

reporting and recordkeeping activities that support the administration of the H2E program.

Responses to the collection of information are voluntary. Respondents may claim all or part of a notice as CBI. EPA will disclose information that is covered by a CBI claim only to the extent permitted by, and in accordance with, the procedures in 40 CFR part 2.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register**, are listed in 40 CFR part 9 and included on the related collection instrument or form, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to range between 0.5 and 20 hours per response, depending upon the type of information the respondent provides. Burden means the total time, effort or financial resources expended by persons to generate, maintain, retain or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install and utilize technology and systems for the purposes of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Establishments or organizations engaged in furnishing medical, surgical or other health services to individuals.

Frequency of Collection: Annual.

Estimated average number of responses for each respondent: 3.2.

Estimated Number of Respondents: 1,582.

Estimated Total Annual Burden on Respondents: 5,551 hours.

Estimated Total Annual Costs: \$188,723.

Changes in Burden Estimates: There is a decrease of 4,559 hours (from 10,110 hours to 5,551 hours) in the total estimated respondent burden compared with that identified in the information collection most recently approved by OMB. This decrease reflects actual program experience in conducting the H2E program over the past three years.

The number of new Partner facilities recruited per year has been revised downward to reflect average recruit numbers. Similarly, the number of award applicants has also been revised downward to reflect the number of award applications received per year. This decrease is an adjustment.

Dated: July 11, 2006.

Agency Information Collection Activities; Submission for OMB Review and Approval; Comment Request; NESHAP for Secondary Aluminum Production, EPA ICR Number 1894.05, OMB Control Number 2060-0433 (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (PRA) (44 U.S.C. 3501 *et seq.*), this document announces that an Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval. This is a request to renew an existing approved collection. The ICR, which is abstracted below, describes the nature of the information collection and its estimated burden and costs.

DATES: Additional comments may be submitted on or before August 25, 2006.

ADDRESSES: Submit your comments, referencing docket ID number EPA-HQ-OECA-2005-0072 to (1) EPA online using <http://www.regulations.gov> (our preferred method), or by e-mail to docket.oeca@epa.gov, or by mail to: EPA Docket Center (EPA/DC), Environmental Protection Agency, Enforcement and Compliance Docket and Information Center, Mail Code 2201T, 1200 Pennsylvania Avenue, NW., Washington, DC 20460, and (2) OMB by mail to: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: Learia Williams, Compliance Assessment and Media Programs Division (CAMPD), Office of

Compliance (OC), (Mail Code 2223A), Environmental Protection Agency, 1200 Pennsylvania Avenue, NW., Washington, DC 20460; telephone number: (202) 564-4113; fax number: (202) 564-0050; e-mail address: williams.learia@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On September 21, 2005 (70 FR 55368), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments. Any additional comments on this ICR should be submitted to EPA and OMB within 30 days of this notice.

EPA has established a public docket for this ICR under Docket ID number EPA-HQ-OECA-2005-0072, which is available for online viewing at <http://www.regulations.gov>, or in person viewing at the Enforcement and Compliance Docket in the EPA Docket Center (EPA/DC), EPA West, Room B102, 1301 Constitution Avenue, NW., Washington, DC. The EPA/DC Public Reading Room is open from 8 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Enforcement and Compliance Docket is (202) 566-1752.

Use EPA's electronic docket and comment system at <http://www.regulations.gov>, to submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the docket that are available electronically. Once in the system, select "docket search," then key in the docket ID number identified above. Please note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing at <http://www.regulations.gov>, as EPA receives them and without change, unless the comment contains copyrighted material, Confidential Business Information (CBI), or other information whose public disclosure is restricted by statute. For further information about the electronic docket, go to <http://www.regulations.gov>.

Title: NESHAP for Secondary Aluminum Production (Renewal).

ICR Numbers: EPA ICR Number 1894.05, OMB Control Number 2060-0433.

ICR Status: This ICR is scheduled to expire on September 30, 2006. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An

Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP) for secondary aluminum production were proposed on February 11, 1999, and promulgated on March 23, 2002, with final rule amendments published on December 30, 2002.

These regulations apply to component processes at secondary aluminum production plants that are major sources and area sources including aluminum scrap shredders, thermal chip dryers, scrap dryers/delacquering kilns/decoating kilns, secondary aluminum processing units (SAPUs) composed of in-line fluxers and process furnaces (including both melting and holding furnaces of various configurations), sweat furnaces, dross-only furnaces, and rotary dross coolers, commencing construction, or reconstruction after the date of proposal. As a result of a rule amendment in 2002, owners and operators of certain aluminum die casting facilities, aluminum foundries, and aluminum extrusion facilities were excluded from the rule coverage. Respondents do not include the owner or operator of any facility that is not a major source of hazardous air pollutant (HAP) emissions except for those that are area sources of dioxin/furan emissions.

In general all NESHAP standards require initial notifications, performance tests, and periodic reports. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, and malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. The notifications, reports, and records are essential in determining compliance, and are required of all sources subject to NESHAP. Semiannual reports are also required.

Any owner or operator subject to the provisions of this subpart must maintain a file of these measurements, and retain the file for at least five years following the collection of such measurements, maintenance reports, and records. All

reports are sent to the delegated state or local authority. In the event that there is no such delegated authority, the reports are sent directly to the EPA regional office.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB Control Number. The OMB Control Numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15, and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 29 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Secondary aluminum production plants.

Estimated Number of Respondents: 1,624.

Frequency of Response: On occasion, initially, and semiannually.

Estimated Total Annual Hour Burden: 93,725.

Estimated Total Annual Costs: \$8,164,143 which includes \$84,000 annualized Capital Startup costs, \$142,000 annualized O&M costs, and \$7,938,143 annualized labor costs.

Changes in the Estimates: There is a decrease of 1,273 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. The decrease in burden is due to a decrease in the number of sources. This decrease is due to a number of sweat furnaces going out of business because of the current economic environment. There is also four less additional sources per-year as compared to the previous ICR.

There is a decrease in the capital/startup and operations and maintenance (O&M) costs from the previous ICR. This is due to the fact that there are four less

sources as compared to the previous ICR.

Dated: July 11, 2006.
