**SUPPLEMENTARY INFORMATION:** *Title:* Untreated Oranges, Tangerines, and Grapefruit from Mexico Transiting the United States to Foreign Countries.

*OMB Number:* 0579-0303.

*Type of Request:* Extension of approval of an information collection.

*Abstract:* As authorized by the Plant Protection Act (7 U.S.C. 7701 *et seq.*) (PPA), the Secretary of Agriculture may prohibit or restrict the importation, entry, exportation, or movement in interstate commerce of any plant, plant product, biological control organism, noxious weed, means of conveyance, or other article if the Secretary determines that the prohibition or restriction is necessary to prevent a plant pest or noxious weed from being introduced

into or disseminated within the United States. This authority has been delegated to the Animal and Plant Health Inspection Service (APHIS), which administers regulations to implement the PPA.

The plant quarantine safeguard regulations in 7 CFR part 352 allow certain products or articles that are classified as prohibited or restricted products or articles under other regulations in title 7 to be moved through the United States under certain conditions. Such articles include fruits and vegetables that are moved into the United States for: (1) A temporary stay where unloading or landing is not intended, (2) unloading or landing for transshipment and exportation, (3) unloading or landing for transportation and exportation, or (4) unloading and entry at a port other than the port of first arrival.

The regulations in § 352.30 address the movement of untreated oranges, tangerines, and grapefruit from Mexico into or through the United States in transit to foreign countries. These regulations require the trucking industry and shippers to obtain permits from APHIS that allow the untreated fruit to transit the United States.

We are asking the Office of Management and Budget (OMB) to approve our use of this information collection activity for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; *e.g.*, permitting electronic submission of responses.

*Estimate of burden:* The public reporting burden for this collection of information is estimated to average 0.5 hours per response.

*Respondents:* Trucking industry; shippers.

*Estimated annual number of respondents:* 400.

*Estimated annual number of responses per respondent:* 1.

*Estimated annual number of responses:* 400.

*Estimated total annual burden on respondents:* 200 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 1st day of November 2006.

#### Waivers of Requirement for Timely Presentation of Certificates of Quota Eligibility for Sugar Imported From Mexico in Fiscal Year (FY) 2006

**AGENCY:** Foreign Agricultural Service, USDA.

**ACTION:** Notice.

The Department of Agriculture will consider requests for a waiver of the requirement for presentation, at the time of entry into U.S. Customs territory, of certificates for quota eligibility for sugar imported under tariff-rate quotas allocated to Mexico during FY 2006 (October 1, 2005–September 30, 2006).

#### Background

There were numerous disruptions to the U.S. sugar market in FY 2006, leading to spot shortages and increased U.S. import requirements. Importers of sugar under tariff-rate quotas allocated to Mexico experienced delays in receiving certificates for quota eligibility, due in part to processing delays in both the United States and in Mexico. There were also numerous cases of delays at ports of entry into the United States for sugar under tariff-rate quotas even when the certificate for quota eligibility was available, and importers sometimes avoided delays by entering sugar under a high-duty tariff line which did not require a certificate for quota eligibility. Under 15 CFR 2011.104, the Secretary has authority to grant a waiver, with respect to individual shipments, various requirements regarding use of certificates for quota eligibility, if he

determines that a waiver will not impair the proper operation of the sugar quota system, that it will not have the effect of modifying the allocation of sugar under Additional U.S. Note 5 to Chapter 17 of the Harmonized Tariff Schedule, and that such waiver is justified by unusual, unavoidable, or otherwise appropriate circumstances.

Therefore, the Department will consider requests for a waiver of the requirement for presentation of certificates of quota eligibility for sugar imported from Mexico during FY 2006. This notice does not apply to requests for a waiver of a deadline to enter sugar within a tariff-rate quota period, and applies only to sugar imported from Mexico during FY 2006. To receive full consideration, written requests for a waiver of the requirement for presentation of a sugar certificate for quota eligibility along with the original entry of sugar from Mexico must be received by December 1, 2006. If Mexico's FY 2006 sugar tariff-rate quota fills, no more waivers will be considered. Individual entries affected by this notice will be processed in the order they are received.
