

Abstract: The information that would be required by 36 CFR 219.13 is the minimum information needed for a citizen or organization to explain the nature of the objection being made to a proposed land management plan, plan amendment, or plan revision and the reason why the individual or organization objects. Specifically, an objector must provide name, mailing address, and telephone number; and identification of the specific proposed plan, amendment or revision that is the subject of the objection; and a concise statement explaining how the environmental disclosure documents, if any, and proposed plan, amendment, or revision are inconsistent with law, regulation, Executive Order, or policy and any recommendations for change. The Reviewing Officer must review the objection(s) and relevant information and then respond to the objector(s) in writing.

Estimate of Annual Burden: 10 hours to prepare the objection.

Type of Respondents: Interested and affected individuals, organizations, and governmental units who participate in the planning process: such as persons who live in or near National Forest System (NFS) lands; local, State, and Tribal governments who have an interest in the plan; Federal agencies with an interest in the management of NFS lands and resources; not-for-profit organizations interested in NFS management, such as environmental groups, recreation groups, educational institutions; and commercial users of NFS land and resources.

Estimated Annual Number of Respondents: 1,210 a year.

Estimated Annual Number of Responses per Respondent: 1.

Estimated Total Annual Burden on Respondents: 12,100 hours.

Comment is invited on: (1) Whether this collection of information is necessary for the stated purposes and the proper performance of the functions of the agency, including whether the information will have practical or scientific utility; (2) the accuracy of the agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All comments received in response to this notice, including names and

addresses when provided, will be a matter of public record. Comments will be summarized and included in the request for Office of Management and Budget approval.

Dated: July 13, 2006.

Gloria Manning,

Associate Deputy Chief, NFS.

Natural Resources Conservation Service

Red Bayou Watershed Project; Caddo Parish, LA

AGENCY: Natural Resources Conservation Service, USDA.

ACTION: Notice of finding of no significant impact.

SUMMARY: Pursuant to Section 102 (2) (C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR part 1500); and the Natural Resources Conservation Service Guidelines (7 CFR part 650); the Natural Resources Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Red Bayou Watershed Project, Caddo Parish, Louisiana.

FOR FURTHER INFORMATION CONTACT:

Donald W. Gohmert, State Conservationist, Natural Resources Conservation Service, 3737 Government Street, Alexandria, Louisiana 71302; telephone (318) 473-7751.

SUPPLEMENTARY INFORMATION: The environmental assessment of this federally assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings Donald W. Gohmert, State Conservationist, has determined that the preparation and review of an environmental impact statement are not needed for this project.

The purpose of the project is agricultural irrigation water management. The proposed plan consists of a pump station and pipeline that will allow transfer of water from the Red River to Red Bayou thus providing a dependable source of irrigation water to farmers in the project area. Associated land treatment measures will increase the efficiency of existing irrigation systems, reduce erosion and sedimentation rates, improve water quality and provide incidental opportunities to improve wildlife and fisheries habitat.

The Notice of Finding of No Significant Impact (FONSI) has been forwarded to the Environmental Protection Agency and to various Federal, state, and local agencies and interested parties. A limited number of copies of the FONSI are available to fill single copy requests at the above address. Basic data collected during the environmental assessment are on file and may be reviewed by contacting Donald W. Gohmert.

No administrative action on implementation of the proposal will be taken until 30 days after the date of this publication in the **Federal Register**.

Donald W. Gohmert,
State Conservationist.

Notice of Proposed Changes to the Natural Resources Conservation Service's National Handbook of Conservation Practices

AGENCY: Natural Resources Conservation Service (NRCS), USDA.

ACTION: Notice of availability of proposed changes in the NRCS National Handbook of Conservation Practices for public review and comment.

SUMMARY: Notice is hereby given of the intention of NRCS to issue a series of new or revised conservation practice standards in its National Handbook of Conservation Practices. These standards include: "Stream Habitat Improvement and Management (Code 395)," "Fish Passage (Code 396)," and "Fishpond Management (Code 399)." NRCS State Conservationists who choose to adopt these practices for use within their States will incorporate them into Section IV of their respective electronic Field Office Technical Guides (eFOTG). These practices may be used in conservation systems that treat highly erodible land or on land determined to be wetland.

DATES: Effective Dates: Comments will be received for a 30-day period commencing with this date of publication. After consideration of all comments, final versions of these new or revised conservation practice standards will be adopted after the close
