

and reconstruction efforts being performed for purposes of the compensation program, and advice on petitions to add classes of workers to the Special Exposure Cohort (SEC).

In December 2000, the President delegated responsibility for funding, staffing, and operating the Advisory Board to HHS, which subsequently delegated this authority to the CDC. NIOSH implements this responsibility for CDC. The charter was issued on August 3, 2001, renewed at appropriate intervals, and will expire on August 3, 2007.

Purpose: This Advisory Board is charged with (a) providing advice to the Secretary, HHS, on the development of guidelines under Executive Order 13179; (b) providing advice to the Secretary, HHS, on the scientific validity and quality of dose reconstruction efforts performed for this program; and (c) upon request by the Secretary, HHS, advise the Secretary on whether there is a class of employees at any Department of Energy facility who were exposed to radiation but for whom it is not feasible to estimate their radiation dose, and on whether there is reasonable likelihood that such radiation doses may have endangered the health of members of this class.

Matters to be Discussed: The agenda for the Subcommittee meeting includes Individual Dose Reconstruction Reviews and Procedures Reviews; Subcommittee Operations and Future Plans. The agenda for the Advisory Board meeting includes Presentation of SEC Petitions for Oak Ridge Institute of Nuclear Studies (ORINS), Chapman Valve, S-50 Thermal, and Los Alamos National Laboratory (LANL) (Radioactive Lanthanum Exposure); Updates on SEC Petitions for Nevada Test Site (NTS), Pacific Proving Ground (PPG), Ames Laboratory, and Rocky Flats Plant; Working Group Reports on the Savannah River Site (SRS) Profile, NTS Site Profile, and SEC Petitions; Individual Dose Reconstruction Reviews; Procedures Review; NIOSH Conflict of Interest Policy; Board Conflict of Interest Policy; Status and Future Funding of Sanford Cohen & Associates (SC&A) Contract; Science Issues Updates; Charter for New Subcommittee; Working Group and Subcommittee Assignments; NIOSH, Office of Compensation Analysis and Support (OCAS) and Department of Labor (DOL) Status Reports; Board Correspondence; Board Future Plans, and Board Working Time. The agenda is subject to change as priorities dictate.

In the event an individual cannot attend, written comments may be submitted. Any written comments

should be submitted to the contact person below well in advance of the meeting, and the comments will be provided at the meeting.

For Further Information Contact: Dr. Lewis V. Wade, Executive Secretary, NIOSH, CDC, 4676 Columbia Parkway, Cincinnati, Ohio 45226, Telephone 513.533.6825, Fax 513.533.6826.

The Director, Management Analysis and Services Office, has been delegated the authority to sign **Federal Register** notices pertaining to announcements of meetings and other committee management activities, for both CDC and the Agency for Toxic Substances and Disease Registry.

Dated: August 31, 2006.

Alvin Hall,

Director, Management Analysis and Services Office, Centers for Disease Control and Prevention.

[Docket No. 2006D-0336]

Draft Guidance for Industry and Food and Drug Administration Staff; Commercially Distributed Analyte Specific Reagents (ASRs): Frequently Asked Questions; Availability

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing the availability of the draft guidance entitled "Commercially Distributed Analyte Specific Reagents (ASRs): Frequently Asked Questions." This guidance document is intended to clarify the regulations regarding ASRs and the role and responsibilities of ASR manufacturers.

DATES: Submit written or electronic comments on this draft guidance by December 6, 2006.

ADDRESSES: Submit written requests for single copies of the guidance document entitled "Commercially Distributed Analyte Specific Reagents (ASRs): Frequently Asked Questions" to the Division of Small Manufacturers, International, and Consumer Assistance (HFZ-220), Center for Devices and Radiological Health, Food and Drug Administration, 1350 Piccard Dr., Rockville, MD 20850. Send one self-addressed adhesive label to assist that office in processing your request, or fax

your request to 301-443-8818. See the **SUPPLEMENTARY INFORMATION** section for information on electronic access to the guidance.

