**Scope of the Order**

Imports covered by this order are shipments of certain cased pencils of any shape or dimension (except as noted below) which are writing and/or drawing instruments that feature cores of graphite or other materials, encased in wood and/or man-made materials, whether or not decorated and whether or not tipped (*e.g.*, with erasers, etc.) in any fashion, and either sharpened or unsharpened. The pencils subject to the order are currently classifiable under subheading 9609.10.00 of the Harmonized Tariff Schedule of the United States (HTSUS). Specifically excluded from the scope of the order are mechanical pencils, cosmetic pencils, pens, non-cased crayons (wax), pastels, charcoals, chalks, and pencils produced under U.S. patent number 6,217,242, from paper infused with scents by the means covered in the above-referenced patent, thereby having odors distinct from those that may emanate from pencils lacking the scent infusion. Also excluded from the scope of the order are pencils with all of the following physical characteristics: 1) length: 13.5 or more inches; 2) sheath diameter: not less than one-and-one quarter inches at any point (before sharpening); and 3) core length: not more than 15 percent of the length of the pencil.

In addition, pencils with all of the following physical characteristics are excluded from the scope of the order: novelty jumbo pencils that are octagonal in shape, approximately ten inches long, one inch in diameter before sharpening, and three-and-one eighth inches in circumference, composed of turned

wood encasing one-and-one half inches of sharpened lead on one end and a rubber eraser on the other end.

Although the HTSUS subheading is provided for convenience and customs purposes, our written description of the scope of the order is dispositive.

**Amended Final Results**

In accordance with section 751(a) the Act, on July 6, 2006, the Department published its final results and partial rescission of the administrative review of certain cased pencils from the People's Republic of China. *See Final Results.*

On July 10, 2006, CFP/Three Star submitted a ministerial error allegation with respect to the final results of administrative review. No other interested party submitted ministerial error allegations. No party submitted comments on the ministerial error allegation submitted by CFP/Three Star. In accordance with section 751(h) of the Act, we have determined that a ministerial error was made in the calculation of the final margin for CFP/Three Star. *See Memorandum from Charles Riggle, Program Manager, AD/CVD Operations, Office 8, to Wendy J. Frankel, Director, AD/CVD Operations, Office 8: Antidumping Duty Administrative Review of Certain Cased Pencils from the People's Republic of China, Allegation of Ministerial Error (July 28, 2006).* Pursuant to section 751(h) of the Act, we have corrected the error and are amending the final results of review accordingly. *See Memorandum from Paul Stolz, Case Analyst through Charles Riggle, Program Manager, to the File, Analysis Memorandum for Amended Final Results for China First Pencil Co., Ltd./ Shanghai Three Star Stationery Industry Corp. (July 28, 2006).* The revised final weighted-average dumping margin is as follows:

Exporter/Manufacturer	Original Weighted-Average Margin Percentage	Amended Weighted-Average Margin Percentage
China First Pencil Co., Ltd./Shanghai Three Star Stationery Industry Corp. ....	26.62	2.76

The Department shall determine, and CBP shall assess, antidumping duties on all appropriate entries based on the amended final results. For details on the assessment of antidumping duties on all appropriate entries, *see Final Results*. This notice is published pursuant to section 777(i) of the Act and 19 CFR 351.224(e).

**Final Results of Expedited Sunset Review: Ferrovandium and Nitrided Vanadium from Russia**

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**SUMMARY:** On May 1, 2006, the Department of Commerce (“the Department”) initiated a sunset review of the antidumping duty order on ferrovanadium and nitrided vanadium from Russia pursuant to section 751(c) of the Tariff Act of 1930, as amended (“the Act”). The Department conducted an expedited (120-day) sunset review of this order. As a result of this sunset review, the Department finds that revocation of the antidumping duty order would be likely to lead to continuation or recurrence of dumping. The dumping margins are identified in the *Final Results of Review* section of this notice.

**EFFECTIVE DATE:** August 8, 2006.

**FOR FURTHER INFORMATION:** David Goldberger or Brandon Farlander, AD/CVD Operations, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street & Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482-4136 or (202) 482-0182, respectively.

