

EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: Owners or operators of steam generating units subject to Subpart D must make one-time-only notifications of construction/reconstruction, anticipated and actual startup, initial performance test, physical or operational changes, and demonstration of a continuous monitoring system. They must also submit reports on initial performance test results, monitoring system performance, and excess emissions. Records must be maintained of startups, shutdowns, malfunctions, and periods when the continuous monitoring system is inoperative.

The required notifications are used to inform the Agency or delegated authority when a source becomes subject to the standard. Performance test reports are needed as these are the Agency's record of a source's initial capability to comply with the emission standard, and serve as a record of the operating conditions under which compliance was achieved. The monitoring and excess emissions reports (which are semiannual) are used for problem identification, as a check on source operation and maintenance, and for compliance determinations. The information collected from recordkeeping and reporting requirements are used for targeting inspections, and for other uses in compliance and enforcement programs.

Responses to this information collection are deemed to be mandatory, per section 114(a) of the Clean Air Act. The required information consists of emissions data and other information that have been determined not to be private. However, any information submitted to the Agency for which a claim of confidentiality is made will be safeguarded according to the Agency policies set forth in Title 40, chapter 1, part 2, subpart B—Confidentiality of Business Information (CBI) (see 40 CFR part 2; 41 FR 36902, September 1, 1976; amended by 43 FR 40000, September 8, 1978; 43 FR 42251, September 20, 1978; 44 FR 17674, March 23, 1979).

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 46.6 hours per response. Burden means the total time,

effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners or operators of fossil-fuel-fired steam generating units.

Estimated Number of Respondents: 660.

Frequency of Response: Semiannual.
Estimated Total Annual Hour Burden: 61,545 hours.

Estimated Total Annual Cost: \$13,415,450, which includes \$0 annualized capital start up costs, \$9,900,000 Operations & Maintenance (O & M) annual costs, and \$3,515,450 annual labor costs.

Changes in Estimates: There is no change of hours in the total estimated burden currently identified in the OMB inventory of Approved ICR Burdens.

Dated: October 25, 2006.

Oscar Morales,

Director, Collection Strategies Division.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OECA-2006-0427; FRL-8238-2]

Agency Information Collection Activities; Submission to OMB for Review and Approval; Comment Request; NSPS for Nonmetallic Mineral Processing (Renewal), EPA ICR Number 1084.08, OMB Control Number 2060-0050

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that an Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval. This is a request to renew an existing approved

collection. The ICR which is abstracted below describes the nature of the collection and the estimated burden and cost.

DATES: Additional comments may be submitted on or before December 4, 2006.

ADDRESSES: Submit your comments, referencing docket ID number EPA-OECA-2006-0427, to (1) EPA online using www.regulations.gov (our preferred method), or by e-mail to docket.oeca@epa.gov, or by mail to: EPA Docket Center (EPA/DC), Environmental Protection Agency, Enforcement and Compliance Docket and Information Center, mail code 2201T, 1200 Pennsylvania Avenue, NW., Washington, DC 20460, and (2) OMB at: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

Note: The EPA Docket Center suffered damage due to flooding during the last week of June 2006. The Docket Center is continuing to operate. However, during the cleanup, there will be temporary changes to Docket Center telephone numbers, addresses, and hours of operation by people who wish to visit the Public Reading Room to view documents. Consult EPA's **Federal Register** notice at 71FR 38147 (July 15, 2006) or the EPA Web site at <http://www.epa.gov/epahome/dockets.htm> for current information on docket status; locations and telephone numbers.

FOR FURTHER INFORMATION CONTACT:

Gregory Fried, Office of Compliance, Assessment and Medium Programs Division (CAMPD), Mail Code 2223A, Environmental Protection Agency, 1200 Pennsylvania Avenue, NW., Washington, DC 20460; *telephone number:* (202) 564-7016; *fax number:* (202) 564-0050; *e-mail address:* fried.gregory@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On June 21, 2006, (71 FR 35652), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments. Any additional comments on this ICR should be submitted to EPA and OMB within 30 days of this notice.

