

Rules and Regulations

Federal Register

Vol. 71, No. 226

Friday, November 24, 2006

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 73

[Docket No. FAA-2006-26273; Airspace Docket No. 06-ASO-16]

RIN 2120-AA66

Change of Using Agency for Restricted Areas R-3008A, B, C, and D; Grand Bay Weapons Range, GA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action changes the name of the using agency for Restricted Areas R-3008A, B, C, and D, Grand Bay Weapons Range, GA, from "U.S. Air Force, 347th Rescue Wing, Moody AFB, GA" to "U.S. Air Force, 23rd Wing, Moody AFB, GA." As a result of the Base Realignment and Closure process, the 347th Rescue Wing was officially redesignated the 23rd Wing effective October 1, 2006. This is an administrative change that does not alter the boundaries, designated altitudes, time of designation, or activities conducted within the affected restricted areas.

DATES: *Effective Dates:* 0901 UTC, January 18, 2007.

FOR FURTHER INFORMATION CONTACT: Paul Gallant, Airspace and Rules, Office of System Operations Airspace and AIM, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone: (202) 267-8783.

The Rule

This action amends Title 14 Code of Federal Aviation Regulations (14 CFR) part 73 by changing the name of the using agency for Restricted Areas R-3008A, B, C, and D, Grand Bay Weapons Range, GA, from "U.S. Air Force, 347th

Rescue Wing, Moody AFB, GA," to "U.S. Air Force, 23rd Wing, Moody AFB, GA." This change is necessary due to the official redesignation of the Wing's title by the Base Closure and Realignment process. This is an administrative change only and does not affect the boundaries, designated altitudes, or activities conducted within the restricted areas. Therefore, notice and public procedures under 5 U.S.C. 553(b) is unnecessary.

Section 73.30 of 14 CFR part 73 of the Federal Aviation Regulations was republished in FAA Order 7400.8M, dated January 6, 2006.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under Department of Transportation Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with 311d., FAA Order 1050.1E, "Environmental Impacts: Policies and Procedures." This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.

List of Subjects in 14 CFR Part 73

Airspace, Prohibited areas, Restricted areas.

Adoption of the Amendment

■ In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 73 as follows:

PART 73—SPECIAL USE AIRSPACE

■ 1. The authority citation for part 73 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959-1963 Comp., p. 389.

§ 73.30 [Amended]

■ 2. Section 73.30 is amended as follows:

* * * * *

R-3008A [Amended]

Under Using agency, by removing the words "U.S. Air Force, 347th Rescue Wing, Moody AFB, GA" and inserting the words "U.S. Air Force, 23rd Wing, Moody AFB, GA."

R-3008B [Amended]

Under Using agency, by removing the words "U.S. Air Force, 347th Rescue Wing, Moody AFB, GA" and inserting the words "U.S. Air Force, 23rd Wing, Moody AFB, GA."

R-3008C [Amended]

Under Using agency, by removing the words "U.S. Air Force, 347th Rescue Wing, Moody AFB, GA" and inserting the words "U.S. Air Force, 23rd Wing, Moody AFB, GA."

R-3008D [Amended]

Under Using agency, by removing the words "U.S. Air Force, 347th Rescue Wing, Moody AFB, GA" and inserting the words "U.S. Air Force, 23rd Wing, Moody AFB, GA."

BILLING CODE 4910-13-P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 95

[Docket No. 30523; Amdt. No. 464]

IFR Altitudes; Miscellaneous Amendments

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts miscellaneous amendments to the required IFR (instrument flight rules) altitudes and changeover points for certain Federal airways, jet routes, or direct routes for which a minimum or maximum en route authorized IFR altitude is prescribed. This regulatory action is needed because of changes occurring in the National Airspace System. These changes are designed to provide for the safe and efficient use of the navigable airspace under instrument conditions in the affected areas.

EFFECTIVE DATE: 0901 UTC, November 23, 2006.

