Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a

Abstract: Under the provisions of national Program Development and Approval Guidance implementing section 6217 of the Coastal Zone Act Reauthorization Amendments of 1990 (CZARA) which was jointly developed and published by EPA and the National Oceanic and Atmospheric Administration (NOAA), 29 coastal States and 5 coastal Territories with Federally approved Coastal Zone Management Programs have developed and submitted to EPA and NOAA Coastal Nonpoint Pollution Programs. EPA and NOAA have approved 13 States and 4 Territories, and conditionally approved 16 States and 1 Territory. The conditional approvals will require States and Territories to submit additional information in order to obtain final program approval. CZARA section 6217 requires States and Territories to obtain final approval of their Coastal Nonpoint Pollution Programs in order to retain their full share of funding available to them under section 319 of the Clean Water Act and section 306 of the Coastal Zone Management Act.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 125 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: 16 States and 1 Territory with approved coastal zone management programs.

Estimated Number of Respondents: 17.

Frequency of Response: Once.

Estimated Total Annual Hour Burden: 2,125 hours.

Estimated Total Annual Cost: \$76,500, which includes \$0 annualized Capital Startup costs, \$0 annualized O&M costs, and \$76,500 annualized Labor Costs.

Changes in the Estimates: There is a decrease of 1125 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This decrease is the result of EPA and NOAA having fully approved 17 of the 34 State Coastal Nonpoint Programs.

Dated: September 22, 2006.
