SOCIAL SECURITY ADMINISTRATION

**Agency Information Collection
Activities: Proposed Request and
Comment Request**

The Social Security Administration (SSA) publishes a list of information collection packages that will require clearance by the Office of Management and Budget (OMB) in compliance with Pub. L. 104-13, the Paperwork Reduction Act of 1995, effective October 1, 1995. The information collection packages that may be included in this notice are for new information collections, approval of existing information collections, revisions to OMB-approved information collections, and extensions (no change) of OMB-approved information collections.

SSA is soliciting comments on the accuracy of the agency's burden estimate; the need for the information; its practical utility; ways to enhance its quality, utility, and clarity; and on ways to minimize burden on respondents, including the use of automated collection techniques or other forms of information technology. Written

comments and recommendations regarding the information collection(s) should be submitted to the OMB Desk Officer and the SSA Reports Clearance Officer. The information can be mailed and/or faxed to the individuals at the addresses and fax numbers listed below:

(OMB), Office of Management and Budget, Attn: Desk Officer for SSA, Fax: 202-395-6974.

(SSA), Social Security Administration, DCFAM, Attn: Reports Clearance Officer, 1333 Annex Building, 6401 Security Blvd., Baltimore, MD 21235, Fax: 410-965-6400.

I. The information collections listed below are pending at SSA and will be submitted to OMB within 60 days from the date of this notice. Therefore, your comments should be submitted to SSA within 60 days from the date of this publication. You can obtain copies of the collection instruments by calling the SSA Reports Clearance Officer at 410-965-0454 or by writing to the address listed above.

1. *Employment Relationship Questionnaire—20 CFR 404.1007—0960-0040.* Form SSA-7160-F4 is used in developing the question of employer-employee relationships, except where the worker is an officer of a corporation. This form gathers the information needed for developing the employment relationship, and determining whether a beneficiary is self-employed or an employee. Respondents are beneficiaries questioning their status as employees and employers.

Type of Request: Extension of an OMB-approved information collection.

Number of Respondents: 16,000.
Frequency of Response: 1.
Average Burden Per Response: 25 minutes.

Estimated Annual Burden: 6,667 hours.

2. *State Supplementation Provisions: Agreement; Payments—20 CFR 416.2095-416.2098, 416.2099-0960-0240.* Section 1618 of the Social Security Act contains pass-along provisions of the Social Security amendments. These provisions require that States which supplement the Federal Supplemental Security Income (SSI) payments also pass along Federal cost-of-living increases to individuals who are eligible for State supplemental payments. If a State fails to keep payments at the required level, it becomes ineligible for Medicaid reimbursement under Title XIX of the Social Security Act. In order to make sure the States are keeping the payments, they submit their payment amounts to SSA. Seven of the participating States may use a total-expenditures method, in which they send their total expenditures to SSA four times per year to prove that they are maintaining the regulated cost-of-living increase. The remaining twenty three States send SSA one annual report which shows that they have maintained the cost-of-living increase as per the regulations. Respondents are State agencies administering supplemental programs.

Type of Request: Extension of an OMB-approved information collection.
Number of Respondents: 30.

| Reporting method | Number of respondents | Frequency of response | Average burden per response | Estimated annual burden hours |
|-------------------------------------|-----------------------|-----------------------|-----------------------------|-------------------------------|
| Total Expenditures | 7 | 4 | 60 | 28 |
| Maintenance of Payment Levels | 23 | 1 | 60 | 23 |
| Total | 30 | | | 51 |

Estimated Annual Burden: 51 hours.
3. *Vocational Rehabilitation Provider Claim—20 CFR 404.2108(b), 404.2117(c)(1) and (2), 404.2101(b) and (c), 404.2121(a), 416.2208(b), 416.2217(c)(1) and (2), 416.2201(b) and (c), 416.2221(a)—0960-0310.* SSA refers certain disability beneficiaries to State Vocational Rehabilitation (VR) agencies for vocational rehabilitation services. Under Social Security regulations, the State VR agencies must report certain information to SSA as follows:

(a) The State VR agencies use the SSA-199 to make claims for reimbursement of the costs incurred

from providing VR services for the beneficiaries. The information collected on the SSA-199 is used by SSA to determine whether or not, and how much, to pay the VR agencies under SSA's VR program (20 CFR 404.2108(b) and 416.2208(b).

(b) SSA requires the VR agencies to certify their adherence to cost containment policies and procedures to ensure that the costs we reimburse are in accordance with these cost containment policies (20 CFR 404.2117(c) and 416.2217(c).

(c) SSA requires the VR agencies to prepare causality statements for

validation review. This enables SSA to assess the appropriateness of its reimbursement policies, and when/ where changes should be considered to ensure that maximum benefits from VR services are secured at the appropriate level of cost to the trust/general funds.

