

Technology Procurements

Technology procurement is an established process for encouraging market introduction of new products that meet certain performance criteria. DOE has employed this approach successfully with other lighting technologies, including sub-CFLs and reflector CFLs. DOE plans to employ technology procurement to encourage new SSL systems and products that meet established energy efficiency and performance criteria, and link these products to volume buyers and market influencers. Volume buyers may include the federal government (FEMP, DLA, GSA), utilities, or various sub-sectors including hospitals, lodging, or retail.

Demonstration and Performance Verification

DOE will develop valuable information from SSL installations in various field applications through demonstration and performance verification, including design and installation issues and measurement of energy consumption, light output, color quality, and interface/control issues.

Technical Information Network

Working with key organizations and companies already involved in providing technical information to the market on energy-efficient technologies (such as energy efficiency organizations, electric utilities, state energy offices, and energy consulting companies), DOE plans to establish a network through which SSL technical information can be efficiently distributed to the market.

University and Professional Education Programs

DOE will support development of training materials and curricula for design professionals, including interior designers, lighting designers, and architects. To support development of the next generation of engineers and designers who will implement SSL, DOE will also support development of teaching materials and related information on SSL technologies for universities.

Issued in Morgantown, WV, on July 17, 2006.

Eddie Christy,

Building and Industrial Technologies Division Director.

[Project No. 12581-001]

Cambria Somerset Authority; Notice of Surrender of Preliminary Permit

July 26, 2006.

Take notice that Cambria Somerset Authority, permittee for the proposed Que Pumped Storage Project, has requested that its preliminary permit be terminated. The permit was issued on December 15, 2005, and would have expired on November 30, 2008.¹ The project would have been located on the Quemahoning Creek, in Somerset County, Pennsylvania.

The permittee filed the request on July 14, 2006, and the preliminary permit for Project No. 12581 shall remain in effect through the thirtieth day after issuance of this notice unless that day is a Saturday, Sunday, part-day holiday that affects the Commission, or legal holiday as described in section 18 CFR 385.2007, in which case the effective date is the first business day following that day. New applications involving this project site, to the extent provided for under 18 CFR part 4, may be filed on the next business day.

Magalie R. Salas,
Secretary.

[Docket No. RP06-442-000]

El Paso Natural Gas Company; Notice of Tariff Filing

July 26, 2006.

Take notice that on July 21, 2006, El Paso Natural Gas Company (EPNG) tendered for filing as part of its FERC Gas Tariff, Second Revised Volume No. 1-A, First Revised Sheet No. 375, to be effective July 10, 2006.

EPNG states that this tariff sheet is filed to establish rights and conditions for TSAs subject to Article 11.2 of EPNG's 1996 Settlement regarding out-of-zone charges, capacity release, and scheduling priorities.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and

Procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed in accordance with the provisions of Section 154.210 of the Commission's regulations (18 CFR 154.210). Anyone filing an intervention or protest must serve a copy of that document on the Applicant. Anyone filing an intervention or protest on or before the intervention or protest date need not serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov, or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Magalie R. Salas,
Secretary.
