

(CAS No. 58-89-9) and chlordecone (CAS No. 143-50-0).

At the November 2005 meeting, in accordance with the procedures laid down in Article 8 of the Convention, POPRC examined the proposals and applied the screening criteria in Annex D of the Convention ("Information Requirements and Screening Criteria"). With regard to all five chemicals, POPRC decided that it was satisfied that the screening criteria had been fulfilled and that further work should therefore be undertaken in accordance with the provisions of the Convention.

The five chemicals being newly proposed at the November 2006 meeting for inclusion in Annexes A, B and/or C of the Stockholm Convention are two industrial chemicals:

Octabromodiphenyl ether (CAS No. 32536-52-0) and pentachlorobenzene (CAS No. 608-93-5); one chemical with both industrial and pesticidal uses: Short-chained chlorinated paraffins (CAS No. 85535-84-8); and two pesticides: Alpha hexachlorocyclohexane (CAS No. 319-84-6) and beta hexachlorocyclohexane (CAS No. 319-85-7).

Article 8 provides that once POPRC is satisfied that the screening criteria in Annex D have been fulfilled in the proposals, the following steps are then undertaken:

- Parties and observers are requested to provide additional information about the chemical, including information to be used in developing the risk profiles, per Annex E ("Information Requirements for the Risk Profile").
- Draft risk profiles are prepared for consideration by POPRC.
- POPRC reviews the risk profiles and decides, on the basis of the risk profile, if the chemical is likely, as a result of its long-range environmental transport, to lead to significant adverse human health and/or environmental effects, such that global action is warranted. If POPRC determines that action is warranted, or the Conference of the Parties (COP) determines that the proposal shall proceed, then Parties and observers will be asked to provide information, per Annex F ("Information on Socio-Economic Considerations"), to aid in the development of risk management evaluations.
- Once POPRC is satisfied with the risk management evaluation, POPRC then prepares a recommendation whether to list the chemical for consideration by COP.
- COP makes the final decision on listing the chemical in Annexes A, B, and/or C.

EPA anticipates issuing **Federal Register** notices, with at least 30 day

comment periods, soliciting information after all but the last step, when appropriate.

A. What Action is the Agency Taking?

The Agency is issuing this notice to increase awareness of the documents being discussed at POPRC in November 2006, the status of their review under the Convention, and upcoming procedural steps required by the Convention. The Agency will also use any comments received to inform its position on issues for the meeting. The relevant meeting documents have been posted at http://www.pops.int/documents/meetings/poprc_2/default.htm.

Comments, identified by docket ID number EPA-HQ-OPPT-2006-0794, must be received on or before October 31, 2006.

B. What is the Agency's Authority for Taking this Action?

EPA is requesting comment and information under the authority of section 102(2)(F) of the National Environmental Policy Act, 42 U.S.C. 4321 *et seq.*, which directs all agencies of the Federal Government to "[r]ecognize the worldwide and long-range character of environmental problems and, where consistent with the foreign policy of the United States, lend appropriate support to initiatives, resolutions and programs designed to maximize cooperation in anticipating and preventing a decline in the quality of mankind's world environment." Section 17(d) of the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA) also provides additional support in that it directs the Administrator of EPA "in cooperation with the Department of State and any other appropriate Federal agency, [to] participate and cooperate in any international efforts to develop improved pesticide research and regulations."

General Description of Reports

This information collection is mandatory: 12 U.S.C. 321, 324, and 602 (Board); 12 U.S.C. 602 (OCC); and 12 U.S.C. 1828 (FDIC). This information collection is given confidential treatment (5 U.S.C. 552(b)(8)).

Abstract

The FFIEC 030 and FFIEC 030S contain asset and liability information for foreign branches of insured U.S. commercial banks and state-chartered savings banks and is required for regulatory and supervisory purposes. The information is used to analyze the foreign operations of U.S. banks. Foreign branches of U.S. banks that have in excess of \$250 million in total assets file the FFIEC 030, with significant branches submitting the report quarterly and other branches in this size range submitting the report annually as of December 31. Foreign branches with total assets between \$50 million and \$250 million file the abbreviated FFIEC 030S report annually as of December 31. Foreign branches with less than \$50 million in total assets are exempt from reporting. All reports are filed with the appropriate Federal Reserve District Bank. The Federal Reserve collects this information on behalf of the parent U.S. bank's primary federal bank regulatory agency.

Current Actions

In response to the July 14, 2006, notice published in the **Federal Register** (71 FR 40119), the agencies did not receive any comments. The revisions to

the FFIEC 030 have been approved by the FFIEC as originally proposed and are summarized below. The agencies will implement the changes as of the December 31, 2006, reporting date.

Listing of Revisions

A. Revisions to the FFIEC 030

The agencies will reduce reporting burden by eliminating five reporting items for branches with total assets in excess of \$250 million because the aggregate amounts reported in these items have declined substantially to a nominal amount. The five items being eliminated are:

- Asset item 6.d, "Loans to foreign governments and official institutions." Amounts will be included in current item 6.e, "Loans and lease financing receivables: To all others."
- Asset item 7, "Customers" liability to this bank on acceptances outstanding." Amounts will be included in current item 13, "Other assets."
- Asset item 9, "Accrued interest receivable." Amounts will be included in current item 13, "Other assets."
- Liability item 19, "Bank's liability on acceptances executed and outstanding." Amounts will be included in current item 24, "Other liabilities."
- Liability item 20, "Accrued taxes and other expenses." Amounts will be included in current item 24, "Other liabilities."

B. Implementation of the FFIEC 030S

The agencies are creating an abbreviated or "short" report (FFIEC 030S) containing five items that branches with total assets between \$50 million and \$250 million will file on an annual basis in lieu of the FFIEC 030 form. The scope of the FFIEC 030S is comparable to a report filed with the Federal Reserve by U.S. banking organizations for their foreign subsidiaries.¹ The items for this report are considered the minimum information needed to serve as indicators of higher business volume, risk, and complexity in small-sized foreign branches. The reported information will also be used to monitor potential developments that may pose risks to the overall operations of the parent bank. The items for the FFIEC 030S are:

- Gross due from related institutions (a combination of current FFIEC 030 asset items 11 and 12)
- Total assets (current FFIEC 030 asset item 14)

¹ Abbreviated Financial Statements of Foreign Subsidiaries of U.S. Banking Organizations (FR 2314S; OMB No. 7100-0073), filed for subsidiaries with assets between \$50 million and \$250 million.

- Gross due to related institutions (a combination of current FFIEC 030 liability items 22 and 23)

- Total gross notional amount of derivative contracts (a combination of current FFIEC 030 derivative items 26, 27, 28, and 31)

- Commercial and similar letters of credit, standby letters of credit, and foreign office guarantees (a combination of current FFIEC 030 off-balance sheet items 29 and 30)

C. Exempt Entities

The agencies will exempt foreign branches with total assets below \$50 million from both the FFIEC 030 and FFIEC 030S annual filing requirements.
