I. General Information

A. What Should I Consider as I Prepare My Comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through

www.regulations.gov or e-mail. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD ROM that you mail to EPA, mark the outside of the disk or CD ROM as CBI and then identify electronically within the disk or CD ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for Preparing Your Comments.* When submitting comments, remember to:

- a. Identify the rulemaking by docket number and other identifying information (subject heading, **Federal Register** date and page number).
- b. Follow directions—The agency may ask you to respond to specific questions or organize comments by referencing a Code of Federal Regulations (CFR) part or section number.
- c. Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.
- d. Describe any assumptions and provide any technical information and/or data that you used.
- e. If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.
- f. Provide specific examples to illustrate your concerns, and suggest alternatives.
- g. Explain your views as clearly as possible, avoiding the use of profanity or personal threats.
- h. Make sure to submit your comments by the comment period deadline identified.

II. Background

On October 25, 2005, the Governor submitted a SIP revision that contains amendments to the following sections of the Administrative Rules of Montana (ARM) 17.8.102, 17.8.103, 17.8.302, 17.8.602, 17.8.767, 17.8.802, 17.8.902, 17.8.1002, and 17.8.1102. The amendments update citations and references to Federal documents and addresses where copies of documents can be obtained. The Board of Environmental Review adopted these amendments on June 3, 2005 and they became effective on June 17, 2005. Additionally, the October 2005 submittal deletes the definition of "public nuisance" from Sub-Chapter 1 and the definitions of "animal matter"

and "reduction" from Sub-Chapter 3. The Board of Environmental Review rescinded the definitions on May 18, 2001 and the rescission became effective on June 8, 2001.

*B. Deletion of Definitions from the
Administrative Rules of Montana
Rescinded May 18, 2001 and Effective
June 8, 2001*

1. Changes to Sub-Chapter 1—General
Provisions

a. Review of changes to ARM 17.8.101—Definitions. The state is deleting the definition of “public nuisance.” At the same time the state deleted its non-SIP approved odor rule they also deleted several definitions of terms that were included in the odor rule. Although the term “public

nuisance” is used on two other air quality rules the state intends for the statutory definition to apply to these rules. We are approving the removal of the definition of “public nuisance” effective on June 8, 2001.

2. Changes to Sub-Chapter 3—Emission
Standards

a. Review of changes to ARM 17.8.301—Definitions. The state is deleting the definitions of “animal matter” and “reduction.” At the same time the state deleted its non-SIP approved odor rule they also deleted several definitions of terms that were included in the odor rule. The term “animal matter” is not used in any other air quality rules. The term “reduction” is used in other air quality rules, however, in the other rules its meaning is different than that contained in the definition being deleted. The state intends the term “reduction” to have the meaning indicated by the particular context of each rule. We are approving the removal of the definitions for “animal matter” and “reduction” effective on June 8, 2001.

IV. Final Action

EPA is approving the following changes to the ARM that were submitted on October 25, 2005 and effective on June 17, 2005: ARM 17.8.102(1), 17.8.103(3) and (4); 17.8.302(2), (3) and (4); 17.8.602(2), (3) and (4); 17.8.802(2), (3), (4) and (5); 17.8.902(2), (3), (4) and (5); 17.8.1002(2), (3), (4) and (5); and 17.8.1102(2), (3) and (4).

EPA is approving the deletion of the following definitions from the ARM that were submitted on October 25, 2005 and effective on June 8, 2001: “public nuisance” in Sub-Chapter 1 and “animal matter” and “reduction” in Sub-Chapter 3.

EPA is not acting on the following changes to the ARM that were submitted on October 25, 2005 and effective on June 17, 2005: ARM 17.8.767(1), (2), (3) and (4). These revisions will be addressed in a separate action.

Section 110(l) of the Clean Air Act states that a SIP revision cannot be approved if the revision would interfere with any applicable requirement concerning attainment and reasonable further progress towards attainment of the NAAQS or any other applicable requirements of the Act. The Montana SIP revisions that are the subject of this document do not interfere with the maintenance of the NAAQS or any other applicable requirement of the Act. The October 25, 2005 submittal merely makes administrative amendments to the State’s Administrative Rules of

Montana. Therefore, section 110(l) requirements are satisfied.

EPA is publishing this rule without prior proposal because the Agency views this as a noncontroversial amendment and anticipates no adverse comments; we are merely approving administrative changes to Montana’s air rules. However, in the “Proposed Rules” section of today’s **Federal Register** publication, EPA is publishing a separate document that will serve as the proposal to approve the SIP revision if adverse comments are filed. This rule will be effective September 18, 2006 without further notice unless the Agency receives adverse comments by August 18, 2006. If the EPA receives adverse comments, EPA will publish a timely withdrawal in the **Federal Register** informing the public that the rule will not take effect. EPA will address all public comments in a subsequent final rule based on the proposed rule. The EPA will not institute a second comment period on this action. Any parties interested in commenting must do so at this time. Please note that if EPA receives adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment.

**V. Statutory and Executive Order
Reviews**

Under Executive Order 12866 (58 FR 51735, October 4, 1993), this action is not a “significant regulatory action” and therefore is not subject to review by the Office of Management and Budget. For this reason, this action is also not subject to Executive Order 13211, “Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use” (66 FR 28355, May 22, 2001). This action merely approves state law as meeting Federal requirements and imposes no additional requirements beyond those imposed by state law. Accordingly, the Administrator certifies that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.). Because this rule approves pre-existing requirements under state law and does not impose any additional enforceable duty beyond that required by state law, it does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4).

This rule also does not have tribal implications because it will not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes, as specified by Executive Order 13175 (65 FR 67249, November 9, 2000). This action also does not have Federalism implications because it does not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132 (64 FR 43255, August 10, 1999). This action merely approves a state rule implementing a Federal standard, and does not alter the relationship or the distribution of power and responsibilities established in the Clean Air Act. This rule also is not subject to Executive Order 13045 "Protection of Children from Environmental Health Risks and Safety Risks" (62 FR 19885, April 23, 1997), because it is not economically significant.

In reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the Clean Air Act. In this context, in the absence of a prior existing requirement for the State to use voluntary consensus standards (VCS), EPA has no authority to disapprove a SIP submission for failure to use VCS. It would thus be inconsistent with applicable law for EPA, when it reviews a SIP submission, to use VCS in place of a SIP submission that otherwise satisfies the provisions of the Clean Air Act. Thus, the requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) do not apply. This rule does not impose an information collection burden under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule

cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by September 18, 2006. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this rule for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)
