POLICY JUSTIFICATION

Iraq - Logistics Support for Helicopters, Vehicles, and Weapons

The Government of Iraq has requested a possible sale of logistics support services/equipment for helicopters (Jet Ranger, Huey II and Mi-17) and vehicles (Standard/Non-Standard Wheeled Vehicles, Tracked Vehicles, Infantry Light Armored Vehicles Armored Personnel Carriers) and small/medium weapons and weapon systems including on-job-training, supply and maintenance support, measuring and hand tools for ground systems, software upgrades, spare and repair parts, support equipment, publications and documentation, personnel training and training equipment, U.S. Government and contractor engineering and logistics support services, and other related elements of logistics support. The estimated cost is \$250 million.

This proposed sale will contribute to the foreign policy and national security of the U.S. by helping to improve the security of a friendly country. This proposed sale directly supports the Iraqi government and serves the interests of the Iraqi people and the United States.

The Government of Iraq needs the contractor technical support, maintenance, and logistical services to maintain the operational capabilities of its helicopters, vehicles, and small/medium weapons and weapon systems.

The proposed sale of this equipment and support will not affect the basic military balance in the region.

The contractors are unknown at this time. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this sale may require the assignment of up to 10 Government and up to 65 contractor representatives to over-see up to 10 ground maintenance sites in Iraq for two years.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
