

**NATIONAL SCIENCE FOUNDATION****Advisory Committee for Social, Behavioral, and Economic Sciences; Notice of Meeting**

In accordance with Federal Advisory Committee Act (Pub. L. 92-463, as amended), the National Science Foundation announces the following meeting:

*Name:* Advisory Committee for Social, Behavioral, and Economic Sciences (#1171).

*Date/Time:* November 16, 2006; 8:30 a.m. to 5 p.m. November 17, 2006; 8:30 a.m. to 1 p.m.

*Place:* Holiday Inn Arlington Hotel, 4610 North Fairfax Drive, Arlington, VA 22230 (Clarendon Banquet Room).

*Type of Meeting:* Open.

*Contact Person:* Mr. Tyrone Jordan, Office of the Assistant Director, Directorate for Social, Behavioral, and Economic Sciences, National Science Foundation, 4201 Wilson Boulevard, Room 905, Arlington, VA 22230, 703-292-8741.

*Summary Minutes:* May be obtained from contact person listed above.

*Purpose of Meeting:* To provide advice and recommendations to the National Science Foundation on major goals and policies pertaining to Social, Behavioral and Economic Sciences Directorate programs and activities.

*Agenda:* November 16, 2006, Meeting for New Advisory Committee Members. Introduction of New Advisory Committee Members and Staff. Review of Minutes, and Directorate Updates. Human and Social Dynamics (HSD) Priority Area Update. Division of Behavioral and Cognitive Sciences (BCS) COV.

November 17, 2006, IPAMM. Cyberinfrastructure. Identification of Agenda Items for Next Meeting.

Dated: October 19, 2006.

**Susanne Bolton,**

*Committee Management Officer.*

[FR Doc. 06-8841 Filed 10-23-06; 8:45 am]

**BILLING CODE 7555-01-M**

**NATIONAL TRANSPORTATION SAFETY BOARD****Notice of Meeting; Sunshine Act**

**TIME AND DATE:** 9:30 a.m., Tuesday, October 31, 2006.

**PLACE:** NTSB Conference Center, 429 L'Enfant Plaza, SW., Washington, DC 20594.

**STATUS:** The one item is open to the public.

**MATTERS TO BE CONSIDERED:**

7715A—Aircraft Accident Report—Runway Overrun and Collision, Platinum Jet Management, LLC, Bombardier Challenger CL-600-1A11, N370V, Teterboro, New Jersey, February 2, 2005.

**NEWS MEDIA CONTACT:** Keith Holloway, Telephone: (202) 314-6100.

Individuals requesting specific accommodations should contact Chris Bisett at (202) 314-6305 by Friday, October 27, 2006.

The public may view the meeting via a live or archived webcast by accessing a link under "News & Events" on the NTSB home page at [www.nts.gov](http://www.nts.gov).

**FOR FURTHER INFORMATION CONTACT:** Vicky D'Onofrio, (202) 314-6410.

Dated: October 20, 2006.

**Vicky D'Onofrio,**

*Federal Register Liaison Officer.*

**NUCLEAR REGULATORY COMMISSION**

**[IA-05-021]**

**In the Matter of Andrew Siemaszko; Amendment of Order Prohibiting Involvement INNR-C Licensed Activities****I**

On April 21, 2005, the NRC issued an order (Order of April 21, 2005 Order) to Mr. Andrew Siemaszko, which, although not immediately effective, would prohibit his involvement in NRC-licensed activities for a period of five years for reasons stated therein. This amendment, which incorporates the April 21, 2005 Order as if fully set out herein, is issued solely for the purpose of providing notice to Mr. Siemaszko of additional grounds upon which the NRC staff relies in support of the April 21, 2005 Order.

**II**

Based on the statement of facts set forth in the Order, the Staff determined, and hereunder reiterates, that Mr. Siemaszko engaged in deliberate misconduct in violation of 10 CFR 50.5(a)(2) in submitting to FENOC information that he knew to be incomplete or inaccurate in a respect material to the NRC. Under the relevant provisions of that regulation, an employee of a licensee may not deliberately submit to the NRC or a licensee information that the person submitting the information knows to be incomplete or inaccurate in some respect material to the NRC. In the Order, the Staff premised the finding that Mr. Siemaszko violated that regulation based on the actions described in the Order relating to two documents; Work Order No. 00-001846-000 and Condition Report 2000-1037.

The Staff has determined that Mr. Siemaszko's actions with respect to three additional documents which were submitted to the NRC present additional instances in which he engaged in deliberate misconduct in violation of 10 CFR 50.5(a)(2). Accordingly, notice is provided that the grounds upon which the April 21, 2005 Order was issued are hereby amended to include those instances as described below.

**III**

On August 3, 2001, the Nuclear Regulatory Commission (NRC) issued Bulletin 2001-001, "Circumferential Cracking of Reactor Pressure Vessel Head Penetration Nozzles," (Bulletin) to holders of operating licenses for pressurized water nuclear power reactors. The NRC requested that addressees provide information related to the structural integrity of the reactor pressure vessel head penetration (VHP) nozzles for their respective facilities, including the extent of VHP nozzle leakage and cracking that had been found to date, the inspections and repairs that had been undertaken to satisfy applicable regulatory requirements, and the basis for concluding that their plans for future inspections would ensure compliance with applicable regulatory requirements. The information was required to be submitted to the NRC in writing in accordance with the 10 CFR 50.54(f).

