Application Comments

Interested parties may submit comments regarding the specific use proposed in the City of Washington's application, whether the BLM followed proper administrative procedures in processing the application and in reaching the proposed decision, or any other factor not directly related to the suitability of the land for City wareyard purposes.

All submissions from organizations or businesses will be made available for public inspection in their entirety. Individuals may request confidentiality with respect to their name, address, and phone number. If you wish to have your name or street address withheld from public review, or from disclosure under the Freedom of Information Act, the first line of the comment should start with the words "CONFIDENTIALITY REQUEST" in uppercase letters in order for BLM to comply with your request. Such requests will be honored to the extent allowed by law. Comment contents will not be kept confidential.

Any adverse comments will be reviewed by the State Director. In the absence of any adverse comments, the decision to lease or convey will become the final decision of the Department of the Interior. In the absence of any adverse comments, the classification will become effective on January 19, 2007. The land will not be offered for lease/conveyance until after the classification becomes effective. (Authority: 43 CFR 2741.5)

Dated: July 18, 2006.

Kim Leany,

Acting Field Office Manager.

SUPPLEMENTARY INFORMATION:

Title: 30 CFR 254, "Oil-Spill Response Requirements for Facilities Located Seaward of the Coast Line."

OMB Control Number: 1010-0091.

Abstract: The Federal Water Pollution Control Act (FWPCA), as amended by the Oil Pollution Act of 1990 (OPA), requires that a spill-response plan be submitted for offshore facilities prior to February 18, 1993. The OPA specifies that after that date, an offshore facility may not handle, store, or transport oil unless a plan has been submitted. This authority and responsibility are among those delegated to the Minerals Management Service (MMS) by Executive Order 12777. Regulations at 30 CFR part 254 establish requirements for spill-response plans for oil-handling facilities seaward of the coast line, including associated pipelines.

The MMS uses the information collected under 30 CFR 254 to determine compliance with OPA by owners/operators. Specifically, MMS needs the information to:

- Determine effectiveness of the spill-response capability of owners/operators.
- Review plans prepared under the regulations of a State and submitted to MMS to satisfy the requirements to ensure that they meet minimum requirements of OPA.
- Verify that personnel involved in oil-spill response are properly trained and familiar with the requirements of the spill-response plans and to witness spill-response exercises.
- Assess the sufficiency and availability of contractor equipment and materials.
- Verify that sufficient quantities of equipment are available and in working order.

- Oversee spill-response efforts and maintain official records of pollution events.
 - Assess the efforts of owners/operators to prevent oil spills or prevent substantial threats of such discharges. No proprietary, confidential, or sensitive information is collected. However, we will protect any information from respondents considered proprietary under the Freedom of Information Act (5 U.S.C. 552) and its implementing regulations (43 CFR part 2) and under regulations at 30 CFR parts 250, 251, and 252. Responses are mandatory.
- Frequency:* On occasion, monthly, annually, biennially, and triennially.

Estimated Number and Description of Respondents: Approximately 197 owners or operators of facilities located in both State and Federal waters seaward of the coast line.

Estimated Reporting and Recordkeeping "Hour" Burden: The estimated annual "hour" burden for this information collection is a total of 35,070 hours. In calculating the burdens, we assumed that respondents perform certain requirements in the normal course of their activities. We consider these to be usual and customary and took that into account in estimating the burden.

Total Hour Burden	1,557	35,070

Estimated Reporting and Recordkeeping "Non-Hour Cost" Burden: We have identified no paperwork "non-hour cost" burdens associated with the collection of information.

Public Disclosure Statement: The PRA (44 U.S.C. 3501, *et seq.*) provides that an agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. Until OMB approves a collection of information, you are not obligated to respond.

Comments: Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3501, *et seq.*) requires each agency " * * * to provide notice * * * and otherwise consult with members of the public and affected agencies concerning each proposed collection of information * * * ". Agencies must specifically solicit comments to: (a) Evaluate whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

To comply with the public consultation process, on April 10, 2006, we published a **Federal Register** notice (71 FR 18113) announcing that we would submit this ICR to OMB for approval. The notice provided the required 60-day comment period. In addition, 30 CFR 254.9 displays the OMB control number, specifies that the public may comment at anytime on the collection of information required in the 30 CFR 254 regulations, and provides the address to which they should send comments. We have received no comments in response to those efforts.

If you wish to comment in response to this notice, you may send your comments to the offices listed under the **ADDRESSES** section of this notice. OMB has up to 60 days to approve or disapprove the information collection but may respond after 30 days. Therefore, to ensure maximum consideration, OMB should receive public comments by December 20, 2006.

Public Comment Procedures: MMS's practice is to make comments, including names and addresses of respondents, available for public review. If you wish your name and/or address to be withheld, you must state this prominently at the beginning of your comment. MMS will honor the request

to the extent allowable by the law; however, anonymous comments will not be considered. There may be circumstances in which we would withhold from the record a respondent's identity, as allowable by the law. If you wish us to withhold your name and/or address, you must state this prominently at the beginning of your comment. In addition, you must present a rationale for withholding this information. This rationale must demonstrate that disclosure "would constitute an unwarranted invasion of privacy." Unsupported assertions will not meet this burden. In the absence of exceptional, documentable circumstances, this information will be released. All submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be made available for public inspection in their entirety.

SUPPLEMENTARY INFORMATION:

Title: 30 CFR part 203, "Relief or Reduction in Royalty Rates."

OMB Control Number: 1010-0071.

Abstract: The Outer Continental Shelf (OCS) Lands Act, as amended by Public Law 104-58, Deep Water Royalty Relief Act (DWRRA), gives the Secretary of the Interior (Secretary) the authority to reduce or eliminate royalty or any net profit share specified in OCS oil and gas leases to promote increased production. The DWRRA also authorized the Secretary to suspend royalties when necessary to promote development or recovery of marginal resources on producing or non-producing leases in the Gulf of Mexico (GOM) west of 87 degrees, 30 minutes West longitude.

Section 302 of the DWRRA provides that new production from a lease in existence on November 28, 1995, in a water depth of at least 200 meters, and in the GOM west of 87 degrees, 30 minutes West longitude qualifies for royalty suspension in certain situations. To grant a royalty suspension, the Secretary must determine that the new production or development would not be economic in the absence of royalty relief. The Secretary must then determine the volume of production on
