

## POLICY JUSTIFICATION

### Spain – Turbine Engines

The Government of Spain has requested a possible sale of 43 T55-GA-714A Turbine Engines, modification and fielding kits, test equipment, technical assistance, spare and repair parts, and other related elements of logistics support. The estimated cost is \$73 million.

This proposed sale will contribute to the foreign policy and national security objectives of the United States by helping to improve the military capabilities of Spain and furthering standardization and interoperability with U.S. forces.

Spain needs these engines to replace those used in the CH-47 Chinook aircraft supporting coalition operations. The proposed sale will enhance Spain's ability to continue to engage in coalition warfare along with the U.S. Army. Spain will have no difficulty absorbing these additional engines into its armed forces.

The proposed sale of this equipment and support will not affect the basic military balance in the region.

The prime contractor will be Honeywell International of Phoenix Arizona. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any U.S. Government or contractor representatives to Spain.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

\* as defined in Section 47(6) of the Arms Export Control Act.

## POLICY JUSTIFICATION

### Netherlands – F-16 Pilot Training and Logistics Support

The Government of the Netherlands has requested a possible sale to establish a Continental United States (CONUS)-based Royal Netherlands Air Force F-16 Formal Training Unit (FTU) to include: 130 Laser Guided Training rounds, 150,000 20mm Target Practice training bullets, 3,750 BDU-33 low-drag training bombs, 875 MK-106 high-drag training bombs, pilot training, JP-8 fuel, air refueling support, CONUS base start up, base operating support, facilities, and other related operational/logistics services and support. The estimated cost is \$200 million.

This proposed sale contributes to the foreign policy and national security objectives of the U.S. by improving the military capabilities of the Netherlands and enhancing standardization and interoperability with U.S. forces.

Springfield-Beckley Air National Guard Base, Ohio is the location where the Netherlands Air Force will train aircrews in aircraft operations and tactics. This training will enhance the Royal Netherlands Air Force's ability to continue contributions to the Global War on Terrorism, to North Atlantic Treaty Organization air policing operations in Afghanistan, as well as, to possible future coalition operations.

The proposed sale of this equipment and support will not affect the basic military balance in the region.

The U.S. Air Force will provide program management for the FTU. The Ohio Air National Guard will provide instruction, flight operations, and maintenance support and facilities. There is no prime contractor involved in this program. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any U.S. Government or contractor representatives to the Netherlands.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