FOR FURTHER INFORMATION CONTACT: Donald P. Pate, Flight Procedure Standards Branch (AMCAFS-420), Flight Technologies and Programs Division, Flight Standards Service, Federal Aviation Administration, Mike Monroney Aeronautical Center, 6500 South MacArthur Blvd. Oklahoma City, OK 73169 (Mail Address: P.O. Box 25082, Oklahoma City, OK 73125) telephone: (405) 954-4164.

SUPPLEMENTARY INFORMATION: This amendment to part 95 of the Federal Aviation Regulations (14 CFR part 95) amends, suspends, or revokes IFR altitudes governing the operation of all aircraft in flight over a specified route or any portion of that route, as well as the changeover points (COPs) for Federal airways, jet routes, or direct routes as prescribed in part 95.

The Rule

The specified IFR altitudes, when used in conjunction with the prescribed changeover points for those routes, ensure navigation aid coverage that is adequate for safe flight operations and free of frequency interference. The reasons and circumstances that create the need for this amendment involve matters of flight safety and operational efficiency in the National Airspace System, are related to published aeronautical charts that are essential to the user, and provide for the safe and efficient use of the navigable airspace. In addition, those various reasons or circumstances require making this amendment effective before the next scheduled charting and publication date of the flight information to assure its timely availability to the user. The effective date of this amendment reflects those considerations. In view of the close and immediate relationship between these regulatory changes and safety in air commerce, I find that notice and public procedure before adopting this amendment are impracticable and contrary to the public interest and that good cause exists for making the amendment effective in less than 30 days.

Conclusion

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are

necessary to keep them operationally current. It, therefore—(1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. For the same reason, the FAA certifies that this amendment will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Airspace, Navigation (air).
Issued in Washington, DC, on November 23, 2006.

James J. Ballough,
Director, Flight Standards Service

Adoption of the Amendment

■ Accordingly, pursuant to the authority delegated to me by the Administrator, part 95 of the Federal Aviation Regulations (14 CFR part 95) is amended as follows effective at 0901 UTC, November 23, 2006.

■ 1. The authority citation for part 95 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40106, 40113, 40114, 40120, 44502, 44514, 44719, 44721.

■ 2. Part 95 is amended to read as follows:

BILLING CODE 4910-13-P

DEPARTMENT OF COMMERCE

Bureau of Industry and Security

15 CFR Parts 742, 745, and 774

[Docket No. 061027281-6281-01]

RIN 0694-AD86

Implementation of the Understandings Reached at the June 2006 Australia Group (AG) Plenary Meeting; Clarifications and Corrections; Additions to the List of States Parties to the Chemical Weapons Convention (CWC)

AGENCY: Bureau of Industry and Security, Commerce.

ACTION: Final rule.

SUMMARY: The Bureau of Industry and Security (BIS) is publishing this final rule to amend the Export Administration Regulations (EAR) to implement the understandings reached at the June 2006 plenary meeting of the Australia Group (AG). Specifically, this final rule amends the EAR to reflect changes to the AG "Control List of Biological Agents" by revising the Commerce Control List (CCL) entry that controls certain human and zoonotic pathogens and toxins to add certain fungi (i.e., *Coccidioides immitis* and *Coccidioides posadasii*) and toxins (i.e., Shiga-like ribosome inactivating proteins other than verotoxin). Verotoxin continues to be listed under this CCL entry. Prior to the publication of this rule, the fungi *Coccidioides immitis* and *Coccidioides posadasii* and Shiga-like ribosome inactivating proteins other than verotoxin were listed under the CCL entry containing unilaterally controlled select agents and toxins not included on any of the AG Common Control Lists—this rule removes these items from that CCL entry.

As a result of the addition of Shiga-like ribosome inactivating proteins other than verotoxin to the CCL entry that controls certain human and zoonotic pathogens and toxins, this rule makes conforming changes to two additional CCL entries (i.e., the CCL entry that controls certain AG-listed genetic elements and genetically modified organisms and the CCL entry that controls vaccines, immunotoxins, medical products, and diagnostic and food testing kits).

