

will not serve to fragment desert tortoise populations in the Joshua Tree, California, area; and (5) one of the most likely forms of take is capture to move desert tortoises out of harm's way, resulting in temporary low impacts.

The Service's proposed action is to issue an incidental take permit to the Applicant, who would then implement the HCP. Two alternatives to the taking of listed species under the proposed action are considered in the HCP. Under the No-Action alternative, the proposed project would not occur and the HCP would not be implemented. This would avoid the immediate effects of habitat removal on the desert tortoise. However, without the HCP, habitat for the desert tortoise on the project site likely would continue to decline as a result of current shooting, dumping, and recreational OHV activities occurring on the site. Further, this alternative would not meet the Applicant's project goals or protect 13.8 acres of habitat for the benefit of the desert tortoise.

The Applicant's Alternate Site Alternative considered moving the project to an alternate location within the 314.6-acre property. This alternative entailed a more spread-out development with 11 additional campsites and 2 additional buildings in the southeastern region of the property. This location overlapped with the area most used by tortoises. The alternative was rejected because it would likely result in greater impacts to the desert tortoise and its habitat. In addition, the Applicant can achieve the project goals in the southwestern area of the property where there is less presence of desert tortoises.

The Service has made a preliminary determination that the HCP qualifies as a "low-effect" plan as defined by our Habitat Conservation Planning Handbook (November 1996). Our determination that an HCP qualifies as a low-effect plan is based on the following criteria: (1) Implementation of the plan would result in minor or negligible effects on federally listed, proposed, and candidate species and their habitats; (2) implementation of the plan would result in minor or negligible effects on other environmental values or resources; and (3) impacts of the plan, considered together with the impacts of other past, present, and reasonably foreseeable similarly situated projects would not result, over time, in cumulative effects to the environmental values or resources that would be considered significant. As more fully explained in our EAS and associated Low Effect Screening Form, the Applicant's proposal to build and operate the Joshua Tree Recreational

Campground qualifies as a "low effect" plan for the following reasons:

(1) Approval of the HCP would result in minor or negligible effects on the desert tortoise and its habitat. The Service does not anticipate significant direct or cumulative effects to the desert tortoise resulting from the proposed development and operation of the project site.

(2) Approval of the HCP would not have adverse effects on unique geographic, historic, or cultural sites, or involve unique or unknown environmental risks.

(3) Approval of the HCP would not result in any cumulative or growth-inducing impacts and would not result in significant adverse effects on public health or safety.

(4) The project does not require compliance with Executive Order 11988 (Floodplain Management), Executive Order 11990 (Protection of Wetlands), or the Fish and Wildlife Coordination Act, nor does it threaten to violate a Federal, State, local or tribal law or requirement imposed for the protection of the environment.

(5) Approval of the HCP would not establish a precedent for future actions or represent a decision in principle about future actions with potentially significant environmental effects.

The Service therefore has made a preliminary determination that approval of the HCP qualifies as a categorical exclusion under the National Environmental Policy Act, as provided by the Department of the Interior Manual (516 DM 2, Appendix 1 and 516 DM 6, Appendix 1). Based upon this preliminary determination, we do not intend to prepare further National Environmental Policy Act documentation. The Service will consider public comments in making its final determination on whether to prepare such additional documentation.

We will evaluate the permit application, the HCP, and comments submitted thereon to determine whether the application meets the requirements of section 10(a) of the Act. If the requirements are met, the Service will issue a permit to the Applicant.

Public Review and Comment

If you wish to comment on the permit application, draft Environmental Action Statement or the proposed HCP, you may submit your comments to the address listed in the **ADDRESSES** section of this document. Our practice is to make comments, including names, home addresses, etc., of respondents available for public review. Individual respondents may request that we withhold their names and/or home

addresses, etc., but if you wish us to consider withholding this information you must state this prominently at the beginning of your comments. In addition, you must provide a rationale demonstrating and documenting that disclosure would constitute a clearly unwarranted invasion of privacy. In the absence of exceptional, documented circumstances, this information will be released. All submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, are available for public inspection in their entirety.

The Service provides this notice pursuant to section 10(c) of the Act and pursuant to implementing regulations for NEPA (40 CFR 1506.6).

Dated: July 18, 2006.

Diane K. Noda,

Field Supervisor, Ventura Fish and Wildlife Office, Ventura, California.

National Park Service

National Register of Historic Places; Notification of Pending Nominations and Related Actions

Nominations for the following properties being considered for listing or related actions in the National Register were received by the National Park Service before July 8, 2006. Pursuant to section 60.13 of 36 CFR part 60 written comments concerning the significance of these properties under the National Register criteria for evaluation may be forwarded by United States Postal Service, to the National Register of Historic Places, National Park Service, 1849 C St., NW., 2280, Washington, DC 20240; by all other carriers, National Register of Historic Places, National Park Service, 1201 Eye St., NW., 8th floor, Washington, DC 20005; or by fax, 202-371-6447. Written or faxed comments should be submitted by August 8, 2006.

John W. Roberts,

Acting Chief, National Register/National Historic Landmarks Program.

BILLING CODE 2210-55-M

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

Importer of Controlled Substances; Notice of Application

Pursuant to 21 U.S.C. 958(i), the Attorney General shall, prior to issuing a registration under this Section to a bulk manufacturer of a controlled substance in Schedule I or II and prior to issuing a regulation under 21 U.S.C. 952(a) (2) (B) authorizing the importation of such a substance, provide manufacturers holding registrations for the bulk manufacture of the substance an opportunity for a hearing.

Therefore, in accordance with 21 CFR 1301.34(a), this is notice that on January 20, 2006, Lipomed Inc., One Broadway, Cambridge, Massachusetts 02142, made application, by letter and by renewal, to the Drug Enforcement Administration (DEA) to be registered as an Importer in the basic classes of controlled substances in Schedule I and II:

Drug	Schedule
Cathinone (1235)	I
Methcathinone (1237)	I
N-Ethylamphetamine (1475)	I
Methaqualone (2565)	I
Gamma-Hydroxybutyric Acid (2010)	I
Lysergic acid diethylamide (7315)	I
2,5-Dimethoxy-4-(n)-propylthiophenethylamine (7348)	I
Marihuana (7360)	I
Tetrahydrocannabinols (7370)	I
Mescaline (7381)	I
3,4,5-Trimethoxyamphetamine (7390)	I
4-Bromo-2,5-dimethoxyamphetamine (7391)	I
4-Bromo-2,5-dimethoxyphenethylamine (7392)	I
4-Methyl-2,5-dimethoxyamphetamine (7395)	I
2,5-Dimethoxyamphetamine (7396)	I
2,5-Dimethoxy-4-ethylamphetamine (7399)	I
3,4-Methylenedioxyamphetamine (7400)	I
3,4-Methylenedioxy-N-ethylamphetamine (7404)	I
3,4-Methylenedioxy-methamphetamine (7405)	I
