[TA-W-59,950]

Stanley-Bostitch, Inc., a Division of Stanley Works Inc., Including On-Site Leased Workers From Admiral Staffing Solutions, Clinton, CT; Certification Regarding Eligibility To Apply for Worker Adjustment Assistance and Alternative Trade Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273), as amended, the Department of Labor herein presents the results of an investigation regarding certification of eligibility to apply for worker adjustment assistance as a secondarily affected worker group.

In order to make an affirmative determination and issue a certification of eligibility for secondary workers to apply for Trade Adjustment Assistance, the group eligibility requirements of paragraph (b) of Section 222 of the Trade Act, as amended, must be met. It is determined in this case that the requirements of (b) of Section 222, as amended, have been met.

The investigation was initiated on August 24, 2006 in response to a petition filed by a state agency representative on behalf of workers of Stanley-Bostitch, Inc., a division of

Stanley Works, Inc., including on-site leased workers of Admiral Staffing Solutions, Clinton, Connecticut. The workers produce wire drawing used in staples, pins, and other fastening devices.

The investigation revealed a significant number or proportion of workers at the subject facility are threatened to become separated from employment.

The investigation also revealed that the Clinton, Connecticut plant produced wire drawing used as a component by a manufacturer whose workers were certified eligible to apply for adjustment assistance. At least 20 percent of the production or sales of the subject firm went to this manufacturer.

In accordance with Section 246 of the Trade Act of 1974 (26 U.S.C. 2813), as amended, the Department of Labor herein presents the results of its investigation regarding certification of eligibility to apply for alternative trade adjustment assistance (ATAA) for older workers.

In order for the Department to issue a certification of eligibility to apply for ATAA, the group eligibility requirements of Section 246 of the Trade Act must be met. The Department has determined in this case that the requirements of Section 246 have been met.

A significant number of workers at the firm are age 50 or over and possess skills that are not easily transferable. Competitive conditions within the industry are adverse.

Conclusion

After careful review of the facts obtained in the investigation, I determine that workers of Stanley-Bostitch, Inc., a division of Stanley Works Inc., including on-site leased workers of Admiral Staffing Solutions, Clinton, Connecticut qualify as adversely affected secondary workers under Section 222 of the Trade Act of 1974, as amended. In accordance with the provisions of the Act, I make the following certification:

"All workers of Stanley-Bostitch, Inc., a division of Stanley Works Inc., including on-site leased workers of Admiral Staffing Solutions, Clinton, Connecticut who became totally or partially separated from employment on or after August 23, 2005, through two years from the date of certification are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974, and are also eligible to apply for alternative trade adjustment assistance under Section 246 of the Trade Act of 1974."

Signed in Washington, DC, this 14th day of September 2006.

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-335 and 50-389]

Florida Power and Light Company, et al.; Notice of Withdrawal of Application for Amendment to Facility Operating Licenses

The U.S. Nuclear Regulatory Commission (the Commission) has granted the request of Florida Power and Light Company, *et al.* (the licensee), to withdraw portions of its April 21, 2005, application for proposed amendments to Facility Operating License Nos. DPR-67 and NPF-16 for St. Lucie Units 1 and 2, respectively, located in St. Lucie County, Florida.

The portions of the proposed amendments would have revised the Technical Specifications (TSs) to adopt certain provisions of the Combustion Engineering Standard TSs regarding remote shutdown and postaccident monitoring instrumentation.

The Commission had previously issued a Notice of Consideration of Issuance of Amendment published in the **Federal Register** on July 5, 2005 (70 FR 38720). However, by letter dated September 27, 2006, the licensee withdrew portions of the proposed amendments.

For further details with respect to this action, see the application for amendment dated April 21, 2005, and the licensee's letter dated September 27, 2006, which withdrew portions of the application for license amendment.
