FOR FURTHER INFORMATION CONTACT: Michael Miller may be reached by telephone at (202) 502-8415, by fax at (202) 273-0873, and by e-mail at *michael.miller@ferc.gov*.

SUPPLEMENTARY INFORMATION: The information collected under the requirements of FERC Form No. 423 "Monthly Report of Cost and Quality of Fuels for Electric Plants" (OMB No. 1902-0024) is used by the Commission: (1) To conduct fuel reviews under FPA

sections 205 (a) and (e); (2) for use in a broad range of fuel cost and purchase practice issues rising from electric utility rate cases; (3) to detect abnormally high fuel costs in utility fuel purchases indicative of affiliate preference at the cost of the consumer; (4) in conjunction with other data, to identify potential out-of-merit plant dispatches carried out by system operators and (5) in conjunction with bid data, provides an indication of market efficiency by providing one of the key components of electricity generation cost.

Other Federal and State agencies, such as the Energy Information Administration and the Environmental Protection Agency, as well as private interest groups, electric utilities and the public use this timely data: (1) To

compare each fuel type by quality determinants, in the study of developments in fuel supply which may affect the reliability of electric service, (2) in environmental improvement programs for the different air quality control regions in the United States and (3) for use in analyses of energy and fuel supply impacts on the cost of electric power.

The Commission implements these filing requirements in the Code of Federal Regulations (CFR) under 18 CFR 141.61.

Action: The Commission is requesting a three-year extension of the current expiration date, with no changes to the existing collection of data.

Burden Statement: Public reporting burden for this collection is estimated as:

Number of respondents annually (1)	Number of responses per respondent (2)	Average burden hours per response (3)	Total annual burden hours (1) × (2) × (3)
569	12	1	6,828

Estimated cost burden to respondents is \$385,129. (6828 hours/2080 hours per year times \$117,321 per year average per employee = \$385,129). The cost per respondent is \$677).

The reporting burden includes the total time, effort, or financial resources expended to generate, maintain, retain, disclose, or provide the information including: (1) Reviewing instructions; (2) developing, acquiring, installing, and utilizing technology and systems for the purposes of collecting, validating, verifying, processing, maintaining, disclosing and providing information; (3) adjusting the existing ways to comply with any previously applicable instructions and requirements; (4) training personnel to respond to a collection of information; (5) searching data sources; (6) completing and reviewing the collection of information; and (7) transmitting, or otherwise disclosing the information.

The estimate of cost for respondents is based upon salaries for professional and clerical support, as well as direct and indirect overhead costs. Direct costs include all costs directly attributable to providing this information, such as administrative costs and the cost for information technology. Indirect or overhead costs are costs incurred by an organization in support of its mission. These costs apply to activities, which benefit the whole organization rather than any one particular function or activity.

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) whether the information proposed for collection is of use to entities other than the Commission, and if so, to whom, and specifically for what purpose/s; (3) what specific adverse effect a decision to not collect this information might have; (4) what effect transferring the collection of this information to the Energy Information Administration may have on users of this information; (5) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (6) whether the collection of the information by the Energy Information Administration in lieu of the Commission would potentially affect users of the information and how it would affect those users (7) ways to enhance the quality, utility and clarity of the information to be collected; and (8) ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of

information technology *e.g.* permitting electronic submission of responses.

Magalie R. Salas,
Secretary.

[Docket No. RP06-539-000]

Chandeleur Pipe Line Company; Notice of Request for Waiver

September 15, 2006.

Take notice that on August 30, 2006, Chandeleur Pipe Line Company tendered for filing a Request for Temporary Waiver of Certain Tariff Provisions and Commission regulation.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the date as indicated below. Anyone filing

an intervention or protest must serve a copy of that document on the Applicant. Anyone filing an intervention or protest on or before the intervention or protest date need not serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov, or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Comment Date: 5 p.m. eastern time September 25, 2006.

Magalie R. Salas,

Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP06-438-000]

Cobra Pipeline Co., LTD; Notice of Application

September 15, 2006.

Take notice that on August 30, 2006, Cobra Pipeline Co., LTD (Cobra), an Ohio Hinshaw pipeline company with its principal place of business at Mentor, Ohio, filed an application pursuant to section 284.224 of the Commission's regulations for a blanket certificate authorizing the transportation and sale of natural gas under procedures provided in Subparts C, and D of part 284 of the regulations.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888

First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

Question regarding this application should be directed to counsel for Cobra, Richard A. Oliver, Oliver & Oliver, P.C. 1250 Connecticut Avenue, NW., Washington, DC 20006, telephone: 202-371-5656; fax: 202-289-8113; e-mail: OandOPC@aol.com.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

Comments, protests and interventions may be filed electronically via the Internet in lieu of paper. See, 18 CFR

385.2001(a) (1) (iii) and the instructions on the Commission's Web site under the "e-Filing" link.

Comment Due Date: 5 p.m. eastern time September 21, 2006.

Federal Energy Regulatory Commission

[Docket No. TS06-14-000]

The Detroit Edison Company; Notice of Filing

September 15, 2006.

Take notice that on September 5, 2006, The Detroit Edison Company (Detroit Edison) filed a request for clarification that it should not be considered a transmission provider subject to the Standard of Conduct. Detroit Edison request for waiver of the Standards of Conduct imposed on Transmission Providers under sections 358.1, *et seq.*

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. On or before the comment date, it is not necessary to serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.
