

For packing materials, we used the per-kilogram values obtained from the WTA and made adjustments to account for freight costs incurred between the PRC supplier and respondent.

#### Currency Conversion

We made currency conversions into U.S. dollars, in accordance with section 773A(a) of the Act, based on the exchange rates in effect on the dates of the U.S. sales, as certified by the Federal Reserve Bank.

#### Preliminary Results of Review

We preliminarily determine that the following weighted-average dumping margins exist:

| Manufacturer/Exporter | Margin (Percent) |
|-----------------------|------------------|
| Crown .....           | 8.63             |
| Nozawa .....          | 12.12            |

  

| Manufacturer/Exporter | Margin (U.S. dollars per bag) |
|-----------------------|-------------------------------|
| High Den .....        | 0.02                          |

#### Disclosure

We will disclose the calculations used in our analysis to parties to this proceeding within five days of the publication date of this notice. See 19 CFR 351.224(b). Interested parties are invited to comment on the preliminary results and may submit case briefs and/or written comments within 30 days of the date of publication of this notice. See 19 CFR 351.309(c)(ii). Rebuttal briefs and rebuttals to written comments, limited to issues raised in such briefs or comments, may be filed no later than 35 days after the date of publication. See 19 CFR 351.309(d). Any interested party may request a hearing within 30 days of publication of this notice. See 19 CFR 351.310(c). Any hearing, if requested, will be held 42 days after the date of publication of this notice. See 19 CFR 351.310(d). The Department requests that parties submitting written comments also provide the Department with an additional copy of those comments on diskette. The Department will issue the final results of this administrative review, which will include the results of its analysis of issues raised in any such comments, within 120 days of publication of these preliminary results, pursuant to section 751(a)(3)(A) of the Act.

#### Assessment Rates

The Department will determine, and CBP shall assess, antidumping duties on all appropriate entries. The Department will issue, as appropriate, appraisement

instructions directly to CBP within 15 days of publication of these final results of administrative review. In accordance with 19 CFR 351.212(b), we calculated exporter/importer- (or customer-) specific assessment rates for the merchandise subject to this review. For Crown and Nozawa, where the respondent has reported entered values, we calculated importer- (or customer-) specific *ad valorem* rates by aggregating the dumping margins calculated for all U.S. sales to the importer (or customer) and dividing this amount by the total entered value of the sales to each importer (or customer). Where an importer- (or customer-) specific *ad valorem* rate is greater than *de minimis*, we will apply the assessment rate to the entered value of the importer's/ customer's entries during the review period. For Crown and Nozawa, where we do not have entered values for all U.S. sales and for all of High Den's sales, we calculated a per-unit assessment rate by aggregating the antidumping duties due for all U.S. sales to each importer (or customer) and dividing this amount by the total quantity sold to that importer (or customer). To determine whether the duty assessment rates are *de minimis*, in accordance with the requirement set forth in 19 CFR 351.106(c)(2), we calculated importer (or customer-) specific *ad valorem* rates based on the estimated entered value. Where an importer- (or customer-) specific *ad valorem* rate is zero or *de minimis*, we will instruct CBP to liquidate appropriate entries without regard to antidumping duties.

#### Cash Deposit Requirements

The following cash deposit requirements will be effective upon publication of the final results of this administrative review for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided for by section 751(a)(2)(C) of the Act: (1) for the above-listed respondents, which have a separate rate, the cash deposit rate will be the company-specific rate established in the final results of review (except, if the rate is zero or *de minimis*, no cash deposit will be required); (2) for previously investigated or reviewed PRC and non-PRC exporters not listed above that have separate rates, the cash deposit rate will continue to be the exporter-specific rate published for the most recent period; (3) for all PRC exporters of subject merchandise that have not been found to be entitled to a separate rate, the cash deposit rate will be the PRC-wide rate of 77.57 percent;

and (4) for all non-PRC exporters of subject merchandise which have not received their own rate, the cash deposit rate will be the rate applicable to the PRC exporter that supplied that non-PRC exporter. These deposit requirements, when imposed, shall remain in effect until publication of the final results of the next administrative review.

#### Notification to Importers

This notice also serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This determination is issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: August 31, 2006.

**David M. Spooner,**

#### DEPARTMENT OF COMMERCE

##### National Oceanic and Atmospheric Administration

[I.D. 090806A]

##### Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Coastal Migratory Pelagics off the Southern Atlantic States

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of receipt of an application for an exempted fishing permit; request for comments.

**SUMMARY:** NMFS announces the receipt of an application for an exempted fishing permit (EFP) from Dr. William Patterson and Captain Ben Hartig. If granted, the EFP would authorize the applicants, with certain conditions, to collect limited numbers of undersized and out-of-season king mackerel in South Atlantic Federal waters off the coast of Florida. The purpose of the study is to estimate temporal and spatial variability between migratory king mackerel groups in the winter mixing zone off the southeast coast of Florida.

**DATES:** Comments must be received no later than 5 p.m., eastern standard time, on October 13, 2006.

**ADDRESSES:** Comments on the application may be sent via fax to 727-824-5308 or mailed to: Sarah DeVido, Southeast Regional Office, NMFS, 263 13<sup>th</sup> Avenue South, St. Petersburg, FL 33701. Comments may also be submitted by e-mail. The mailbox address for providing e-mail comments is *Sarah.DeVido@noaa.gov*. Include in the subject line of the e-mail document the following text: Comment on Patterson-Hartig EFP Application. The application and related documents are available for review upon written request to the address above or the e-mail address below.

