PRC-Wide Rate*	198.08

* In the *Final Determination*, the Department inadvertently listed Tech Lane Wood Mfg. and Kee Jia Wood Mfg. separately in the weighted-average dumping margin chart, which may have led parties to conclude that these companies were entitled to a separate rate. This, in fact, is not the case. Subject merchandise produced/exported by Tech Lane Wood Mfg. and Kee Jia Wood Mfg. is subject to the PRC-wide rate.

Within five business days of publication of this notice, the Department will issue instructions to U.S. Customs and Border Protection ("CBP") to revise the cash deposit rates for the companies listed above that have a separate rate, effective as of the publication of this notice. Further, we will instruct CBP to liquidate all entries of subject merchandise produced and exported by Lacquer Craft, without regard to antidumping duties, because Lacquer Craft is excluded from the antidumping duty order.

This notice is published in accordance with sections 735(d) and 777(i) of the Tariff Act of 1930, as amended.

Dated: November 14, 2006.

Stephen J. Claeys,

Acting Assistant Secretary for Import Administration.

Correction to Notice of Amended Final Determination Pursuant to Final Court Decision and Partial Revocation of Order on Certain Cut-To-Length Plate from Italy

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On August 29, 2005, the Department of Commerce published in the *Federal Register* its *Notice of Amended Final Determination Pursuant to Final Court Decision and Partial Revocation of Order on Certain Cut-To-Length Plate from Italy*, 70 FR 51013 (*Amended Final Determination*). Due to an error in the *Amended Final Determination* pertaining to the effective date of the amended final

determination, the Department is issuing a correction.

EFFECTIVE DATE: November 20, 2006.

FOR FURTHER INFORMATION CONTACT: Eric B. Greynolds, AD/CVD Operations, Office 3, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Ave., NW, Washington, DC 20230; telephone: (202) 482-6071.

SUPPLEMENTARY INFORMATION:

Correction

In the *Amended Final Determination*, we incorrectly stated that we would instruct U.S. Customs and Border Protection (CBP) to:

- ... collect cash deposits of estimated countervailing duties in the percentage of 2.45 percent ad valorem of the f.o.b. invoice price on all shipments of subject merchandise from ILVA/ILT entered or withdrawn from

warehouse, for consumption, on or after April 16, 2004.

See 70 FR at 51014.

We correct and amend our *Amended Final Determination* with the following language:

We will instruct CBP to collect cash deposits of estimated countervailing duties in the percentage of 2.45 percent *ad valorem* of the f.o.b. invoice price on all shipments of subject merchandise from ILVA/ILT entered or withdrawn from warehouse, for consumption, on or after the publication date of this notice in the **Federal Register**.

This notice is published pursuant to sections 705(d) and 777(i) of the Act.

Dated: November 9, 2006.

David M. Spooner,

Assistant Secretary for Import Administration.

National Oceanic and Atmospheric Administration

[I.D. 111406F]

Fisheries of the Exclusive Economic Zone Off Alaska; Application for an Exempted Fishing Permit

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; receipt of an application for an exempted fishing permit.

SUMMARY: This notice announces receipt of an application for an exempted fishing permit (EFP) from the American Fisheries Act (AFA) Catcher Vessel Intercooperative, and the Pollock Conservation Cooperative. If granted, the EFP would allow the applicants to use a salmon bycatch reduction intra-cooperative agreement (ICA) in the 2007 Bering Sea pollock fishery, and be exempt from closures of the salmon savings areas. This project is intended to promote the objectives of the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area (FMP) and National Standard 9 of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act).

ADDRESSES: Copies of the EFP application and the environmental assessment (EA) are available by writing to the Alaska Region, NMFS, P.O. Box 21668, Juneau, AK 99802, Attn: Ellen Walsh. The application and EA are also

available from the Alaska Region, NMFS website at <http://www.fakr.noaa.gov>.

FOR FURTHER INFORMATION CONTACT:

Jason Anderson, 907-586-7228 or jason.anderson@noaa.gov.

