

By letter dated November 6, 2005, Northern, a member owned electric cooperative organized under the laws of the State of Montana, filed an application with the Office of Electricity Delivery and Energy Reliability (OE) of the Department of Energy (DOE) for a Presidential permit. Northern proposes to construct a 14.4 kilovolt (14.4-kV) distribution circuit, approximately 0.75-mile in length, from a point in Valley County, Minnesota, to the United States border with the Province of Saskatchewan, Canada. North of the border the underground circuit would continue an additional 0.50 mile to a tap into the existing system of SaskPower, a Crown Corporation of Canada. The line would be used to import electric energy into the U.S. to provide electricity to three existing U.S. government-owned water wells and water monitoring stations in Montana. Construction of these international facilities would negate the Northern's need to rebuild 18 miles of deteriorating transmission line that currently serves the water facilities.

Since the restructuring of the electric industry began, resulting in the introduction of different types of competitive entities into the marketplace, DOE has consistently expressed its policy that cross-border trade in electric energy should be subject to the same principles of comparable open access and non-discrimination that apply to transmission in interstate commerce. DOE has stated that policy in export authorizations granted to entities requesting authority to export over international transmission facilities. Specifically, DOE expects transmitting utilities owning border facilities to provide access across the border in accordance with the principles of comparable open access and non-discrimination contained in the FPA and articulated in Federal Energy Regulatory Commission (FERC) Order No. 888 (Promoting Wholesale Competition Through Open Access Non-Discriminatory Transmission Services by Public Utilities; FERC Stats. & Regs. ¶ 31,036 (1996)), as amended. DOE has previously noticed its intention to condition existing and future Presidential permits, appropriate for third party transmission, on compliance with a requirement to provide non-discriminatory open access transmission service. In this docket DOE specifically requests comment on the appropriateness of applying an open

access requirement on Northern's proposed facilities.

**Procedural Matters:** Any person desiring to become a party to this proceeding or to be heard by filing comments or protests to this application should file a petition to intervene, comment, or protest at the address provided above in accordance with §§ 385.211 or 385.214 of the FERC's Rules of Practice and Procedures (18 CFR 385.211, 385.214). Fifteen copies of each petition and protest should be filed with the DOE on or before the date listed above.

Additional copies of such petitions to intervene or protests also should be filed directly with: Larry Tade, Manager, Northern Electric Cooperative, Inc., Opheim, MT, 59250 and Matthew W. Knierim, Knierim, Fewer & Christoffersen, P.C., 130 Third Street South, P.O. Box 29, Glasgow, MT 59230

Before a Presidential permit may be issued or amended, the DOE must determine that the proposed action will not adversely impact on the reliability of the U.S. electric power supply system. DOE also must obtain the concurrence of the Secretary of State and the Secretary of Defense before taking final action on a Presidential permit application. In addition, DOE must consider the environmental impacts of the proposed action (*i.e.*, granting the Presidential permit, with any conditions and limitations, or denying the permit) pursuant to the National Environmental Policy Act.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above or by e-mailing Odessa Hopkins at [Odessa.hopkins@hq.doe.gov](mailto:Odessa.hopkins@hq.doe.gov).

Issued in Washington, DC, on July 12, 2006.

**Ellen Russell,**

*Acting Director, Permitting and Siting, Office of Electricity Delivery and Energy Reliability.*
