

establishes a number of obligations for both countries to control reciprocal fishing in waters of one country by vessels of the other country. One obligation is that each country is required to annually provide to the other country a list of its fishing vessels which propose to fish for Pacific albacore tuna off the coast of the other country for each fishing season. As described in the 2004 final rule in 69 FR 31531, published on June 4, 2004, and at 50 CFR 300.172, the list is to include vessel and owner name, address, and phone number; USCG documentation number (or state registration if not documented); vessel operator (if different from the owner) and his or her address with phone number. Each U.S. vessel must be on the list for at least 7 days prior to engaging in fishing under the Treaty. This is intended to ensure that both countries have equal information as to eligible vessels, and U.S. and Canadian enforcement offices can obtain lists of eligible vessels that are up to date to facilitate enforcement. Vessel owners who wish their vessel to remain on or be added to the vessel list must contact NMFS at the ADDRESSES section listed above and provide the required information. NMFS will notify fishermen by a confirmation letter or email that they are on the vessel list.

This revision to procedures is necessary for NMFS to reconstruct the 2006 vessel list. Previous to the 2006 fishing season, NMFS did not require owners of any albacore fishing vessels that wanted their vessels to be on the list of U. S. vessels eligible to fish for albacore tuna in Canadian waters under the Treaty to contact NMFS. Instead, NMFS relied on a lengthy list created from information provided by industry that was not readily verifiable nor did it indicate to NMFS whether each vessel owner actually wished to be eligible to fish for albacore tuna in Canada for any given year. The result was that NMFS did not have an effective and efficient way of annually providing the Canadian government an updated vessel list of vessels owners who intended to fish for albacore tuna in Canada for a particular fishing season.

NMFS is undertaking rulemaking to clarify the requirements of 50 CFR 300.172.