**SUPPLEMENTARY INFORMATION:**

**Background:**

On May 1, 2006, the Department published the notice of initiation of the second sunset review of the antidumping duty order on ferrovanadium and nitrided vanadium from Russia pursuant to section 751(c) of the Act. *See Initiation of Five-year (“Sunset”) Reviews*, 71 FR 25568 (May 1, 2006). The Department received the Notice of Intent to Participate from the Vanadium Producers and Reclaimers Association (VPRAs) and its members: Gulf Chemical and Metallurgical Corporation and its wholly owned subsidiary, Bear Metallurgical Corporation; and Metallurgical Vanadium

Corporation (collectively “the domestic interested parties”), within the deadline specified in 19 CFR 351.218(d)(1)(i). The domestic interested parties claimed interested party status under section 771(9)(C) and (E) of the Act, as manufacturers of a domestic-like product in the United States, and a trade or business association of a majority of whose members manufacture, produce, or wholesale a domestic like product in the United States. We received complete substantive responses from the domestic interested parties within the 30-day deadline specified in 19 CFR 351.218(d)(3)(i). We received no responses from any respondent interested parties. As a result, pursuant to section 751(c)(4)(A) of the Act and 19 CFR 351.218(e)(1)(ii)(C)(2), the Department conducted an expedited (120-day) sunset review of the order.

**Scope of the Order**

The products covered by the order are ferrovanadium and nitrided vanadium, regardless of grade, chemistry, form or size, unless expressly excluded from the scope of this order. Ferrovanadium includes alloys containing ferrovanadium as the predominant element by weight (*i.e.*, more weight than any other element, except iron in some instances) and at least 4 percent by weight of iron. Nitrided vanadium includes compounds containing vanadium as the predominant element, by weight, and at least 5 percent, by weight, of nitrogen.

Excluded from the scope of the order are vanadium additives other than ferrovanadium and nitrided vanadium, such as vanadium-aluminum master alloys, vanadium chemicals, vanadium waste and scrap, vanadium-bearing raw materials, such as slag, boiler residues, fly ash, and vanadium oxides.

The products subject to this order are currently classifiable under subheadings 2850.00.20, 7202.92.00, 7202.99.5040, 8112.40.3000, and 8112.40.6000 of the Harmonized Tariff Schedule of the United States (“HTSUS”). Although the HTSUS subheadings are provided for convenience and customs purposes, our written description of the scope is dispositive.

**Analysis of Comments Received**

All issues raised in this review are addressed in the “Issues and Decision Memorandum for the Final Results Expedited Sunset Review of the Antidumping Duty Order on Ferrovanadium and Nitrided Vanadium from Russia” (“Decision Memo”), which is hereby adopted by this notice. The issues discussed in the Decision Memo include the likelihood of continuation or recurrence of dumping and the magnitude of the margins likely to prevail if the orders were to be revoked. Parties can find a complete discussion of all issues raised in these reviews and the corresponding recommendations in this public memorandum which is on file in the Central Records Unit, room B-099 of the main Commerce building.

In addition, a complete version of the Decision Memo can be accessed directly on the Web at <http://ia.ita.doc.gov/frn/index.html>. The paper copy and electronic version of the Decision Memo are identical in content.

**Final Results of Review**

We determine that revocation of the antidumping duty order on ferrovanadium and nitrided vanadium from Russia would be likely to lead to continuation or recurrence of dumping at the following weighted-average percentage margins:

Manufacturers/Exporters/Producers	Weighted Average Margin (percent)
Galt Alloys, Inc .....	3.75
Gesellschaft für Elektrometallurgie m.b.H. (and its related companies Shieldalloy Metallurgical Corporation and Metallurg, Inc.) .....	11.72
Odermet .....	10.10
All Other Russian Manufacturers and Exporters* .....	108.00

\* Prior to Russia’s graduation to market-economy status, this rate was referred to as the Russia-wide rate.

This notice also serves as the only reminder to parties subject to administrative protective orders (“APO”) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely notification of the return or destruction of APO materials or conversion to judicial protective orders is hereby requested. Failure to

comply with the regulations and terms of an APO is a violation which is subject to sanction.

We are issuing and publishing the results and notice in accordance with sections 751(c), 752, and 777(i)(1) of the Act.

Dated: August 1, 2006.