SUPPLEMENTARY INFORMATION: NMFS manages the domestic groundfish fisheries in the Bering Sea and Aleutian Islands (BSAI) under the FMP. The North Pacific Fishery Management Council (Council) prepared the FMP under the Magnuson-Stevens Act. Regulations governing the groundfish fisheries of the BSAI appear at 50 CFR parts 600 and 679. The FMP and the implementing regulations at §§ 679.6 and 600.745(b) authorize issuance of EFPs to allow fishing that would be otherwise prohibited. Procedures for issuing EFPs are contained in the implementing regulations.

NMFS received an EFP application from the AFA Catcher Vessel Intercooperative and the Pollock Conservation Cooperative (hereafter referred to as "applicants") on October 19, 2006. The primary objective of the proposed EFP is to test the feasibility of an ICA designed to avoid salmon bycatch in the Bering Sea pollock fishery. The applicants developed the feasibility study in cooperation with NMFS scientists at the Alaska Fisheries Science Center (AFSC). The project will provide information needed by the Council and NMFS to inform decision making on subsequent salmon bycatch reduction management actions. Specifically, the project will assess the feasibility of using an ICA to share salmon bycatch information among pollock fishery participants, determine areas of high salmon bycatch, and monitor vessels' ability to meet the operational guidelines of the ICA to avoid these areas in a manner that is not allowed under current regulations.

Background

Pacific salmon are caught incidentally in the BSAI trawl fisheries. Of the five species of Pacific salmon, Chinook salmon (*Oncorhynchus tshawytscha*) and chum salmon (*O. keta*) are most often incidentally caught in the pollock fishery. Pacific salmon are placed into two categories for purposes of salmon bycatch management: Chinook and non-Chinook. The non-Chinook category is comprised of chum, sockeye (*O. nerka*), pink (*O. gorbuscha*), and coho (*O. kisutch*) salmon. However, from 2001 through 2006, chum salmon represented about 99 percent of non-Chinook salmon harvested incidentally in the pollock trawl fisheries. For purposes of this notice, all non-Chinook salmon are referred to as chum salmon.

To address Chinook salmon bycatch concerns, the Council adopted several management measures designed to reduce overall Chinook salmon bycatch in the BSAI trawl fisheries. In 1995, the Council adopted and NMFS approved Amendment 21b to the FMP. Based on historic information on salmon bycatch, Amendment 21b established a Chinook salmon savings area (60 FR 31215, November 29, 1995). Under Amendment 21b, the Chinook salmon savings area closed to trawl gear when the incidental catch of Chinook salmon in BSAI trawl fisheries reached 48,000 fish. Amendment 58 to the FMP revised the Chinook salmon savings area measures (65 FR 60587, October 12, 2000). Amendment 58 reduced the Chinook salmon bycatch limit from 48,000 fish to 29,000 fish, mandated year-round accounting of Chinook bycatch in the directed pollock fishery, revised the boundaries of the Chinook salmon savings area closure, and implemented new closure dates. The timing of the closure depends on when the limit is reached as follows:

(1) Before April 15, the area closes immediately through April 15. After April 15, the area re-opens, but closes again from September 1 through December 31.

(2) Between April 15 and September 1, the area would close from September 1 through the end of the year.

(3) After September 1, the area closes immediately through the end of the year.

The Chinook salmon savings area was further modified under Amendment 82 to the FMP (70 FR 9856, March 1, 2005). Amendment 82 established a separate Aleutian Islands subarea bycatch limit that when reached, would close the existing Chinook salmon savings area located in that subarea (Area 1). The Chinook salmon savings area in the Bering Sea subarea remained unchanged, but was designated as Area 2 of the Chinook salmon savings area (Figure 8 to 50 CFR part 679).

The Council also adopted a time-area closure designed to reduce overall chum salmon bycatch in the BSAI trawl fisheries. In 1995, Amendment 35 to the FMP established the chum salmon savings area (60 FR 34904, July 5, 1995). This area is closed to all trawling from August 1 through August 31 of each year. Additionally, if 42,000 non-Chinook salmon are caught in the Catcher Vessel Operational Area during the period August 15 through October 14, the area remains closed for the remainder of the calendar year.
