

property under NARA's control. It specifically provides that all people who arrive, work at, or visit NARA-controlled facilities are subject to the inspection of their personal property. The General Services Administration's (GSA) regulations at 41 CFR 102-74 provide for the inspection of personal property in the possession of all people who arrive, work at, or visit NARA facilities controlled by GSA, but NARA's regulations at 36 CFR 1280.8 specifically provide, at the current time, only for the inspection of personal property of visitors on NARA-controlled property.

NARA controlled properties are those listed in 36 CFR 1280.2. We have identified in 36 CFR 1280.2 three additional NARA-controlled properties that have come into the NARA system since this part was last updated.

The regulations at 41 CFR part 102-74 will continue to provide the authority to inspect all packages, briefcases, and other containers in the possession of all persons on property under the control of GSA.

This proposed rule is not a significant regulatory action for the purposes of Executive Order 12866 and has not been reviewed by the Office of Management and Budget. As required by the Regulatory Flexibility Act, I certify that this rule will not have a significant impact on a substantial number of small entities because this proposed rule affects NARA contractors, employees, student interns, visitors, volunteers and other persons on NARA controlled property. This regulation does not have any federalism implications.

### 40 CFR Part 52

[EPA-R06-OAR-2005-TX-0015; FRL-8224-6]

### Approval and Promulgation of Air Quality Implementation Plans; Texas; Revisions To Control Volatile Organic Compound Emissions; Volatile Organic Compound Control for El Paso, Gregg, Nueces, and Victoria Counties and the Ozone Standard Nonattainment Areas of Beaumont/Port Arthur, Dallas/Fort Worth, and Houston/Galveston

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** EPA is proposing to approve Texas State Implementation Plan (SIP) revisions. The revisions pertain to regulations to control Volatile Organic Compound (VOC) emissions from facilities in El Paso, Gregg, Nueces, and Victoria Counties; the 8-hour ozone standard nonattainment areas of Beaumont/Port Arthur and Houston/Galveston; and portions of the Dallas/Fort Worth 8-hour ozone standard

nonattainment area. The revisions add additional controls on VOC emissions from industrial wastewater systems in the Beaumont/Port Arthur, Dallas/Fort Worth, El Paso, and Houston/Galveston areas. The revisions also amend requirements to identify and correct emissions from VOC leaks from facilities that refine petroleum or process natural gas, gasoline or petrochemicals in the Beaumont/Port Arthur, Dallas/Fort Worth, El Paso, and Houston/Galveston areas, and from petroleum refineries in Gregg, Nueces, and Victoria Counties. We are proposing to approve the revisions pursuant to section 110 and part D of the Federal Clean Air Act. The control of VOC emissions will help to attain and maintain the 8-hour national ambient air quality standard for ozone in Texas. Approval will make the revised regulations Federally enforceable.

If EPA receives relevant adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time. Please note that if EPA receives adverse comment

on an amendment, paragraph, or section of the rule, and if that provision may be severed from the remainder of the rule, EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment.

#### Approval and Promulgation of Air Quality Implementation Plans; WV; Emission Reductions to Meet Phase II of the Nitrogen Oxides (NO<sub>x</sub>); SIP Call

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** EPA proposes to convert a conditional approval in the West Virginia State Implementation Plan (SIP) to a full approval. The SIP revision pertains to nitrogen oxides (NO<sub>x</sub>) emission reductions required in West Virginia to meet Phase II of the NO<sub>x</sub> SIP Call (Phase II). In order to meet the Phase II submission due date, the West Virginia Department of Environmental Protection (WVDEP) adopted its Phase II requirements under its emergency rule procedures. EPA granted conditional approval of the emergency rule contingent upon the WVDEP adopting a permanent rule with an effective date no later than the June 2, 2006 sunset date of its emergency rule and submitting the permanent rule as a formal SIP revision to EPA by July 1, 2006. West Virginia has met all the terms of the conditional approval by adopting its permanent rule with an effective date of May 1, 2006, and submitting the permanent rule to EPA before July 1, 2006. In the Final Rules section of this **Federal Register**, EPA is converting the conditional approval of the State's SIP revision to a full approval as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this action, no further activity is contemplated. If EPA

receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule.
