BILLING CODE 4210-67-P

DEPARTMENT OF THE INTERIOR

Office of the Secretary; Renewal of Trinity River Adaptive Management Working Group

AGENCY: Office of the Secretary, Interior.

ACTION: Notice of renewal.

SUMMARY: We are publishing this notice in accordance with the requirements of the Federal Advisory Committee Act (FACA). The Secretary of the Interior, after consultation with the General Services Administration, hereby renews the Trinity River Adaptive Management Working Group (Working Group) for 2 years. The Working Group provides recommendations on all aspects of the implementation of the Trinity River Restoration Program and affords stakeholders the opportunity to give policy, management, and technical input concerning Trinity River restoration efforts.

FOR FURTHER INFORMATION CONTACT:

Randy Brown, Fish and Wildlife Service, 1655 Heindon Road, Arcata, CA 95521, 707-822-7201.

SUPPLEMENTARY INFORMATION: The Working Group conducts its operations in accordance with the provisions of FACA (5 U.S.C. App.). It reports to the Trinity River Management Council and functions solely as an advisory body. The Working Group provides recommendations and advice to the Trinity Management Council on: (1) The effectiveness of management actions in achieving restoration goals and alternative hypotheses (methods and strategies) for study, (2) the priority for restoration projects, (3) funding priorities, and (4) other components of the Trinity River Restoration Program.

Working Group members represent the varied interests associated with the Trinity River Restoration Program. Members are selected from, but not limited to, Trinity County residents, recreational and commercial fishermen, commercial and recreational boaters, power/utility companies, agricultural water users, private and commercial timber producers, ranchers and people with grazing rights/permits, tribes, environmental organizations, and Federal, State, and local agencies with responsibilities in the Trinity River Basin. Members must be senior representatives of their respective constituent groups with knowledge of the Trinity River Restoration Program, including the Adaptive Environmental Assessment and Management Program.

Fifteen days after publication of this notice in the **Federal Register**, we will file a copy of the Working Group's charter with the Committee Management Secretariat, General Services Administration; Committee on Environment and Public Works, United States Senate; Committee on Resources, United States House of Representatives; and the Library of Congress.

Certification

I hereby certify that the Trinity River Adaptive Management Working Group is necessary and is in the public interest in connection with the performance of duties imposed on the Department of the Interior by Public Laws 84-386 and 96-335 (Trinity River Stream Rectification Act), 98-541 and 104-143 (Trinity River Basin Fish and Wildlife Management Act of 1984, and 102-575 (The Central Valley Improvement Act). The Working Group will assist the Department of the Interior by providing advice and recommendations on all aspects of implementation of the Trinity River Restoration Program.

Dated: October 17, 2006.

Dirk Kempthorne,

Secretary of the Interior.

Abstract: This information collection is associated with regulations implementing the Migratory Bird Treaty Act (MBTA) (16 U.S.C. 703 *et seq.*). Under the MBTA, it is unlawful to take, possess, import, export, transport, sell, purchase, barter, or offer for sale, purchase, or barter, migratory birds or their parts, nests, or eggs, except as authorized by regulations implementing the MBTA. In 2003, we promulgated regulations to authorize the take of double-crested cormorants (DCCOs) under certain circumstances. The regulations at 50 CFR 21.47 (Aquaculture Depredation Order) authorize aquaculture producers in 13 States to take DCCOs when the birds are found committing or about to commit depredations on commercial freshwater aquaculture stocks. The regulations at 50 CFR 21.48 (Public Resource Depredation Order) authorize State fish and wildlife agencies, the U.S. Department of Agriculture (APHIS-Wildlife Services), and federally recognized tribes in 24 States to take DCCOs to prevent depredations on the public resources of fish, wildlife, plants, and their habitats.

Both 50 CFR 21.47 and 21.48 impose reporting and recordkeeping requirements on those operating under the depredation orders. We use the information collected to:

- (1) Help assess the impact of the depredation orders on DCCO populations.
- (2) Protect nontarget migratory birds or other species.
- (3) Ensure that agencies and individuals are conforming to the terms, conditions, and purpose of the orders.

(4) Help gauge the effectiveness of the orders at mitigating cormorant-related damages.

Comments: On April 19, 2006, we published in the **Federal Register** (71 FR 20120) a notice of our intent to request that OMB renew approval for this information collection. In that notice, we solicited public comments for 60 days, ending on June 19, 2006. We received two comments.

The first commenter noted opposition to the killing of cormorants but, for the most part, did not specifically address the information collection except to say that "this paperwork * * * is ineffectual in even recording the actual numbers killed." We believe that the reporting provides valid information about the number of birds killed.

Following are comments by the second commenter and our responses:

Comment: The information will have practical utility only if it is freely accessible to other individuals to assess the accuracy and predictability of the outcomes.

Response: We have found the information useful and it is available upon request.

Comment: The accuracy of the burden estimate for this collection of information is only valid if cross-validation is allowed and reassessment of the data by another is conducted without knowledge of the outcome (blind tests).

Response: The accuracy of the estimate might be enhanced, but we believe it is of sufficient quality as reported.

Comment: The quality, utility, and clarity of the information collected must have transparency, ground truthing, and

redundancy by collaborators and outside entities.

Response: We do not believe that ground truthing or other confirmation of the limited data collected is necessary.

We again invite comments concerning this information collection on:

(1) Whether or not the collection of information is necessary, including whether or not the information will have practical utility;

(2) The accuracy of our estimate of the burden for this collection of information;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) Ways to minimize the burden of the collection of information on respondents. Comments submitted in response to this notice are a matter of public record.

Dated: August 28, 2006.

Hope Grey,

*Information Collection Clearance Officer,
 Fish and Wildlife Service.*
