SUPPLEMENTARY INFORMATION: Pursuant to the Federal Advisory Committee Act, Public Law 92-463, notice is hereby given that the SAB Integrated Human Exposure Committee and the Environmental Health Committee will hold two public meetings to conduct a consultation on the efforts of the EPA to improve its risk assessment practices and to update its Exposure Guidelines. The SAB was established by 42 U.S.C. 4365 to provide independent scientific and technical advice to the Administrator on the technical basis for Agency positions and regulations. The SAB is a Federal Advisory Committee chartered under the Federal Advisory Committee Act (FACA), as amended, 5 U.S.C., App. The SAB will comply with the provisions of FACA and all appropriate SAB Staff Office procedural policies.

Background: In March 2004, EPA issued a staff paper entitled, "An Examination of EPA Risk Assessment Principles and Practices" (available at: <http://www.epa.gov/osa/pdfs/ratf-final.pdf>). The staff paper presented the perspectives of EPA risk assessors on their understanding of how risk assessments are conducted in EPA and staff recommendations for strengthening and improving its practices. EPA is seeking the SAB's recommendations regarding their current and planned activities to improve risk assessment.

In addition, in 1992, EPA's Guidelines for Exposure Assessment (available at: <http://cfpub.epa.gov/ncea/cfm/recordisplay.cfm?deid=15263>) was published. Exposure assessment has changed significantly with the advancement of probabilistic analyses, human activity factors, and consideration of susceptible populations and life stages.
