**Reportable Quantity Adjustment for Isophorone Diisocyanate**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** The Environmental Protection Agency (EPA) is proposing to adjust the reportable quantity (RQ) for Isophorone Diisocyanate (IPDI). Reportable quantities for many of the Extremely Hazardous Substances (EHSs) under the Emergency Planning and Community Right-to-Know Act (EPCRA) were adjusted to their threshold planning quantities (TPQ) in a final rule on May 7, 1996. On September 8, 2003, EPA modified the TPQ for IPDI to 500 pounds. However, EPA inadvertently omitted an RQ adjustment for this substance. Therefore, EPA is now proposing to adjust the RQ for IPDI to be 500 pounds.

In the “Rules and Regulations” section of the **Federal Register**, we are

revising the RQ for Isophorone Diisocyanate to 500 pounds without prior proposal because we view the revision as noncontroversial and anticipate no adverse comment. We have explained our reasons for this approach in the preamble to the direct final rule.

If we receive adverse comment on this revision, however, we will withdraw this direct final action and it will not take effect. We will address all public comments in a subsequent final rule based on this proposed rule. We will not institute a second comment period on this action. Any parties interested in commenting on any amendment must do so at this time.

**DATES:** Comments must be received on or before October 11, 2006.

**ADDRESSES:** Submit your comments, identified by Docket ID No. EPA–HQ–SFUND–2005–0520, by one of the following methods:

1. *www.regulations.gov*: Follow the on-line instructions for submitting comments.

EPA’s policy is that all comments received will be included in the public docket without change and may be made available online at *www.regulations.gov*, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit information that you consider to be CBI or otherwise protected through *www.regulations.gov* or e-mail. The *www.regulations.gov* Web site is an “anonymous access” system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an e-mail comment directly to EPA without going through *www.regulations.gov*, your e-mail address will be automatically captured and included as part of the comment that is placed in the public

docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD–ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses. **B. What Should I Consider as I Prepare My Comments for EPA?**

**Submitting CBI.** Do not submit this information to EPA through [www.regulations.gov](http://www.regulations.gov) or e-mail. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD ROM that you mail to EPA, mark the outside of the disk or CD ROM as CBI and then identify electronically within the disk or CD ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

**AGENCY:** Fish and Wildlife Service, Interior.

**ACTION:** Proposed rule; reopening of public comment period, notice of availability of draft economic analysis and draft environmental assessment, and amended Required Determinations.

**SUMMARY:** We, the U.S. Fish and Wildlife Service (Service), announce the reopening of the public comment period on the proposal to designate critical habitat for the Contiguous United States Distinct Population Segment of the Canada lynx (*Lynx canadensis*), the availability of the draft economic analysis and draft environmental assessment of the proposed designation of critical habitat, and an amended Required Determinations section of the proposal. The draft economic analysis estimates the potential total future costs to range from \$175 million to \$889 million in undiscounted dollars over the next 20 years. Discounted future costs are estimated to be from \$125 million to \$411 million over 20 years (\$8.38 million to \$27.6 million annually) using a 3 percent discount rate, or \$99.9 million to \$259 million over 20 years (\$9.43 million to \$24.4 million annually) using a 7 percent discount rate. The amended Required Determinations section provides our determination concerning compliance with applicable statutes and Executive Orders that we have deferred until the information from the draft economic analysis of this proposal was available. We are reopening the comment period to allow all interested parties to comment simultaneously on the proposed rule, the associated draft economic analysis and draft environmental assessment, and the amended Required Determinations section.

**SUPPLEMENTARY INFORMATION:****Public Comments Solicited**

We will accept written comments and information during this reopened comment period. We solicit comments on the original proposed critical habitat designation for the Canada lynx (lynx), published in the **Federal Register** on November 9, 2005 (70 FR 68294), the clarification of the proposed critical habitat, published in the **Federal Register** on February 16, 2006 (71 FR 8258), on our draft economic analysis of the proposed designation, and on our draft environmental assessment of the proposed designation. We particularly seek comments concerning:

(1) The reasons any habitat should or should not be determined to be critical habitat as provided by section 4 of the Act, including whether it is prudent to designate critical habitat;

(2) Specific information on the amount and distribution of lynx habitat in the contiguous United States, and what occupied habitat has features that are essential to the conservation of the species and why and what unoccupied habitat is essential to the conservation of the species and why;

(3) Comments or information that may assist us with identifying or clarifying the Primary Constituent Elements (PCEs);

(4) Land use designations and current or planned activities in areas proposed as critical habitat and their possible impacts on proposed critical habitat;

(5) Any foreseeable economic, national security, or other potential impacts resulting from the proposed designation and, in particular, any impacts on small entities in timber activities, residential and commercial development, recreation, and mining;

(6) As discussed in this proposed rule, we are considering whether some of the lands we have identified as having features essential to the conservation of the lynx should not be included in the final designation of critical habitat if,