This rule also amends the EAR to reflect changes to the AG "Control List

of Dual-Use Chemical Manufacturing Facilities and Equipment and Related Technology" by expanding the scope of the CCL entry that controls certain chemical manufacturing facilities and equipment to include equipment in which all surfaces that come in direct contact with the chemical(s) being processed or contained are made from niobium (columbium) or niobium alloys.

In addition, this final rule corrects errors in two CCL entries that were amended by a final rule that BIS published on December 29, 2004. This rule corrects a typographical error involving a Chemical Abstracts Service (CAS) registry number in the CCL entry that controls AG-listed precursor chemicals. This rule also corrects an error in the CCL entry that controls certain Chemical Weapons Convention (CWC) Schedule 2 or Schedule 3 chemicals not included on any of the AG Common Control Lists by removing the Schedule 3 chemical ethyldiethanolamine. The December 29, 2004, final rule added ethyldiethanolamine to the CCL entry that controls AG-listed precursor chemicals, but failed to remove it from the aforementioned entry.

This rule also amends the EAR provisions describing AG-related license requirements and licensing policies to remind applicants that, even if an AG-related item is licensed by "\$ value" (e.g., human and zoonotic pathogens and toxins, plant pathogens, genetic elements and genetically modified organisms, and select agents and toxins), the EAR still require that the unit of quantity commonly used in the trade be shown on the license application.

Finally, this rule updates the list of countries that currently are States Parties to the Chemical Weapons Convention (CWC) by adding the Central African Republic and Comoros, which recently became States Parties. As a result of this change, the CW (Chemical Weapons) license requirements and policies in the EAR that apply to these countries now conform with those applicable to other CWC States Parties.

DATES: This rule is effective November 24, 2006. Although there is no formal comment period, public comments on this regulation are welcome on a continuing basis.

ADDRESSES: You may submit comments, identified by RIN 0694-AD86, by any of the following methods:

- *E-mail:*

publiccomments@bis.doc.gov. Include

"RIN 0694-AD86" in the subject line of the message.

- *Fax:* (202) 482-3355. Please alert the Regulatory Policy Division, by calling (202) 482-2440, if you are faxing comments.

- *Mail or Hand Delivery/Courier:* Willard Fisher, U.S. Department of Commerce, Bureau of Industry and Security, Regulatory Policy Division, 14th St. & Pennsylvania Avenue, NW., Room 2705, Washington, DC 20230, *Attn:* RIN 0694-AD86.

Send comments regarding this collection of information, including suggestions for reducing the burden, to David Rostker, Office of Management and Budget (OMB), by e-mail to *David_Rostker@omb.eop.gov*, or by fax to (202) 395-7285; and to the Regulatory Policy Division, Bureau of Industry and Security, Department of Commerce, P.O. Box 273, Washington, DC 20044. Comments on this collection of information should be submitted separately from comments on the final rule (i.e., RIN 0694-AD86)—all comments on the latter should be submitted by one of the three methods outlined above.

FOR FURTHER INFORMATION CONTACT: Elizabeth Scott, Director, Chemical and Biological Controls Division, Office of Nonproliferation and Treaty Compliance, Bureau of Industry and Security, Telephone: (202) 482-3343.

SUPPLEMENTARY INFORMATION:

Background

The Bureau of Industry and Security (BIS) is amending the Export Administration Regulations (EAR) to implement the understandings reached at the annual plenary meeting of the Australia Group (AG) that was held in Paris on June 12-15, 2006. The Australia Group is a multilateral forum, consisting of 39 participating countries, that maintains export controls on a list of chemicals, biological agents, and related equipment and technology that could be used in a chemical or biological weapons program. The AG periodically reviews items on its control list to enhance the effectiveness of participating governments' national controls and to achieve greater harmonization among these controls.

The understandings reached at the June 2006 annual plenary meeting included a decision to add certain fungi and toxins to the AG "Control List of Biological Agents." This rule amends the EAR to reflect that decision by revising Export Control Classification Number (ECCN) 1C351, which controls certain human and zoonotic pathogens and toxins, to add these fungi (i.e.,
