

found that most rates have declined since 1985. However, one category of rates examined by GAO—grain rates—diverged from the industry trends. According to the GAO report, the amount of grain traffic with comparatively high markups over variable cost increased notably between 1985 and 2004.

The Board will hold a public hearing, as a forum for interested persons to provide views and information about the market conditions that led to these observations by GAO and about grain transportation markets in general. Because U.S. grain producers compete in a broader North American, and global, marketplace, the Board also invites information regarding the interplay between the American and Canadian wheat markets, how the Canadian regulatory system differs from the American system, and what impact those differences might have on grain production in the United States.

Date of Hearing. The hearing will begin at 10 a.m. on Thursday, November 2, 2006, in the 7th floor hearing room at the Board's headquarters in Washington, DC, and will continue, with short breaks if necessary, until every person scheduled to speak has been heard.

Notice of Intent To Participate. Any person wishing to speak at the hearing should file with the Board a written notice of intent to participate, and should identify the party, the proposed speaker, the time requested, and topic(s) to be covered, as soon as possible, but no later than October 23, 2006.

Testimony. Each speaker should file with the Board his/her written testimony by October 30, 2006. Also, any interested person who wishes to submit a written statement without appearing at the November 2 hearing should file that statement by October 30, 2006.

Board Releases and Live Audio Available Via the Internet. Decisions and notices of the Board, including this notice, are available on the Board's Web site at <http://www.stb.dot.gov>. This hearing will be available on the Board's Web site by live audio streaming.
