

notice to the incumbent provider that it will purchase, or that it will allow an alternative provider to purchase, the cable home wiring when a terminating individual subscriber declines. If the alternative provider is permitted to purchase the wiring, it will be required to make a similar election during the initial 30-day notice period for each subscriber who switches back from the alternative provider to the incumbent MVPD.

While the American Housing Survey estimates that there were some 7,600,000 MDUs with 24,600,000 resident occupants in the United States in 2000, we estimate that there will be only 12,500 notices and 12,500 elections being made on an annual basis. In many buildings, the MDU owner will be unable to initiate the notice and election processes because the incumbent MVPD service provider continues to have a legally enforceable right to remain on the premises. In other buildings, the MDU owner may simply have no interest in acquiring a new MVPD service provider.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-1084.

Title: Rules and Regulations Implementing Minimum Customer Account Record Exchange Obligations on All Local and Interexchange Carriers (CARE).

Form Number: N/A.

Type of Review: Revision to a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents: 1,778.

Estimated Time per Response: 0.75 to 6.70 hours.

Frequency of Response:

Recordkeeping; Annual reporting requirements.

Total Annual Burden: 44,576 hours.

Total Annual Cost: None.

Privacy Impact Assessment: No impact(s).

Needs and Uses: In addition to the existing information collection requirements that were previously approved by OMB, in the *Order on Reconsideration*, In the Matter of Rules and Regulations Implementing Minimum Customer Account Record Exchange Obligations on All Local and Interexchange Carriers (2005 Report and Order), CG Docket No. 02-386, FCC 06-134, which was released on September 13, 2006, the Commission concluded that minor modifications to 47 CFR 64.4002 are needed to clarify carriers' respective obligations under that rule section.

Paragraph 64.4002(d) is modified to require that a LEC notify an IXC when the LEC has removed at its local switch a presubscribed customer of the IXC in connection with the customer's selection of "no-PIC" status. In this context, the selection of "no-PIC" status by the customer refers to the selection of no carrier for interLATA service or no carrier for intraLATA service. The Commission concludes that this modification is needed to ensure that an IXC does not continue billing a customer for non-usage-related monthly
