

4.0 State Consultation

In accordance with the Commission's regulations, the [] State official was notified of the proposed issuance of the amendment. The State official had [(1) no comments or (2) the following comments—with subsequent disposition by the staff].

5.0 Environmental Consideration

The amendment[s] change[s] a requirement with respect to the installation or use of a facility component located within the restricted area as defined in 10 CFR part 20 or surveillance requirements. The NRC staff has determined that the amendment involves no significant increase in the amounts, and no significant change in the types, of any effluents that may be released offsite, and that there is no significant increase in individual or cumulative occupational radiation exposure. The Commission has previously issued a proposed finding that the amendment involves no significant hazards consideration and there has been no public comment on such finding published [DATE] ([] FR []).

Accordingly, the amendment meets the eligibility criteria for categorical exclusion set forth in 10 CFR 51.22(c)(9). Pursuant to 10 CFR 51.22(b), no environmental impact statement or environmental assessment need be prepared in connection with the issuance of the amendment.6.0 Conclusion

The Commission has concluded, based on the considerations discussed above, that (1) There is reasonable assurance that the health and safety of the public will not be endangered by operation in the proposed manner, (2) such activities will be conducted in compliance with the Commission's regulations, and (3) the issuance of the amendment will not be inimical to the common defense and security or to the health and safety of the public.

Proposed No Significant Hazards Consideration Determination
Description of Amendment Request: [Plant name] requests adoption of an approved change to the standard technical specifications (STS) for Babcock and Wilcock PWR STS Revision 3.0 of NUREG-1430, Combustion Engineering PWR STS Revision 3.0 of NUREG-1432 and Westinghouse PWR STS Revision 3.0 of NUREG-1431 plant specific technical specifications (TS), to allow relocating the main steam and main feedwater isolation valve closure times to a Licensee Controlled Document that is referenced in the Bases. The changes are

consistent with NRC approved Industry/ Technical Specification Task Force (TSTF) Standard Technical Specification Change Traveler, TSTF-491, Revision 2.

Basis for proposed no-significant-hazards-consideration determination: As required by 10 CFR 50.91(a), an analysis of the issue of no-significant-hazards-consideration is presented below:

Criterion 1—The Proposed Change Does Not Involve a Significant Increase in the Probability or Consequences of an Accident Previously Evaluated

The proposed change allows relocating main steam and main feedwater valve isolation times to the Licensee Controlled Document that is referenced in the Bases. The proposed change is described in Technical Specification Task Force (TSTF) Standard TS Change Traveler TSTF-491 related to relocating the main steam and main feedwater valves isolation times to the Licensee Controlled Document that is referenced in the Bases and replacing the isolation time with the phase, "within limits."

The proposed change does not involve a physical alteration of the plant (no new or different type of equipment will be installed). The proposed changes relocate the main steam and main feedwater isolation valve times to the Licensee Controlled Document that is referenced in the Bases. The requirements to perform the testing of these isolation valves are retained in the TS. Future changes to the Bases or licensee-controlled document will be evaluated pursuant to the requirements of 10 CFR 50.59, "Changes, test and experiments", to ensure that such changes do not result in more than minimal increase in the probability or consequences of an accident previously evaluated.

The proposed changes do not adversely affect accident initiators or precursors nor alter the design assumptions, conditions, and configuration of the facility or the manner in which the plant is operated and maintained. The proposed changes do not adversely affect the ability of structures, systems and components (SSCs) to perform their intended safety function to mitigate the consequences of an initiating event within the assumed acceptance limits. The proposed changes do not affect the source term, containment isolation, or radiological consequences of any accident previously evaluated. Further, the proposed changes do not increase the types and the amounts of radioactive effluent that may be released, nor significantly increase individual or cumulative occupational/public radiation exposures.

Therefore, the changes do not involve a significant increase in the probability or consequences of any accident previously evaluated.

Criterion 2—The Proposed Change Does Not Create the Possibility of a New or Different Kind of Accident from any Previously Evaluated

The proposed changes relocate the main steam and main feedwater valve isolation times to the Licensee Controlled Document

that is referenced in the Bases. In addition, the valve isolation times are replaced in the TS with the phase "within limits". The changes do not involve a physical altering of the plant (i.e., no new or different type of equipment will be installed) or a change in methods governing normal plant operation. The requirements in the TS continue to require testing of the main steam and main feedwater isolation valves to ensure the proper functioning of these isolation valves.

Therefore, the changes do not create the possibility of a new or different kind of accident from any previously evaluated.

Criterion 3—The Proposed Change Does Not Involve a Significant Reduction in the Margin of Safety

The proposed changes relocate the main steam and main feedwater valve isolation times to the Licensee Controlled Document that is referenced in the Bases. In addition, the valve isolation times are replaced in the TS with the phase "within limits". Instituting the proposed changes will continue to ensure the testing of main steam and main feedwater isolation valves. Changes to the Bases or licensee controlled document are performed in accordance with 10 CFR 50.59. This approach provides an effective level of regulatory control and ensures that main steam and feedwater isolation valve testing is conducted such that there is no significant reduction in the margin of safety.

The margin of safety provided by the isolation valves is unaffected by the proposed changes since there continue to be TS requirements to ensure the testing of main steam and main feedwater isolation valves. The proposed changes maintain sufficient controls to preserve the current margins of safety.

Based upon the reasoning above, the NRC staff concludes that the amendment request involves no significant hazards consideration.

For the Nuclear Regulatory Commission,
*Project Manager, Plant Licensing Branch,
Division of Operating Reactor Licensing,
Office of Nuclear Reactor Regulation.*

OFFICE OF PERSONNEL MANAGEMENT

Submission for OMB Emergency Clearance and 60 Day Notice for Comment for a Reinstatement, With Change, of a Previously Approved Collection: OPM Form 1300, Presidential Management Fellows Program Online Application and Resume Builder

AGENCY: Office of Personnel Management.

