 Third Revised Sheet No. 278–A  
 Fourth Revised Sheet No. 278–C

Northwest states that the purpose of this filing is to revise its tariff to establish a right of first refusal exemption for interim contracts covering capacity already committed under pre-arranged future transactions.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed in accordance with the provisions of Section 154.210 of the Commission's regulations (18 CFR 154.210). Anyone filing an intervention or protest must serve a copy of that document on the Applicant. Anyone filing an intervention or protest on or before the intervention or protest date need not serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). #### Questar Pipeline Company; Notice of Tariff Filing

August 16, 2006.

Take notice that on August 14, 2006, Questar Pipeline Company (Questar), tendered for filing as part of its FERC Gas Tariff, First Revised Volume No. 1, the following tariff sheets, to become effective September 13, 2006:

Sixth Revised Sheet No. 42.  
 Eighth Revised Sheet No. 46B.  
 Twelfth Revised Sheet No. 59.  
 Second Revised Sheet No. 59A.  
 Eleventh Revised Sheet No. 75.  
 Eleventh Revised Sheet No. 99A.

Questar states that it proposes to address three categories of miscellaneous cleanup items to its tariff regarding references to the North American Energy Standards Board (NAESB) standards: (1) Removal of NAESB "principles" (listed as x.1.x) or "contracts" standards (listed as 6.x.x) that are not required by the Commission's regulations to be referenced in the tariff; (2) correction of typographical errors and other inadvertent omissions and (3) miscellaneous corrections to make tariff language consistent with NAESB standards and correct formatting inconsistencies.

Questar states that copies of this filing were served upon Questar's customers, the Public Service Commission of Utah and the Public Service Commission of Wyoming.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). ### Federal Energy Regulatory Commission

[Docket No. CP04-400-001]

#### Golden Pass Pipeline L.P.; Notice of Availability of the Environmental Assessment for the Proposed Optimized Pipeline Project

August 15, 2006.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an Environmental Assessment (EA) on the natural gas pipeline facilities proposed for the Optimized Pipeline Project (OP Project) in Jefferson and Orange Counties, Texas, in the above-referenced docket. The OP Project is an amendment to the Golden Pass Liquefied Natural Gas (LNG) Terminal and Pipeline Project proposed in Docket Nos. CP04-386-000 and CP04-400-000 and approved in an order issued by the Commission on July 6, 2005 (Order). The OP Project amends only certain pipeline facilities approved in Docket No. CP04-400-000. The OP project includes the Optimized Design

Variation and the Optimized Route Variation.

The EA was prepared to satisfy the requirements of the National Environmental Policy Act (NEPA). The staff concludes that approval of the proposed project with appropriate mitigating measures as recommended, would not constitute a major federal action significantly affecting the quality of the human environment. The EA also evaluates alternatives to the proposal.

The EA addresses the potential environmental effects of the construction and operation of the following amended natural gas pipeline facilities:

- The Optimized Design Variation would replace the two 36-inch-diameter pipelines (Mainline and Loop) approved in the Order with a single 42-inch-diameter pipeline from the pipeline origin at milepost (MP) 0.0 at the Golden Pass LNG Terminal to the American Electric Power Texoma Pipeline interconnection at MP 42.8; and

- The Optimized Route Variation would incorporate a route change between MP 14.1 and MP 34.9 that would reduce the pipeline length between these two points from 20.8 miles to 11.9 miles; and

- The relocation of the interconnections to Kinder Morgan (KM) Tejas Pipeline, KM Texas Pipeline, and Centana Gas Pipeline due to construction of the amended facilities.

The purpose of the proposed facilities would be the same as that authorized in the Order: to provide an additional source of firm, long-term, and competitively priced natural gas to the Texas intrastate and interstate natural gas markets.

The EA has been placed in the public files of the FERC. A limited number of copies of the EA are available for distribution and public inspection at: Federal Energy Regulatory Commission, Public Reference Room, 888 First Street, NE., Room 2A, Washington, DC 20426, (202) 502-8371.

Copies of the EA have been mailed to Federal, State and local agencies, public interest groups, interested individuals, newspapers, and parties to this proceeding.

Any person wishing to comment on the EA may do so. To ensure consideration prior to a Commission decision on the proposal, it is important that we receive your comments before the date specified below. Please carefully follow these instructions to ensure that your comments are received in time and properly recorded:

- Send an original and two copies of your comments to: Secretary, Federal

Energy Regulatory Commission, 888 First St., NE., Room 1A, Washington, DC 20426;

- Reference: Docket No. CP04-400-001;

- Label one copy of the comments for the attention of Gas Branch 2, PJ11.2; and

- Mail your comments so that they will be received in Washington, DC on or before September 14, 2006.

Please note that we are continuing to experience delays in mail deliveries from the U.S. Postal Service. As a result, we will include all comments that we receive within a reasonable time frame in our environmental analysis of this project. However, the Commission strongly encourages electronic filing of any comments or interventions or protests to this proceeding. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site at <http://www.ferc.gov> under the "e-Filing" link and the link to the User's Guide. Before you can file comments you will need to create a free account which can be created by clicking on "Sign-up."

Comments will be considered by the Commission but will not serve to make the commentator a party to the proceeding. Any person seeking to become a party to the proceeding must file a motion to intervene pursuant to Rule 214 of the Commission's Rules of Practice and Procedures (18 CFR 385.214).<sup>1</sup> Only intervenors have the right to seek rehearing of the Commission's decision.

Affected landowners and parties with environmental concerns may be granted intervenor status upon showing good cause by stating that they have a clear and direct interest in this proceeding which would not be adequately represented by any other parties. You do not need intervenor status to have your comments considered.
