Agency Information Collection Activities: Announcement of Board Approval Under Delegated Authority and Submission to OMB

SUMMARY: Background

Notice is hereby given of the final approval of proposed information collection by the Board of Governors of the Federal Reserve System (Board) under OMB delegated authority, as per 5 CFR 1320.16 (OMB Regulations on Controlling Paperwork Burdens on the Public). Board-approved collections of information are incorporated into the official OMB inventory of currently approved collections of information. Copies of the OMB 83-Is and supporting statements and approved collection of information instrument(s) are placed into OMB's public docket files. The Federal Reserve may not conduct or sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised, or implemented on or after October 1, 1995, unless it displays a currently valid OMB control number.

FOR FURTHER INFORMATION CONTACT:

Federal Reserve Board Clearance Officer

—Michelle Long—Division of Research and Statistics, Board of Governors of the Federal Reserve System, Washington, DC 20551 (202-452-3829)

OMB Desk Officer—Mark Menchik—Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Room 10235, Washington, DC 20503, or email to mmenchik@omb.eop.gov

Final approval under OMB delegated authority of the extension for three years, without revision, of the following report:

Report title: Reporting and Disclosure Requirements Associated with Regulation P

Agency form number: Reg P

OMB control number: 7100-0294

Frequency: Reporting, on-occasion; and disclosure, annually.

Reporters: State member banks, subsidiaries of state member banks, bank holding companies and their subsidiaries or affiliates, branches and agencies of foreign banks, commercial lending companies owned or controlled by foreign banks, corporations operating under section 25 or 25A of the Federal Reserve Act, and customers of these financial institutions.

Estimated annual number of institution respondents: Initial notice, 1,311; annual notice and change in terms, 6,692; opt-out notice, 1,197.

Estimated average time per response per institution: Initial notice, 80 hours; annual notice and change in terms, 8 hours; opt-out notice, 8 hours.

Estimated subtotal annual burden hours for institutions: 167,992 hours.

Estimated annual number of consumer respondents: 402,675.

Estimated average time per consumer response: 30 minutes.

Estimated subtotal annual burden hours for consumers: 201,338 hours.

Estimated total annual burden hours: 369,330 hours.

General description of report: This information collection is mandatory (12 U.S.C. 248) and by section 504 of Gramm-Leach-Bliley Act (GLBA) (15 U.S.C § 6804). Since the Federal Reserve does not collect any information, no issue of confidentiality normally arises.

Abstract: The information collection pursuant to Regulation P is triggered by the establishment of a relationship between a customer and a financial institution. The regulation ensures that financial institutions provide customers notice of the privacy policies and practices of financial institutions and a means to prevent the disclosure of nonpublic personal information, in certain circumstances. Where applicable, financial institutions are

required to provide an initial notice and an annual notice of their privacy policies and practices, opt-out notices, and revised notices containing changes in policies and procedures.

On July 3, 2006, the Federal Reserve published a notice in the Federal Register (71 FR 37935) requesting public comment for 60 days on the extension, without revision, of the reporting and disclosure requirements of Regulation P. The comment period for this notice expired on September 1, 2006. No comments were received.

Board of Governors of the Federal Reserve System, September 12, 2006.

Proposed Project

Survey of Primary Care Physicians' Practices regarding Prostate Cancer Screening—New—National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

Prostate cancer is the most common cancer in men and is the second leading cause of cancer deaths, behind lung cancer. The American Cancer Society estimates that there will be about 234,460 new cases of prostate cancer and about 27,350 deaths in 2006. Although prostate cancer deaths have

declined over the past several years, it ranks fifth among deaths from all causes. The digital rectal examination (DRE) and prostate specific antigen (PSA) test are used to screen for prostate cancer. Screening is controversial and many are not in agreement as to whether the potential benefits of screening outweigh the risks, that is, if prostate specific antigen (PSA) based screening, early detection, and later treatment increases longevity. Although major medical organizations are divided on whether men should be routinely screened for this disease, it appears that all of the major organizations recommend discussion with patients about the benefits and risks of screening.

The purpose of this project is to develop and administer a national survey to a sample of American primary care physicians to examine whether or not they: Screen for prostate cancer using (PSA and/or DRE), recommend testing and under what conditions, discuss the tests and the risks and benefits of screening with patients, and if their screening practices vary by factors such as age, ethnicity, and family history. This study will examine demographic, social, and behavioral characteristics of physicians as they relate to screening and related issues, including knowledge and awareness, beliefs regarding efficacy of screening and treatment, frequency of screening, awareness of the screening controversy, influence of guidelines from medical practices and other organizations, and participation and/or willingness to participate in shared decision-making. There will be no cost to respondents other than their time to participate in the survey.
