

2006-22-04 Airbus: Amendment 39-14801. Docket No. FAA-2006-23633; Directorate Identifier 2005-NM-242-AD.

Effective Date

(a) This AD becomes effective December 4, 2006.

Affected ADs

(b) None.

Applicability

(c) This AD applies to the airplanes identified in Table 1 of this AD, certificated in any category; equipped with any Sogerma-Service pilot or co-pilot seat identified in Sogerma-Service Bulletin TAAI1-25-617, dated February 1, 2005, excluding any seat having part number (P/N) TAAI3-03PE00-01, TAAI3-03PE01-01, TAAI3-03CE00-01, and TAAI3-03CE01-01, with a serial number (S/N) higher than 791, on which the actuator has not been replaced after the date of issuance of the original standard airworthiness certificate or date of issuance of the original export certificate of airworthiness.

TABLE 1.—APPLICABILITY

Airbus model
(1) A318-111 and -112 airplanes.
(2) A319-111, -112, -113, -114, -115, -131, -132, and -133 airplanes.
(3) A320-111 airplanes.
(4) A320-211, -212, -214, -231, -232, and -233 airplanes.
(5) A321-111, -112, -131, -211 and -231 airplanes.
(6) A330-201, -202, -203, -223, and -243 airplanes.
(7) A330-301, -302, -303, -321, -322, -323, -341, -342, and -343 airplanes.
(8) A340-211, -212, and -213 airplanes.
(9) A340-311, -312, and -313 airplanes.
(10) A340-541 airplanes.
(11) A340-642 airplanes.

Unsafe Condition

(d) This AD results from a report of heavy wear at the driving gear of the rotor shaft end of the electrical driven motor on certain actuators of the pilot's and co-pilot's seats. We are issuing this AD to prevent uncommanded movement of the pilot's or co-pilot's seat during takeoff or landing, which could result in interference with the operation of the airplane and consequent temporary loss of airplane control.

Compliance

(e) You are responsible for having the actions required by this AD performed within the compliance times specified, unless the actions have already been done.

Inspection for the P/N of the Actuator

(f) Within 56 months after the effective date of this AD, inspect to determine if an actuator identified in Table 2 of this AD is installed in the pilot's or co-pilot's seat, in accordance with Part 1, Paragraph D., "DESCRIPTION," of Sogerma-Service Bulletin TAAI1-25-617, dated February 1, 2005. If any actuator identified in

Table 2 of this AD is found installed, within 56 months after the effective date of this AD, do the applicable corrective actions in accordance with Paragraph D., "DESCRIPTION," of the service bulletin.

TABLE 2.—AFFECTED ACTUATORS

Manufacturer	Actuator P/N
(1) Messier-Bugatti	4136290004, S/Ns 5079 and below.
(2) Messier-Bugatti	4136290005, S/Ns 5079 and below.

Note 1: Sogerma-Service Information Letter SIL-TAAI1-25-059, dated February 8, 2005, and Airbus Operator Information Telex SE 999.0040/05/FB, dated May 27, 2005, are additional sources of service information for inspecting the seats.

Concurrent Replacements

(g) For Messier-Bugatti actuators identified in Table 2 of this AD: Concurrently with the applicable corrective action required by paragraph (f) of this AD, replace the rotors on both vertical and horizontal movements with new rotors, and replace the clutch cap with a new cap, in accordance with Messier-Bugatti Service Bulletin 4136290004-25-05 or 4136290005-25-02, both dated April 2005, as applicable.

No Report Required

(h) Although Sogerma-Service Bulletin TAAI1-25-617, dated February 1, 2005, specifies sending certain information to the manufacturer, this AD does not require that action.

Alternative Methods of Compliance (AMOCs)

(i)(1) The Manager, International Branch, ANM-116, Transport Airplane Directorate, FAA, has the authority to approve AMOCs for this AD, if requested in accordance with the procedures found in 14 CFR 39.19.

(2) Before using any AMOC approved in accordance with § 39.19 on any airplane to which the AMOC applies, notify the appropriate principal inspector in the FAA Flight Standards Certificate Holding District Office.

Related Information

(j) French airworthiness directive F-2005-164, issued September 28, 2005, also addresses the subject of this AD.

Material Incorporated by Reference

(k) You must use Messier-Bugatti Service Bulletin 4136290004-25-05, dated April 2005, or Messier-Bugatti Service Bulletin 4136290005-25-02, dated April 2005; and Sogerma-Service Bulletin TAAI1-25-617, dated February 1, 2005; as applicable; to perform the actions that are required by this AD, unless the AD specifies otherwise. The Director of the Federal Register approved the incorporation by reference of these documents in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Contact Sogerma-Service, Z.I. de l'Arsenal—BP 109—17303 Rochefort Cedex, France; and Messier-Bugatti, 45 Avenue Victor Hugo—

BILLING CODE 4910-13-P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 97

[Docket No. 30519 Amdt. No. 3190]

Standard Instrument Approach Procedures, Weather Takeoff Minimums; Miscellaneous Amendments

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment establishes, amends, suspends, or revokes Standard Instrument Approach Procedures (SIAPs) and/or Weather Takeoff Minimums for operations at certain airports. These regulatory actions are needed because of the adoption of new or revised criteria, or because of changes occurring in the National Airspace System, such as the commissioning of new navigational facilities, addition of new obstacles, or changes in air traffic requirements. These changes are designed to provide safe and efficient use of the navigable airspace and to promote safe flight operations under instrument flight rules at the affected airports.