EPA has established a public docket for this ICR under docket ID number EPA-HQ-OECA-2006-0427, which is available for public viewing online at <http://www.regulations.gov>, or, in person viewing at the Enforcement and Compliance Docket in the EPA Docket Center (EPA/DC), EPA West, Room B102, 1301 Constitution Avenue, NW., Washington, DC. The EPA Docket

Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Enforcement and Compliance Docket is (202) 566-1927.

Use EPA's electronic docket and comment system at <http://www.regulations.gov>, to submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the docket that are available electronically. Once in the system, select "docket search," then key in the docket ID number identified above. Please note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing at <http://www.regulations.gov>, as EPA receives them and without change, unless the comment contains copyrighted material, Confidential Business Information (CBI), or other information whose public disclosure is restricted by statute. For further information about the electronic docket, go to <http://www.regulations.gov>.

Title: NSPS for Nonmetallic Mineral Processing (Renewal).

ICR Numbers: EPA ICR Number 1084.08, OMB Control Number 2060-0050.

ICR Status: This ICR is scheduled to expire on November 30, 2006. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The Administrator has judged that PM emissions from nonmetallic mineral processing plants cause or contribute to air pollution that may reasonably be anticipated to endanger public health or welfare. This standard applies to owners or operators of new, modified, or reconstructed facilities at nonmetallic mineral processing plants that commenced construction, modification, or reconstruction after August 1, 1985.

Nonmetallic mineral processing includes the following affected facilities: each crusher, grinding mill, screening operation, bucket elevator, belt conveyor, bagging operation, storage bin, and enclosed truck or railcar loading station. This standard does not apply to facilities located in underground mines; stand-alone screening operations; operations that only involve recycled asphalt; fixed sand gravel, or crushed stone plants with capacities of 25 tons per hour or less; portable sand, gravel, or crushed stone plants with capacities of 150 tons per hour or less; common clay or pumice plants with capacities of 10 tons per hour or less. Additionally, when an existing facility is replaced by a piece of equipment of equal or smaller size it is not subject to the standard until all facilities in a production line are replaced. Affected facilities in the plant process that are subject to 40 CFR part 60, subpart F, for Portland Cement NSPS, or subpart I, Asphalt Concrete Plants NSPS, are not subject to this NSPS.

Respondents must submit the following one-time-only reports: notification of the date of construction or reconstruction, notification of the actual date of initial startup, notification of any physical or operational change to an existing facility which may increase the regulated pollutant emission rate, notification of demonstration of the continuous emission monitor system (CMS) where the CMS is required (wet scrubber), notification of the date of the initial performance test, and the results of the initial performance test. Wet mining/screening operations are exempt from all requirements of the regulation, except an initial report and record describing the location of these operations. The general provision requirement to submit a notification of the anticipated date of initial startup is being waived for respondents subject to this standard. The required notifications are used to inform the Agency or delegated authority when a source becomes subject to the standard.

Respondents are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Owners or operators of facilities using a wet scrubber must record the measurements of both the change in pressure of the gas stream across the scrubber and the scrubbing liquid flow rate and submit semiannual reports for occurrences when the measurements of the scrubber pressure loss (or gain) and liquid flow rate differ

by more than ± 30 percent from the averaged determined during the most recent performance test. All records shall be retained for at least two years. The information collected from recordkeeping and reporting requirements are necessary to ensure compliance with these standards, as required by section 114(a) of the Clean Air Act.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 5.6 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Nonmetallic mineral processing plants.

Estimated Number of Respondents: 3,825.

Frequency of Response: Initial.

Estimated Total Annual Hour Burden: 31,026.

Estimated Total Annual Cost: \$1,772,177 which includes \$0 annualized capital startup costs, \$0 annualized O&M costs, and \$1,772,177 annualized labor costs.

Changes in the Estimates: There is no change in the estimates from the previous ICR.

Dated: October 26, 2006.

Oscar Morales,

Director, Collection Strategies Division.
