[Docket No. RP06-394-001]

#### Northwest Pipeline Corporation; Notice of Supplemental Information

July 27, 2006.

Take notice that on July 24, 2006, Northwest Pipeline Corporation (Northwest) tendered for filing its supplemental explanatory information in compliance with the Commission's July 14, 2006, letter order.

Any person desiring to protest this filing must file in accordance with Rule 211 of the Commission's Rules of Practice and Procedure (18 CFR 385.211). Protests to this filing will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Such protests must be filed on or before the date as indicated below. Anyone filing a protest must serve a copy of that document on all the parties to the proceeding.

The Commission encourages electronic submission of protests in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible online at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC

Online service, please e-mail [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov), or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Docket No. CP06-423-000]

#### Questar Overthrust Pipeline Company; Notice of Application

July 27, 2006

Take notice that on July 19, 2006, Questar Overthrust Pipeline Company (Overthrust), 180 East 100 South, Salt Lake City, Utah 84111, filed an application under section 7 of the Natural Gas Act seeking authority to construct and operate the Wamsutter Expansion Project consisting of: (i) 77.2 miles of 36-inch diameter pipeline and related facilities extending from the eastern terminus of its transmission system located at Questar Pipeline Company's Kanda-Nightingale-Coleman Compressor Complex and terminating at the proposed interconnect with Rockies Express Pipeline LLC (REX) near Wamsutter, Wyoming (Wamsutter) in Sweetwater County; (ii) 700 feet of 20-inch diameter main-line connector pipeline and related facilities extending from the Rendezvous Tap Valve<sup>1</sup> to a tie-in point with Tie Line (TL) 90 in Lincoln County, Wyoming; (iii) the new Roberson compressor station, totaling 30,000 horsepower (Hp), in Lincoln County, Wyoming; (iv) the new Rock Springs compressor station, totaling 15,000 Hp, in Sweetwater County, Wyoming; (v) three new receipt points; and (vi) one new delivery point, with the project components located within Lincoln, Uinta and Sweetwater Counties, Wyoming, all as more fully set forth in the application which is on file with the Commission and open for public inspection. These filings are available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the

<sup>1</sup> The Rendezvous Tap Valve is proposed to be installed as part of Overthrust's expansion project in Docket No. CP06-167-000.

document. For assistance, please contact FERC Online Support at [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov) or toll free at (866) 208-3676, or for TTY, contact (202) 502-8659.

Any questions regarding this application should be directed to Lenard G. Wright, Manager, Federal Regulatory Affairs, Questar Pipeline Company, 180 East 100 South, P.O. Box 45360, Salt Lake City, Utah 84145-0360 at (801) 324-2459, or by fax at (801) 324-5834.

The proposed Wamsutter Expansion project will enable Overthrust to transport an additional 750,000 Dth/d of natural gas from the proposed new receipt points on Overthrust's interstate transmission system to an existing interconnect with Wyoming Interstate Company, Ltd. (WIC), and 625,000 Dth/d to the proposed delivery point with REX near Wamsutter, Wyoming. It is further explained that Overthrust has negotiated a long-term capacity lease with REX, initially for 625,000 Dth/d of incremental transportation capacity and a firm precedent agreement with WIC for 125,000 Dth/d that supports construction of the proposed project. Overthrust estimates the total cost for the Wamsutter Expansion to be \$202.3 million and requests the Commission issue an order by March 31, 2007.

On March 29, 2006, the Commission staff granted Overthrust's request to utilize the National Environmental Policy Act (NEPA) Pre-Filing Process and assigned Docket No. PF06-19-000 to staff activities involving the Overthrust's expansion project. Now, as of the filing of Overthrust's application on July 19, 2006, the NEPA Pre-Filing Process for this project has ended. From this time forward, Overthrust's proceeding will be conducted in Docket No. CP06-423-000, as noted in the caption of this Notice. Additionally, the Commission will review the project as a part of the Environmental Impact Statement being prepared for the REX Project in Docket No. CP06-354-000.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the below listed comment date, file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the

Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

Motions to intervene, protests and comments may be filed electronically via the internet in lieu of paper; see, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link. The Commission strongly encourages electronic filings.

### Federal Energy Regulatory Commission

[Docket Nos. EL06-91-000, P-12252-023]

#### Fourth Branch Associates (Mechanicville), Complainant, v Hudson River-Black Regulating District, Respondent; Notice of Complaint

July 27, 2006.

On July 25, 2006, Fourth Branch Associates (Fourth Branch) filed a formal complaint against Hudson River-Black River Regulating District (District) pursuant to Rule 206 of the Commission's Rules of Practice and Procedure, 18 CFR 385.206 (2006), and section 306 of the Federal Power Act (FPA), 16 U.S.C. 825(e).

In 2002, the Commission issued an original license to the District for the continued operation of the Great Sacandaga Lake Project No. 12252.<sup>1</sup> The project is located on the Sacandaga River, a tributary of the Hudson River. Fourth Branch is the licensee for the Mechanicville Project No. 6032, located on the Hudson River downstream of the Sacandaga River.<sup>2</sup>

Fourth Branch alleges that when the District became a licensee in 2002, its annual assessment of charges against Fourth Branch to cover a portion of the District's costs of operating and maintaining Great Sacandaga Lake came under the headwater benefits provisions of section 10(f) of the FPA, 16 U.S.C. 803(f) (2000), and sections 11.10 through 11.17 of the Commission's regulations, 18 CFR 11.10-11.17 (2006). Fourth Branch further alleges that since 2002, the District has continued to assess and collect these charges from Fourth Branch notwithstanding the absence of an agreement with Fourth Branch for those charges or Commission approval of the charges. Moreover, Fourth Branch contends, despite Commission orders in 2002 and 2004 requiring the District to submit both its headwater benefits charges agreement and actual charges to the Commission for approval,<sup>3</sup> the District has failed to do so, and is therefore in violation of the FPA and the Commission's regulations.

Fourth Branch certifies that copies of the complaint were served on the District, as well as all Hudson River hydroelectric and municipal flood

<sup>1</sup> Hudson River-Black River Regulating District, 100 FERC ¶ 61,319 (2002); order on rehearing, 102 FERC ¶ 61,133 (2003).

<sup>2</sup> There are a number of other licensed projects located downstream of the District's project.

<sup>3</sup> See 100 FERC ¶ 61,319 at P 47-49; and 102 FERC ¶ 61,133 at P 13-14.

control recipients of annual assessment bills from the District.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. The Respondent's answer and all interventions, or protests must be filed on or before the comment date. The Respondent's answer, motions to intervene, and protests must be served on the Complainants.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s).