Respondents are State VR agencies who offer Vocational and Employment services for SSA beneficiaries.

Type of Request: Revision of an OMB-approved information collection.

Number of Respondents: 80.

Estimated Annual Burden: 5,320 hours.

4. *Medicare Part B Income-Related Premium—Life-Changing Event Form—0960—NEW.* As per the Medicare Modernization Act of 2003, beginning in January 2007 selected beneficiaries of Medicare Part B insurance will have to pay a new income-related monthly adjustment amount (IRMAA). The amount of the IRMAA is based on income tax return data obtained from the Internal Revenue Service. If affected

Medicare Part B beneficiaries believe that more recent tax data should be used because a life-changing event has occurred that significantly reduces their income, they can report these changes to SSA and ask for a new initial determination of their IRMAA. SSA believes that most respondents will go to a field office and do this in person; however some respondents may choose to contact SSA by mail and they can use

form SSA-44, the Medicare Part B Income-Related Premium—Life-Changing Event form. The respondents are Medicare Part B beneficiaries who want SSA to use more recent income data in determining the amount of their IRMAA.

Type of Request: New information collection.

4. *Protection and Advocacy for Beneficiaries of Social Security (PABSS)—Program Performance Report—0960—NEW.*

Background

In August of 2004, SSA announced its intention to award grants to establish community-based protection and advocacy projects in every State and U.S. Territory, as authorized under section 1150 of the Social Security Act. Potential awardees were protection and advocacy organizations established under Title I of the Developmental Disabilities Assistance and Bill of Rights Act which submitted a timely application conforming to the

requirements in the notice. The projects funded under this grant are part of SSA's strategy to increase the number of beneficiaries who return to work and achieve self-sufficiency as the result of receiving advocacy or other services. The overall goal of the program is to provide information and advice about obtaining vocational rehabilitation and employment services and to provide advocacy or other services that a beneficiary with a disability may need to secure, maintain, or regain gainful employment.

Collection Activity

The PABSS Program Performance Report collects statistical information

from the various Protection and Advocacy (P&A) projects to manage program performance. SSA uses the information to evaluate the efficacy of the program and to ensure that those dollars appropriated for PABSS services are being spent on SSA beneficiaries. The project data will be valuable to SSA in its analysis of and future planning for the Social Security Disability Insurance (SSDI) and SSI programs. The respondents to this collection are the 57 designated P&A project system sites in each of the fifty States, the District of Columbia, and the U.S. Territories.

Type of Request: New information collection.

5. *Pilot Program for Participating in Administrative Law Judge Hearings by Using Privately Owned Video Teleconferencing (VTC) Equipment.*

Background

On February 3, 2003, the Commissioner of Social Security published a final rule allowing SSA to conduct hearings before administrative law judges (ALJs) at which a party or parties to the hearing and/or a witness

or witnesses may appear before the ALJ by video teleconferencing (68 FR No. 22, 5210). In that final rule we noted that dialing into SSA's VTC network from private facilities, such as facilities owned by a law firm, could be possible at a future date. Appearances by video

teleconference are also central to the rules for the new disability determination process (final rule published March 31, 2006 71 FR No. 62, 16423). Pursuant to these rules, SSA is now preparing to pilot a program wherein private representatives and their clients may appear at ALJ hearings using privately owned video equipment.

The VTC Activity

SSA plans to expand its Video Teleconferencing program of Administrative Law Judge hearings by allowing these hearings to be conducted from private representative sites that

have been certified by the agency. Representatives who are interested in participating in the pilot program or the permanent program will need to provide some basic information about their location, the area they serve and their expected workload. Because private video sites are being used, the pilot guidelines provide for site inspections, certain on-the-record certifications and other claimant safeguards to help ensure that no claimants are disadvantaged by participating in their hearing from a private site. Respondents to this collection will be the claimant's

representatives who elect to participate in the pilot.

The pilot is structured to begin with 10 private video sites expanding to 30 private sites after a six month evaluation period. There will be a second evaluation period after the 30 sites have operated for a six month period. SSA will then make final decisions regarding operating procedures for a permanent program.

Type of Request: New Information Collection.

Total Burden Hours for all Collections: 717 burden hours (shown below).

This form can also be used to submit any additional information/evidence for use in the reconsidered determination and to indicate if an interpreter is needed for the hearing. SSA will use this information to either arrange for a hearing or to prepare a decision based on the evidence of record. The

respondents are applicants or claimants for Social Security benefits or Supplemental Security Income (SSI) payments.

Services are password protected when it is necessary due to the nature of the information being transmitted or because the requestor requires a higher level of protection. The password process allows requestors to establish their identities with SSA and create a

password which they can then use to access their own personal information. The respondents are individuals electing to do business with SSA through an electronic medium.
