

DEPARTMENT OF TRANSPORTATION**Federal Aviation Administration**

[Summary Notice No. PE-2006-30]

Petitions for Exemption; Summary of Petitions Received**AGENCY:** Federal Aviation Administration (FAA), DOT.**ACTION:** Notice of petitions for exemption received.

SUMMARY: Pursuant to FAA's rulemaking provisions governing the application, processing, and disposition of petitions for exemption part 11 of Title 14, Code of Federal Regulations (14 CFR), this notice contains a summary of certain petitions seeking relief from specified requirements of 14 CFR. The purpose of this notice is to improve the public's awareness of, and participation in, this aspect of FAA's regulatory activities. Neither publication of this notice nor the inclusion or omission of information in the summary is intended to affect the legal status of any petition or its final disposition.

DATES: Comments on petitions received must identify the petition docket number involved and must be received on or before October 16, 2006.

ADDRESSES: You may submit comments [identified by DOT DMS Docket Number FAA-2006-24997] by any of the following methods:

Web site: <http://dms.dot.gov>. Follow the instructions for submitting comments on the DOT electronic docket site.

Fax: 1-202-493-2251.

Mail: Docket Management Facility; U.S. Department of Transportation, 400 Seventh Street, SW., Nassif Building, Room PL-401, Washington, DC 20590-001.

Hand Delivery: Room PL-401 on the plaza level of the Nassif Building, 400 Seventh Street, SW., Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

Docket: For access to the docket to read background documents or comments received, go to <http://dms.dot.gov> at any time or to Room PL-401 on the plaza level of the Nassif Building, 400 Seventh Street, SW., Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Susan Lender (202) 267-8029 or John Linsenmeyer (202) 267-5174, Office of Rulemaking (ARM-1), Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591.

This notice is published pursuant to 14 CFR 11.85 and 11.91.

Issued in Washington, DC, on September 6, 2006.

Ida M. Klepper,

Acting Director, Office of Rulemaking.

Petitions for Exemption

[Docket No.: FAA-2006-24997]

Petitioner: Peter L. Model.

Section of 14 CFR Affected: 14 CFR 65.104.

Description of Relief Sought: The exemption, if granted, would permit Peter L. Model to obtain an experimental repairman certificate, despite the fact that he is not an American citizen. The petitioner is a Swiss national. He has worked on his Lancair IV-P experimental aircraft for 14 years. The aircraft will be operated in Switzerland in the future. He will be the only person to perform routine maintenance on the aircraft. Mr. Model has a U.S. pilot certificate and the plane is currently in Florida.

Petitions for Exemption

Docket No.: FAA-2002-11986.

Petitioner: Experimental Aircraft Association.

Section of 14 CFR Affected: 14 CFR § 61.113(a).

Description of Relief Sought: EAA currently holds Exemption No. 7830 that allows volunteer pilots flying EAA Young Eagles to "log flight time", a form of compensation, when flying children during these free flight experiences. The exemption also allows volunteer pilots to receive other types of compensation. This amendment would permit the Experimental Aircraft Association (EAA) to include the use of light-sport aircraft with a special light-sport certificate under this exemption. EAA also requests that an addition is made to the current condition and limitation that permits a pilot to hold at least a private pilot certificate. They request that the pilot be able to hold a recreational pilot, or a sport pilot certificate with the appropriate category, class, type-rating, or logbook endorsement, if necessary, for the aircraft to be used under this exemption in accordance with § 61.31(a), (d), (e), (f), (h), (i), and part 61 subpart D, E, or J as appropriate. The pilots who conduct the Young Eagle flights for EAA under this exemption

are required to hold a third-class medical certificate in accordance with § 61.23(a)(3); however, EAA is requesting that a private pilot, recreational pilot, or sport pilot be required to hold a current medical certificate appropriate to the pilot certificate held in accordance with § 61.23(a)(3)(i), § 61.23(a)(3)(ii), or § 61.23(c)(1)(ii).

BILLING CODE 4910-13-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

Petition for Waiver of Compliance

In accordance with part 211 of Title 49 Code of Federal Regulations (CFR), notice is hereby given that the Federal Railroad Administration (FRA) received a request for a waiver of compliance with certain requirements of its safety standards. The individual petition is described below, including the party seeking relief, the regulatory provisions involved, the nature of the relief being requested, and the petitioner's arguments in favor of relief.