DATES: This rule is effective October 30, 2006. The compliance date for each SIAP and/or Weather Takeoff Minimums is specified in the amendatory provisions.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of October 30, 2006.

ADDRESSES: Availability of matters incorporated by reference in the amendment is as follows:

For Examination—

1. FAA Rules Docket, FAA Headquarters Building, 800 Independence Avenue, SW., Washington, DC 20591;

2. The FAA Regional Office of the region in which the affected airport is located;

3. The National Flight Procedures Office, 6500 South MacArthur Blvd., Oklahoma City, OK 73169 or,

4. The National Archives and Records Administration (NARA). For information on the availability of this material at NARA, call 202-741-6030, or go to: http://www.archives.gov/federal_register/code_of_federal_regulations/ibr_locations.html.

*For Purchase—*Individual SIAP and Weather Takeoff Minimums copies may be obtained from:

1. FAA Public Inquiry Center (APA-200), FAA Headquarters Building, 800 Independence Avenue, SW., Washington, DC 20591; or

2. The FAA Regional Office of the region in which the affected airport is located.

*By Subscription—*Copies of all SIAPs and Weather Takeoff Minimums mailed once every 2 weeks, are for sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

FOR FURTHER INFORMATION CONTACT:

Donald P. Pate, Flight Procedure Standards Branch (AFS-420), Flight Technologies and Programs Division, Flight Standards Service, Federal Aviation Administration, Mike Monroney Aeronautical Center, 6500 South MacArthur Blvd., Oklahoma City, OK 73169 (Mail Address: P.O. Box 25082 Oklahoma City, OK 73125) telephone: (405) 954-4164.

SUPPLEMENTARY INFORMATION: This amendment to Title 14 of the Code of Federal Regulations, Part 97 (14 CFR part 97), establishes, amends, suspends, or revokes SIAPs and/or Weather Takeoff Minimums. The complete regulatory description of each SIAP and/or Weather Takeoff Minimums is contained in official FAA form documents which are incorporated by reference in this amendment under 5 U.S.C. 552(a), 1 CFR part 51, and 14 CFR part 97.20. The applicable FAA Forms are identified as FAA Forms 8260-3, 8260-4, 8260-5 and 8260-15A. Materials incorporated by reference are available for examination or purchase as stated above.

The large number of SIAPs and/or Weather Takeoff Minimums, their complex nature, and the need for a special format make their verbatim

publication in the **Federal Register** expensive and impractical. Further, airmen do not use the regulatory text of the SIAPs and/or Weather Takeoff Minimums but refer to their depiction on charts printed by publishers of aeronautical materials. Thus, the advantages of incorporation by reference are realized and publication of the complete description of each SIAP and/or Weather Takeoff Minimums contained in FAA form documents is unnecessary. The provisions of this amendment state the affected CFR sections, with the types and effective dates of the SIAPs and/or Weather Takeoff Minimums. This amendment also identifies the airport, its location, the procedure identification and the amendment number.

The Rule

This amendment to 14 CFR part 97 is effective upon publication of each separate SIAP and/or Weather Takeoff Minimums as contained in the transmittal. Some SIAP and/or Weather Takeoff Minimums amendments may have been previously issued by the FAA in a Flight Data Center (FDC) Notice to Airmen (NOTAM) as an emergency action of immediate flight safety relating directly to published aeronautical charts. The circumstances which created the need for some SIAP, and/or Weather Takeoff Minimums amendments may require making them effective in less than 30 days. For the remaining SIAPs and/or Weather Takeoff Minimums, an effective date at least 30 days after publication is provided.

Further, the SIAPs and/or Weather Takeoff Minimums contained in this amendment are based on the criteria contained in the U.S. Standard for Terminal Instrument Procedures (TERPS). In developing these SIAPs and/or Weather Takeoff Minimums, the TERPS criteria were applied to the conditions existing or anticipated at the affected airports. Because of the close and immediate relationship between these SIAPs and/or Weather Takeoff Minimums and safety in air commerce, I find that notice and public procedure before adopting these SIAPs and/or Weather Takeoff Minimums are impracticable and contrary to the public interest and, where applicable, that good cause exists for making some SIAPs and/or Weather Takeoff Minimums effective in less than 30 days.

Conclusion

The FAA has determined that this regulation only involves an established body of technical regulations for which

frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. For the same reason, the FAA certifies that this amendment will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 97

Air traffic control, Airports, Incorporation by reference, and Navigation (air).