Submit written comments concerning this draft guidance to the Division of Dockets Management (HFA-305), Food and Drug Administration, 5630 Fishers Lane, rm. 1061, Rockville, MD 20852. Submit electronic comments to <http://www.fda.gov/dockets/ecomments>. Identify comments with the docket number found in brackets in the heading of this document.

FOR FURTHER INFORMATION CONTACT: Courtney C. Harper, Center for Devices and Radiological Health (HFZ-440), Food and Drug Administration, 2098 Gaither Rd., Rockville, MD 20850, 240-276-0490.

SUPPLEMENTARY INFORMATION:

I. Background

FDA is providing this guidance in order to eliminate confusion regarding particular marketing practices among ASR manufacturers. ASRs are the building blocks of laboratory-developed tests and are defined and classified in a rule codified at § 864.4020 (21 CFR 864.4020). With this draft guidance document, FDA seeks to advise ASR manufacturers that it views certain practices as being inconsistent with the marketing of an ASR, as defined in § 864.4020. Some manufacturers have believed that when they combine a Class I ASR, which is exempt from premarket notification requirements under section 510(l) of the Federal Food, Drug, and Cosmetic Act (the act), (21 U.S.C. 360(l)), with other products, or with instructions for use in a specific test, the product remains exempt because of the presence of an ASR. However, as explained in this draft guidance, when an ASR is marketed in certain ways, FDA views the product as no longer being an ASR within the meaning of § 860.4020.

II. Significance of Guidance

This draft guidance is being issued consistent with FDA's good guidance practices regulation (21 CFR 10.115). The draft guidance, when finalized will represent the agency's current thinking on commercially distributed ASRs. It does not create or confer any rights for or on any person and does not operate to bind FDA or the public. An alternative approach may be used if such approach satisfies the requirements of the applicable statute and regulations.

III. Electronic Access

Persons interested in obtaining a copy of the draft guidance may do so by using

the Internet. To receive "Commercially Distributed Analyte Specific Reagents (ASRs): Frequently Asked Questions," you may either send an e-mail request to dsmica@fda.hhs.gov to receive an electronic copy of the document or send a fax request to 240-276-3151 to receive a hard copy. Please use the document number 1590 to identify the guidance you are requesting.

CDRH maintains an entry on the Internet for easy access to information including text, graphics, and files that may be downloaded to a personal computer with Internet access. Updated on a regular basis, the CDRH home page includes device safety alerts, **Federal Register** reprints, information on premarket submissions (including lists of approved applications and manufacturers' addresses), small manufacturer's assistance, information on video conferencing and electronic submissions, Mammography Matters, and other device-oriented information. The CDRH Web site may be accessed at <http://www.fda.gov/cdrh>. A search capability for all CDRH guidance documents is available at <http://www.fda.gov/cdrh/guidance.html>. Guidance documents are also available on the Division of Dockets Management Internet site at <http://www.fda.gov/ohrms/dockets>.

IV. Paperwork Reduction Act of 1995

This draft guidance refers to previously approved collections of information found in FDA regulations. These collections of information are subject to review by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520). The collections of information in 21 CFR 807.87 have been approved under OMB control number 0910-0120; the collections of information in 21 CFR 809.10 and 809.30 (§ 809.30) have been approved under OMB control number 0910-0485; and the collections of information in 21 CFR 814.20 have been approved under OMB control number 0910-0231.

The draft guidance includes discussion of the restrictions on the sale, distribution, and use of ASRs (§ 809.30). Under this regulation, a laboratory that develops an in-house test using an ASR must add a disclaimer when reporting the test result to the practitioner (§ 809.30(e)). Advertising and promotional materials for ASRs must not make any statement regarding analytical or clinical performance (§ 809.30(d)(4)). In addition, the labeling for Class I, exempt ASRs must bear the statement, "Analyte Specific Reagent. Analytical and performance characteristics are not established."

