

**SUPPLEMENTARY INFORMATION:** In response to the Central Valley Project Improvement Act of 1992 and a 1995 Department of the Interior administrative review process, the Interagency Coordinated Program for Wetland and Water Use Planning (ICP) was formed. The ICP was comprised of representatives from the Bureau of Reclamation, the U.S. Fish and Wildlife Service, the California Department of Fish and Game, and the Grassland Water District/Grassland Resource Conservation District. The ICP developed the 1998 Task Force Report, which outlines past, present, and future wetland planning and management issues and a methodology for Refuge Criteria. To continue the work of the now disbanded ICP, an Interagency Refuge Water Management Team (IRWMT) was formed to continue working on wetland issues such as water delivery, including additional work on wetland Refuge Criteria. The IRWMT is comprised of representatives from the Bureau of Reclamation, the U.S. Fish and Wildlife Service, the California Department of Fish and Game, and the Grassland Water District/Grassland Resource Conservation District. The IRWMT used the 1998 Task Force Report and Reclamation's 1999 Conservation and Efficiency Criteria as the foundation for developing the water management planning requirements or criteria included in these Refuge Criteria. The Refuge Criteria also incorporated comments, ideas, and suggestions from Refuge/District managers, biologists, water conservation specialists, engineers, the CALFED Bay-Delta Program, and other Central Valley stakeholders.

Our practice is to make comments, including names and home addresses of respondents, available for public review. Individual respondents may request that we withhold their home address from public disclosure, which we will honor to the extent allowable by law. There also may be circumstances in which we would withhold a respondent's identity from public disclosure, as allowable by law. If you wish us to withhold your name and/or address, you must state this prominently at the beginning of your comment. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public disclosure in their entirety. Public comments for the Refuge Criteria are now being accepted.

Dated: October 31, 2006.