Issued in Washington, DC, on October 20, 2006.

James J. Ballough,

Director, Flight Standards Service.

Adoption of the Amendment

■ Accordingly, pursuant to the authority delegated to me, under Title 14, Code of Federal Regulations, Part 97 (14 CFR part 97) is amended by establishing, amending, suspending, or revoking Standard Instrument Approach Procedures and Weather Takeoff Minimums effective at 0901 UTC on the dates specified, as follows:

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

■ 1. The authority citation for part 97 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40106, 40113, 40114, 40120, 44502, 44514, 44701, 44719, 44721–44722.

■ 2. Part 97 is amended to read as follows:

Docket No. 060602144-6270-02
RIN 0625-AA71

Procedures for Importation of Supplies for Use in Emergency Relief Work

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Final rule.

SUMMARY: The Department of Commerce (“the Department”) hereby establishes procedures for importation of supplies for use in emergency relief work free of antidumping and countervailing duties, as authorized under section 318(a) of

the Tariff Act of 1930, as amended (“the Act”) (19 U.S.C. 1318(a)). Such supplies would be for use in emergency relief work related to an emergency declared by the President.

DATES: This rule is effective November 29, 2006.

FOR FURTHER INFORMATION CONTACT: Stacy J. Ettinger, Office of the Chief Counsel for Import Administration, room 3622, U.S. Department of Commerce, 1401 Constitution Avenue, NW., Washington, DC, 20230; telephone: 202-482-4618.

SUPPLEMENTARY INFORMATION:

Background

Section 318(a) of the Act (19 U.S.C. 1318(a)) gives the Secretary of the Treasury authority, on a temporary basis, to respond immediately where the President declares the existence of an emergency. Specifically, the Secretary may “permit ... the importation free of duty of ... supplies for use in emergency relief work.” This authority, insofar as it encompasses antidumping and countervailing duties, was delegated to the Secretary of Commerce in 1979, pursuant to Reorg. Plan No. 3 of 1979.¹ Consistent with the Reorg. Plan, we have promulgated this rule in consultation with the Department of Treasury and the Department of Homeland Security. The rule establishes procedures for importation of supplies for use in emergency relief work free of antidumping and countervailing duties, as authorized under section 318(a) of the Act.

Discussion of Comments

On June 22, 2006, the Department published a proposed rule and request for public comment concerning procedures for importation of supplies for use in emergency relief work free of antidumping and countervailing duties, as authorized under section 318(a) of the Act (71 FR 35846, June 22, 2006). In finalizing these procedures, the Department carefully considered each of the comments it received. The following is an explanation of the provisions of the rule, as well as a summary of the comments received and the Department’s responses to those comments.

¹ All functions of the Secretary of Treasury under this provision, with respect to the antidumping and countervailing duty functions, were transferred to Commerce pursuant to Reorg. Plan No. 3 of 1979, to be exercised in consultation with the Secretary of the Treasury. Reorg. Plan No. 3 is set out as notes under 19 U.S.C.A. 2171. Authority under section 318 of the Act was transferred to Commerce under section 5(a)(1)(E) of the Reorg. Plan.

Section 358.101

Section 358.101 sets forth the scope of Part 358, procedures for importation of supplies for use in emergency relief work free of antidumping and countervailing duties, as authorized under section 318(a) of the Act.

Several commenters expressed support for the establishment of procedures for importation of supplies for use in emergency relief work free of antidumping and countervailing duties. The commenters argued that the temporary suspension of antidumping and countervailing duties during an emergency could provide needed relief after natural disasters and would have a positive impact on emergency relief and reconstruction efforts by reducing costs and ensuring availability of building and other emergency relief supplies. Other commenters argued that there is no need for such a rule or that there have been no circumstances where antidumping or countervailing duties have been shown to affect or delay the importation of emergency supplies. One commenter argued that the rule would exacerbate the previously demonstrated injury to the domestic industry by permitting an additional influx of unfairly traded goods.

The Department is committed to strong enforcement of U.S. trade laws and will do everything within the parameters prescribed by Congress to ensure that domestic industries obtain effective relief from dumped and subsidized imports. Congress also, however, has authorized the Secretary to permit the importation of supplies for use in relief work free of antidumping and countervailing duties during a declared emergency. This rule establishes the procedures for importation of such supplies as authorized by Congress and is intended to facilitate access to needed resources in the event of a natural disaster or other emergency. Any waiver of antidumping and countervailing duties would be both temporary and limited to supplies for use in emergency relief work related to the emergency declared by the President. The Department does not believe that such temporary limited waivers will exacerbate injury to the domestic industry. Nevertheless, we recognize that we have no experience with the new waiver mechanism and that it is possible that the application of the waiver mechanism could have unintended consequences with regard to the protection afforded to U.S. industries found to be injured by dumped and/or subsidized imports. Therefore, we have added section 358.104, which provides that the