FirstEnergy Nuclear Operating Company's (FENOC's) supplemental written responses to the Bulletin, dated October 17, 2001 (Serial Letter 2735) and October 30, 2001 (Serial Letter 2741 and Serial letter 2744), set forth inaccurate, incomplete or otherwise misleading information, provided by Mr. Siemaszko to FENOC which, in turn, provided it to the NRC. For instance, Mr. Siemaszko was the source of the information in a table summarizing the previous three (1996, 1998, 2000) refueling outage nozzle inspection results which was included in Serial Letter 2735 (as attachment 2) which was included, with minor changes, in Serial Letter 2741 (as attachment 2). The information provided in that table did not accurately identify the nozzles that were obscured in those three outages. Mr. Siemaszko knew that the table included incomplete or inaccurate information in some respect material to the NRC but nevertheless, on October 17, 2001, he signed off on the issuance of Serial Letter 2735.

Furthermore, Mr. Siemaszko provided inaccurate, incomplete or otherwise misleading information to FENOC,

which FENOC submitted to the NRC in FENOC's supplemental written response to the Bulletin, dated October 30, 2001 (Serial Letter 2744). For instance, Mr. Siemaszko produced, assembled and labeled the pictures which were included in Serial Letter 2744 as further proof of the safe condition of the head. However, Mr. Siemaszko mislabeled some of the pictures and knew that the collection of the pictures that were provided to the NRC did not accurately reveal the true condition of the head which in reality was substantially worse than shown through those images.

#### IV

The NRC determined, in the April 21, 2005 Order, that Mr. Siemaszko's submission of inaccurate and incomplete information in condition report No. 2000-1037 and Work Order No. 00-001846-000 was of very high safety and regulatory significance. Had the NRC been aware of this incomplete and inaccurate information, the NRC would likely have taken immediate regulatory action to shut down the Davis-Besse plant and require FENOC to implement appropriate corrective actions. The additional examples cited above provide further support for the determination in the April 21, 2005 Order that NRC cannot have reasonable assurance that Mr. Siemaszko will conduct NRC-licensed activities in compliance with regulatory requirements. The NRC is not proposing to modify the sanctions which were imposed on Mr. Siemaszko in the April 21, 2005 Order or otherwise alter the statement or terms of that Order by the citation of these three additional examples.

#### V

In accordance with 10 CFR 2.202, Mr. Siemaszko must, and any other person adversely affected by this Amendment of Order may, submit an answer to this Amendment of Order within 20 days of the date hereof. The answer shall, in writing and under oath or affirmation, specifically admit or deny each allegation or charge made in this Amendment of Order and shall set forth the matters of fact and law on which Mr. Siemaszko or other person adversely affected relies and the reasons as to why the Amendment of Order should not have been issued. Any answer shall be submitted to the Secretary, U.S. Nuclear Regulatory Commission, Attn: Rulemakings and Adjudications Staff, Washington, DC 20555-0001. Copies also shall be sent to the Director, Office of Enforcement, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, to the Assistant General Counsel for Materials Litigation and Enforcement at the same address, to the Regional Administrator, NRC Region III, 2443 Warrenville Road, Lisle, IL 60532-4352, and to Mr. Siemaszko if the answer is by a person other than Mr. Siemaszko. Because of a potential disruption in delivery of mail to United States Government offices, it is requested that answer be transmitted to the Secretary of the Commission either by means of facsimile transmission to 301-415-1101 or by e-mail to [hearingdocket@nrc.gov](mailto:hearingdocket@nrc.gov) and also to the Office of the General Counsel either by means of facsimile transmission to 301-415-3725 or by e-mail to [OGCMailCenter@nrc.gov](mailto:OGCMailCenter@nrc.gov). In light of the fact that Mr. Siemaszko filed a timely request for hearing relating to the April 21, 2005 Order, which hearing has been commenced, a further request

for hearing is not required to be filed for this Amendment of Order.

Nuclear Regulatory Commission.

Dated this 17th day of October 2006.

**Martin J. Virgilio,**

*Deputy Executive Director for Materials, Research, State and Compliance Programs, Office of the Executive Director for Operations.*

BILLING CODE 7590-01-P

## NUCLEAR REGULATORY COMMISSION

### Request for a License To Import Radioactive Waste

Pursuant to 10 CFR 110.70 "Public notice of receipt of an application," please take notice that the Nuclear Regulatory Commission has received the following request for an import license. Copies of the request are available electronically through ADAMS and can be accessed through the Public Electronic Reading Room (PERR) link <http://www.nrc.gov/NRC/ADAMS/index.html> at the NRC Homepage.

A request for a hearing or petition for leave to intervene may be filed within 30 days after publication of this notice in the **Federal Register**. Any request for hearing or petition for leave to intervene shall be served by the requestor or petitioner upon the applicant, the Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555; the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555; and the Executive Secretary, U.S. Department of State, Washington, DC 20520.

The information concerning this import license application follows.

#### NRC IMPORT LICENSE APPLICATION

Name of applicant, date of application, date received, Application No., Docket No.	Description of material		End use	Country of origin
	Material type	Total quantity		
UniTech Services Group, Inc., August 17, 2006, September 7, 2006, IW019, 11005650.	Class A radioactive waste consisting of source, special nuclear and byproduct materials as contaminants of various materials including paper, cardboard, plastic, metals, cloth, rubber, wood, etc.	Up to 30,000 lbs. or 5,000 cubic feet of various contaminated materials.	Imported materials will be characterized and sorted by type and by levels of radioactivity. All materials imported will be returned (see export license application XW011) to Canadian customers for appropriate disposition. No materials imported under this license will remain or be disposed of in the U.S.	Canada.
