Procedural Background

This rule is limited to the changes contained in Amendment No. 3 to CoC

No. 1014 and does not include other aspects of the HI-STORM 100 cask system design. The NRC is using the "direct final rule procedure" to issue this amendment because it represents a limited and routine change to an existing CoC that is expected to be noncontroversial. Adequate protection of public health and safety continues to be ensured. The direct final rule will become effective on January 2, 2007. However, if the NRC receives significant adverse comments by November 15, 2006, then the NRC will publish a document that withdraws the direct final rule and will subsequently address the comments received in a final rule. The NRC will not initiate a second comment period on this action.

A significant adverse comment is a comment where the commenter explains why the rule would be inappropriate, including challenges to the rule's underlying premise or approach, or would be ineffective or unacceptable without a change. A comment is adverse and significant if:

(1) The comment opposes the rule and provides a reason sufficient to require a substantive response in a notice-and-comment process. For example, in a substantive response:

(a) The comment causes the NRC staff to reevaluate (or reconsider) its position or conduct additional analysis;

(b) The comment raises an issue serious enough to warrant a substantive response to clarify or complete the record; or

(c) The comment raises a relevant issue that was not previously addressed or considered by the NRC staff.

(2) The comment proposes a change or an addition to the rule, and it is apparent that the rule would be ineffective or unacceptable without incorporation of the change or addition.

(3) The comment causes the NRC staff to make a change (other than editorial) to the CoC or TS.

SUPPLEMENTARY INFORMATION:

Initial Regulatory Flexibility Act Analysis

The Reform Act¹ requires that the FDIC prescribe final regulations, after notice and opportunity for comment, to provide for deposit insurance assessments under section 7(b) of the Federal Deposit Insurance Act (the FDIC Act). This notice supplements the FDIC's initial notice of proposed rulemaking, 71 FR 41910 (July 24, 2006), to amend 12 CFR 327 to: (1) Create different risk differentiation frameworks for smaller and larger institutions that are well capitalized and well managed; (2) establish a common risk differentiation framework for all other insured institutions; and (3) establish a base assessment rate schedule. The proposal would improve risk differentiation and deposit insurance pricing by drawing upon established measures of risk and existing best practices of the industry and Federal regulators for evaluating risk. The proposal would make the assessment system more sensitive to risk and fairer, by limiting the subsidization of riskier institutions by safer ones. The 60-day period for public comment on the proposed rule expired on September 22, 2006.

The FDIC's notice of proposed rulemaking did not include an initial regulatory flexibility analysis pursuant to the Regulatory Flexibility Act (RFA) (5 U.S.C. 603) based on an exception for rules of particular applicability relating to rates or practices relating to such rates, which are expressly excluded from the definition of "rule" for purposes of the RFA (5 U.S.C. 601). The FDIC continues to believe that the rate exception applies to this rulemaking. Nonetheless, the FDIC is voluntarily undertaking an initial regulatory flexibility analysis of the proposal and seeking comment on it.

¹ Federal Deposit Insurance Reform Act of 2005, Public Law 109-171, 120 Stat. 9; Federal Deposit Insurance Conforming Amendments Act of 2005, Public Law 109-173, 119 Stat. 3601.

The Reform Act requires that the FDIC prescribe final regulations, after notice and opportunity for comment, to provide for deposit insurance assessments under section 7(b) of the Federal Deposit Insurance Act (the FDIC Act).² The Reform Act enacted the bulk of the recommendations made by the FDIC in 2001; it defines a risk-based system generally as one based on an institution's probability of incurring loss to the deposit insurance fund due to the composition and concentration of the institution's assets and liabilities, the likely amount of loss, and the revenue needs of the Deposit Insurance Fund (DIF).³

The Reform Act also grants the FDIC's Board of Directors the discretion to price deposit insurance according to risk for all insured institutions regardless of the level of the fund reserve ratio; it leaves in place the existing statutory provision allowing the FDIC to "establish separate risk-based assessment systems for large and small members of the Deposit Insurance Fund."⁴ These separate systems are subject to a new requirement that "[n]o insured depository institution shall be barred from the lowest-risk category solely because of size."⁵ In short, Congress directed the FDIC to differentiate for risk among all depository institutions and gave it the tools to do so.

The FDIC's proposal would improve risk differentiation and pricing by drawing upon established measures of risk and existing best practices of the industry and Federal regulators for evaluating risk. The FDIC believes that the proposal would make the assessment system more sensitive to risk, and also make the risk-based assessment system fairer, by limiting the subsidization of riskier institutions by safer ones. The proposed system for risk differentiation would consolidate the existing nine categories into four and name them Risk Categories I, II, III and IV. Risk Category I would replace the current 1A risk category (see 71 FR 41910).

Within Risk Category I, the FDIC proposed one method of risk differentiation for small institutions

² Pursuant to the Reform Act, current assessment regulations remain in effect until the effective date of new regulations. Section 2109 of the Reform Act. The Reform Act requires the FDIC, within 270 days of enactment, to prescribe final regulations, after notice and opportunity for comment, providing for assessments under section 7(b) of the Federal Deposit Insurance Act. Section 2109(a)(5) of the Reform Act.