Class II or III ASRs must bear the statement, "Analyte Specific Reagent. Except as a component of the approved/cleared test (name of approved/cleared test), analytical and performance characteristics are not established" (§ 809.30(d)(2) and (d)(3)). The disclaimer and these statements do not constitute "collections of information" under the PRA. Rather, they are "public disclosure of information originally supplied by the Federal government to the recipient for the purpose of disclosure to the public" (5 CFR 1320.3(c)(2)).

V. Comments

Interested persons may submit to the Division of Dockets Management (see **ADDRESSES**), written or electronic comments regarding this document. Submit a single copy of electronic comments or two paper copies of any mailed comments, except that individuals may submit one paper copy. Comments are to be identified with the docket number found in brackets in the heading of this document. Received comments may be seen in the Division of Dockets Management between 9 a.m. and 4 p.m., Monday through Friday.

Dated: September 1, 2006.

Jeffrey Shuren,

Assistant Commissioner for Policy.

[Docket No. 2006D-0347]

Draft Guidance for Industry, Clinical Laboratories, and FDA Staff on In Vitro Diagnostic Multivariate Index Assays; Availability

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing the availability of the draft guidance entitled "Draft Guidance for Industry, Clinical Laboratories, and FDA Staff on In Vitro Diagnostic Multivariate Index Assays." This draft guidance addresses the definition and regulatory status of a class of in vitro diagnostic devices referred to as In Vitro Diagnostic Multivariate Index Assays (IVDMIA). The guidance also addresses premarket and postmarket requirements with respect to IVDMIA. An IVDMIA employs data, derived in part from one or more in vitro assays, and an

algorithm that usually, but not necessarily, runs on software, to generate a result that diagnoses a disease or condition or is used in the cure, mitigation, treatment, or prevention of disease.

DATES: Submit written or electronic comments on this draft guidance by December 6, 2006.

ADDRESSES: Submit written requests for single copies of the draft guidance document entitled "Draft Guidance for Industry, Clinical Laboratories, and FDA Staff on In Vitro Diagnostic Multivariate Index Assays" to the Division of Small Manufacturers, International, and Consumer Assistance (HFZ-220), Center for Devices and Radiological Health, Food and Drug Administration, 1350 Piccard Dr., Rockville, MD 20850. Send one self-addressed adhesive label to assist that office in processing your request, or fax your request to 240-276-3151. See the **SUPPLEMENTARY INFORMATION** section for information on electronic access to the guidance.

Submit written comments concerning this draft guidance to the Division of Dockets Management (HFA-305), Food and Drug Administration, 5630 Fishers Lane, rm. 1061, Rockville, MD 20852. Submit electronic comments to <http://www.fda.gov/dockets/ecomments>. Identify comments with the docket number found in brackets in the heading of this document.

FOR FURTHER INFORMATION CONTACT:

Courtney Harper, Center for Devices and Radiological Health (HFZ-440), Food and Drug Administration, 2098 Gaither Rd., Rockville, MD 20850, 240-276-0490, ext. 162.

SUPPLEMENTARY INFORMATION:

I. Background

The definition of a device is set forth at section 201(h) of the Federal Food, Drug and Cosmetic Act (the act) (21 U.S.C. 321(h)). It provides in relevant part: "The term 'device' * * * means an instrument, apparatus, implement, machine, contrivance, implant, in vitro reagent, or other similar or related article, including any component, part, or accessory, which is * * * (2) intended for use in the diagnosis of disease or other conditions, or in the cure, mitigation, treatment, or prevention of disease, in man or other animals * * *" (21 U.S.C. 321(h)). An IVDMIA is a test system that employs data, derived in part from one or more in vitro assays, and an algorithm that usually, but not necessarily, runs on software, to generate a result that diagnoses a disease or condition or is used in the cure, mitigation, treatment, or prevention of disease. An IVDMIA is