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104-13, May 22, 1995), this notice

announces that the Office of Personnel Management (OPM) submitted a request to the Office of Management and Budget (OMB) for emergency clearance and review for a reinstatement, with change, of a previously approved collection for the OPM Form 1300, Presidential Management Fellows (PMF) Program Online Application and Resume Builder. Approval of this request is necessary to facilitate the timely nomination of PMF applicants to the PMF Program. This also serves as the 60 Day Notice for review for full clearance.

As a result of Executive Order 13318 and OPM regulations on the PMF Program issued on May 19, 2005 (70 FR 28775), effective June 20, 2005, eligible graduate students interested in applying to the PMF Program must be nominated by their accredited graduate school's Dean, Chairperson, or Academic Program Director (otherwise referred to as the Nomination Official). In addition, per OMB's approval of the OPM Form 1300 for the PMF Class of 2006 on September 31, 2005, several contingencies were requested. One of those contingencies was for OPM to commit to developing future systems/system changes that would streamline the application process for those seeking Federal jobs.

The following significant changes have been made to the application and nomination process: (1) The PMF Program has recently migrated from an in-house online application and resume builder system to a vacancy announcement approach via USAJOBS; and (2) the nomination process was modified to create a PMF Nomination Form (which OPM proposes to become the new OPM Form 1300), which will serve as a fax-back form for the Nomination Official to fill-out and fax to OPM. Applicants will be directed to a vacancy announcement on USAJOBS and asked to upload their resume. Upon submission of their application, a Nomination Form will generate for the applicant to hand-carry to their school's Nomination Official for possible nomination to the PMF Program. If at any stage the applicant is found ineligible or ultimately not selected as a Finalist, he/she would still have the flexibility to apply to other Federal opportunities on USAJOBS.

We estimate 2,500 to 3,000 applications will be received and processed in the 2006/2007 open season for PMF applications. During the 2005/2006 open season OPM received approximately 2,982 applications, leading to 2,755 nominations by colleges and universities. Using the new OPM Form 1300 (PMF Nomination Form) we estimate Nomination Officials

will need one-half hour to receive, review, and render a decision for nomination. The annual estimated burden for Nomination Officials to select nominees is 1,500 hours.

Comments are particularly invited on: Whether this information is necessary for the proper performance of functions on the Office of Personnel Management, and whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

For copies of this proposal, contact Mary Beth Smith-Toomey at (202) 606-2150 fax (202) 418-3251, or e-mail to mbtoomey@opm.gov. Please include your complete mailing address with your request.

DATES: Comments on this proposal for emergency review should be received within 10 calendar days from the date of this publication. We are requesting OMB to take action within 5 calendar days from the close of this **Federal Register** Notice, on the request for emergency review. Comments on this proposal for 60 day review should be received within 60 days from the date of this publication.

ADDRESSES: Send or deliver comments to: U.S. Office of Personnel Management, Presidential Management Fellows Program, ATTN: Rob Timmins, 1900 E Street, NW., Room 1425, Washington, DC 20415; E-mail: pmf@opm.gov; and Brenda Aguilar, OPM Desk Officer, Office of Management and Budget, Office of Information and Regulatory Affairs, New Executive Office Building, NW., Room 10235, Washington, DC 20503.

Office of Personnel Management.

Dan G. Blair,

Deputy Director.

SECURITIES AND EXCHANGE COMMISSION

[Release No. IC-27507]

Notice of Applications for Deregistration Under Section 8(f) of the Investment Company Act of 1940

September 29, 2006.

The following is a notice of applications for deregistration under

section 8(f) of the Investment Company Act of 1940 for the month of September, 2006. A copy of each application may be obtained for a fee at the SEC's Public Reference Branch (tel. 202-551-5850). An order granting each application will be issued unless the SEC orders a hearing. Interested persons may request a hearing on any application by writing to the SEC's Secretary at the address below and serving the relevant applicant with a copy of the request, personally or by mail. Hearing requests should be received by the SEC by 5:30 p.m. on October 24, 2006, and should be accompanied by proof of service on the applicant, in the form of an affidavit or, for lawyers, a certificate of service. Hearing requests should state the nature of the writer's interest, the reason for the request, and the issues contested. Persons who wish to be notified of a hearing may request notification by writing to the Secretary, U.S. Securities and Exchange Commission, 100 F Street, NE., Washington, DC 20549-1090.

For Further Information Contact: Diane L. Titus at (202) 551-6810, SEC, Division of Investment Management, Office of Investment Company Regulation, 100 F Street, NE., Washington, DC 20549-4041.

SEI Absolute Return Master Fund, L.P. [File No. 811-21350]

SEI Absolute Return Fund, L.P. [File No. 811-21351]

Summary: Each applicant, a closed-end investment company, seeks an order declaring that it has ceased to be an investment company. Applicants have never made a public offering of their securities and do not propose to make a public offering or engage in business of any kind.

Filing Dates: The applications were filed on July 20, 2006, and amended on September 21, 2006 and September 27, 2006.

Applicants' Address: One Freedom Valley Dr., Oaks, PA 19456.

Evergreen American Retirement Trust [File No. 811-5434]

Summary: Applicant seeks an order declaring that it has ceased to be an investment company. On or about December 22, 1997, applicant transferred its assets to Evergreen American Retirement Fund, a newly created series of Evergreen Equity Trust, based on net asset value. Expenses incurred in connection with the reorganization were paid by applicant.

Filing Date: The application was filed on September 21, 2006.

Applicant's Address: 200 Berkeley St., Boston, MA 02116.