Quantum Engineering, Inc.

(Waiver Petition Docket Number FRA-2006-25794)

Quantum Engineering, Inc. (Quantum) seeks a waiver of compliance with certain requirements of Title 49 Code of Federal Regulations (CFR) part 232, subpart E—*End-of-Train Devices*, published January 17, 2001. Specifically, 49 CFR 232.403(g)(2) states: "If power is supplied by one or more batteries, the operating life shall be a minimum of 36 hours at 0 °C."

Quantum requests a waiver to allow a minimum of 12 hours of battery reserve for the two batteries they propose using in their Model Q39 end-of-train devices.

According to Quantum, the Q39 end-of-train device will be powered by an air turbine-powered alternator (which has been in service for several years). Both the batteries and the alternator are continuously connected to provide electrical power to components of the device. The batteries are charged by the air-driven alternator during normal train operations and provide backup power when the alternator is not functioning (e.g., during switching operations when train line air pressure is cut out). Quantum provided test data indicating that the end-of-train device will operate for approximately 16 hours with two new self-contained lead acid batteries at 0 °C after loss of train line air.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number (FRA-2006-25794) and must be submitted to the Docket Clerk, DOT Docket Management Facility, Room PL-401 (Plaza Level), 400 7th Street, SW., Washington, DC 20590. Communications received within 45 days of the date of this notice will be considered by FRA before final action is taken. Comments received after that date will be considered as far as practicable. All written communications concerning these proceedings are available for examination during regular business hours (9 a.m.–5 p.m.) at the above facility. All documents in the public docket are also available for inspection and copying on the Internet at the docket facility's Web site at <http://dms.dot.gov>.

Anyone is able to search the electronic form of all comments received into any of our dockets by the name of the individual submitting the comment (or signing the comment, if submitted on behalf of an association, business, labor union, etc.). You may review DOT's complete Privacy Act Statement in the **Federal Register** published on April 11, 2000, (Volume 65, Number 70; Pages 19477–78). The Statement may also be found at <http://dms.dot.gov>.

Issued in Washington, DC on September 20, 2006.

Grady C. Cothen, Jr.,

Deputy Associate Administrator for Safety Standards and Program Development.

BILLING CODE 4910-06-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

Petition for Waiver of Compliance

In accordance with Part 211 of Title 49 Code of Federal Regulations (CFR), notice is hereby given that the Federal Railroad Administration (FRA) has received a request for a waiver of compliance with certain requirements of its safety standards. The individual petition is described below, including

the party seeking relief, the regulatory provisions involved, the nature of the relief being requested, and the petitioner's arguments in favor of relief.

The South Carolina Railroad Museum, Inc.

[Docket Number FRA-2006-25452]

The South Carolina Railroad Museum, Inc. (SCMZ) seeks a permanent waiver of compliance from *Control of Alcohol and Drug Use*, 49 CFR Part 219 Subparts D through J, which require a railroad to conduct reasonable suspicion alcohol and/or drug testing, pre-employment drug testing, random alcohol and drug testing, and to have voluntary referral and co-worker report policies, and which also specify drug and alcohol testing procedures and recordkeeping requirements. The railroad is a nonprofit railroad museum located near Winnsboro, South Carolina. As part of its museum activity, it operates excursion passenger trains, primarily on certain weekends and on special charters.

The museum only runs scheduled excursion trains on 15 days in the calendar year. On those days, it runs four trains over the 10.2-mile round trip. In addition to the regularly scheduled operating days, it runs excursion trains on a charter basis. In 2005, SCMZ operated charters on 26 days. In each case, only one train was operated on the respective charter.

A portion (4,650 feet) of the museums's track is subject to a recent Lead Track Agreement between the museum and Norfolk Southern Corporation (NS), whereby NS will provide limited rail service to a commercial facility located along the museum's track. This service will not involve SCMZ volunteers but will be conducted entirely by NS employees.

The waiver would cover the museum's operation of excursion trains on the museum's trackage between Rockton, South Carolina, and Rion, South Carolina (approximately 5.1 miles). SCMZ has hours of service volunteers only.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number (e.g., Waiver