**FOR FURTHER INFORMATION CONTACT:** Sarah DeVido, 727-824-5305; fax 727-824-5308; e-mail: *Sarah.DeVido@noaa.gov*.

**SUPPLEMENTARY INFORMATION:** The EFP is requested under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 *et seq.*), and regulations at 50 CFR 600.745(b) concerning exempted fishing.

The described research is part of the cooperative research program (NMFS Cooperative Research Program Grant NA06NMF45400601). The Cooperative Research Program is a means of involving commercial and/or recreational fishermen in the collection of fundamental fisheries information. Resource collection efforts support the development and evaluation of fisheries management and regulatory options.

The proposed collection for scientific research involves activities otherwise prohibited by regulations implementing the Fishery Management Plan for the Coastal Migratory Pelagic Resources of the South Atlantic Region. The applicants require authorization to harvest and possess undersized and out-of-season king mackerel for scientific research activities during the period from October 1, 2006, through July 31, 2008. Specimens would be collected from Federal waters off the southeast coast of Florida by trolling artificial lures and rigged dead baits during the specified sampling period. Sampling would occur year round when migratory fish are present, collecting up to 500 fish per year. Biological samples would be extracted from the specimens. Data collections for this study will support estimations of growth and age (from otolith thin sections), analyses of reproductive biology (from gonadal thin sections), and population and mixing dynamics (from shape and chemical analyses of otoliths).

NMFS finds this application warrants further consideration. Based on a preliminary review, NMFS intends to issue an EFP. Possible conditions the agency may impose on this permit, if it is indeed granted, include but are not limited to: The use of only artificial lures and rigged dead baits during trolling sampling trips; and prohibition of conducting research within marine protected areas, marine sanctuaries, or special management zones, or over artificial reefs, without additional authorization. A final decision on issuance of the EFP will depend on a NMFS review of public comments received on the application, consultations with the affected states, the South Atlantic Fishery Management Council, and the U.S. Coast Guard, and a determination that it is consistent with all applicable laws.

**Authority:** 16 U.S.C. 1801 *et seq.*

Dated: September 8, 2006.

#### Atlantic Highly Migratory Species; U.S. Atlantic Swordfish Fishery Public Meetings

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice; additional public meeting.

**SUMMARY:** On August 31, 2006, NMFS published in the **Federal Register** a notice announcing five public meetings to obtain from U.S. Atlantic swordfish fishery participants and other members of the public recommendations regarding potential management measures so as to fully harvest the swordfish quota allocated to the United States by the International Commission for the Conservation of Atlantic Tunas (ICCAT). In response to requests from swordfish fishery participants in South Florida, NMFS is adding an additional meeting in Fort Lauderdale, FL, in September 2006.

**DATES:** The public meeting will be held on September 27, 2006, from 7-9 p.m.

**ADDRESSES:** The public meeting will be held at the Broward County Main

Library, 100 South Andrews Avenue, Fort Lauderdale, FL 33301.

**FOR FURTHER INFORMATION CONTACT:** Sari Kiraly at (301) 713-2347.

**SUPPLEMENTARY INFORMATION:** A notice announcing five public meetings (in Houma, LA; Manahawkin, NJ; Peabody, MA; Manteo, NC; and Panama City, FL) to obtain recommendations regarding potential management measures so as to fully harvest the Atlantic swordfish quota allocated to the United States by ICCAT was published in the **Federal Register** on August 31, 2006 (71 FR 51803). This notice announces an additional meeting.

#### Background

The U.S. Atlantic swordfish fishery is managed under the Fishery Management Plan for Atlantic Tunas, Swordfish and Sharks, and regulations at 50 CFR part 635 under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 *et seq.*) and the Atlantic Tunas Convention Act (ATCA) (16 U.S.C. 971 *et seq.*). Regulations issued under the authority of ATCA implement the recommendations of ICCAT. In the last several years, the U.S. Atlantic swordfish fishery has not fully harvested the available quota allocated by ICCAT. The adjusted 2005 North Atlantic swordfish total quota was 6,336.1 mt dw, which included a baseline quota of 2,937.6 and a quota carry-over of 3,398.5 mt dw. The total U.S. North Atlantic quota allocation for the 2006 fishing year is 2,937.6 mt dw, and the carry-over is yet to be determined. NMFS anticipates that the pending September 2006 stock assessment may identify the North Atlantic swordfish stock as fully rebuilt. Fishermen and others have asked NMFS to assist in revitalizing this fishery. Also, at its November 2006 meeting ICCAT will likely review swordfish management measures and quota allocations. Therefore, NMFS is considering potential management measures for the U.S. Atlantic swordfish fishery that would address factors limiting the ability to catch the allocated quota, and to aid in revitalizing the fishery so that swordfish are harvested in a sustainable and economically viable manner, while bycatch is minimized to the extent practicable. At the September 27, 2006 public meeting NMFS wishes to obtain recommendations from swordfish fishery participants and other members of the public regarding potential management measures for the fishery to fully harvest the available quota.
