**SUPPLEMENTARY INFORMATION:** The OCC is proposing to extend, without revision, the approval of the following information collection:

*Title:* Notice Regarding Unauthorized Access to Customer Information.

*OMB Number:* 1557-0227.

*Description:* Section 501(b) of the Gramm-Leach-Bliley Act (15 U.S.C. 6901) requires the OCC to establish standards for national banks relating to administrative, technical, and physical safeguards to: (1) Insure the security and confidentiality of customer records and information; (2) protect against any anticipated threats or hazards to the security or integrity of such records; and (3) protect against unauthorized access to or use of such records or information that could result in substantial harm or inconvenience to any customer.

The Interagency Guidelines Establishing Information Security Standards, 12 CFR part 30, Appendix B (Security Guidelines) implementing section 501(b) require each bank to consider and adopt a response program, if appropriate, that specifies actions to be taken when the bank suspects or detects that unauthorized individuals have gained access to customer information.

The Interagency Guidance on Response Programs for Unauthorized Customer Information and Customer Notice (Breach Notice Guidance), which

interprets the Security Guidelines states that, at a minimum, a bank's response program should contain procedures for the following:

(1) Assessing the nature and scope of an incident, and identifying what customer information systems and types of customer information have been accessed or misused;

(2) Notifying its primary Federal regulator as soon as possible when the bank becomes aware of an incident involving unauthorized access to or use of sensitive customer information;

(3) Consistent with the OCC's Suspicious Activity Report regulations, notifying appropriate law enforcement authorities, in addition to filing a timely SAR in situations involving Federal criminal violations requiring immediate attention, such as when a reportable violation is ongoing;

(4) Taking appropriate steps to contain and control the incident to prevent further unauthorized access to or use of customer information, for example, by monitoring, freezing, or closing affected accounts, while preserving records and other evidence; and

(5) Notifying customers when warranted.

This collection of information covers the notice provisions in the Breach Notice Guidance.

*Type of Review:* Extension of a currently approved collection.

*Affected Public:* Individuals; Businesses or other for-profit.

*Estimated Number of Respondents:* 2,200.

*Estimated Total Annual Responses:* 2,244.

*Frequency of Response:* On occasion.

*Estimated Total Annual Burden:* 53,844 hours.

Comments submitted in response to this notice will be summarized and included in the request for OMB approval. All comments will become a matter of public record. Comments are invited on:

(c) Ways to enhance the quality, utility, and clarity of the information to be collected;

(d) Ways to minimize the burden of the collection on respondents, including through the use of automated collection techniques or other forms of information technology;

(e) Estimates of capital or startup costs and costs of operation, maintenance,

and purchase of services to provide information; and

(f) Whether the estimates need to be adjusted based upon banks' experience regarding the number of actual security breaches that occur.
