SUPPLEMENTARY INFORMATION: The FAA published the policy at http://www.faa.gov/aircraft/draft_docs/ on May 23, 2006 to announce the availability of the proposed policy and invite interested parties to comment.

We have filed in the docket all comments we received, as well as a report summarizing each substantive public contact with FAA personnel concerning this policy. The docket is available for public inspection. If you wish to review the docket in person, go to the above address between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

Background

This FAA policy statement presents one method to obtain approval to operate an aircraft engine at the rated thrust or power for up to 10 minutes during aircraft takeoff when one engine becomes inoperative. This policy is applicable to an aircraft certificated under 14 CFR part 23 powered by turbojet or turboprop engines certificated under 14 CFR part 33. The Engine and Propeller Directorate and the Small Airplane directorate jointly issued this policy statement.
