

necessary tests and inspections by the Kansas City Southern de Mexico (KCSM) and/or their contractor at KCSM's Nuevo Laredo/Sanchez yards. UP contends that all of these tests and inspections are performed to the standards prescribed by 49 CFR parts 232, 215, and 229. In addition, KCSM has provided written consent for FRA inspectors to inspect their facilities and observe the personnel involved with performing the required tests and inspections. UP believes that this waiver is warranted since these trains travel only a few miles before they cross the border and receive another test and inspection in the United States. UP submits that if this request is granted, it will save approximately 5 hours per run-through train, greatly reducing congestion and increasing the capacity at the Laredo Gateway.

Both the UP and KCSM are parties of this waiver request, with KCSM performing the required inspections and tests and UP operating the trains into the interior of the United States. Both railroads will be responsible for maintaining the records required by applicable regulations. Access to the records will be provided in the United States by either the UP or Kansas City Southern.

It must be noted that UP made a similar waiver request on July 23, 2004, (Docket No. FRA-2004-18746) petitioning FRA to permit trains to travel into the interior of the United States without receiving any mechanical inspection or test at the border, based on Transportacion Ferroviaria Mexicana (TFM) performing the required tests and inspections at TFM's facility in Nuevo Laredo (See 69 FR 48558). This request was reviewed by the FRA Safety Board and denied for several reasons. All information regarding this request can be obtained as indicated below.

Interested parties are invited to participate in these proceedings by submitting written data or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA in writing before the end of the comment period and specify the basis for their request.

ACTION: Invitation for public comments on a requested administrative waiver of the Coastwise Trade Laws for the vessel FALCON 2000.

SUMMARY: As authorized by Public Law 105–383 and Public Law 107–295, the Secretary of Transportation, as represented by the Maritime Administration (MARAD), is authorized to grant waivers of the U.S.-build requirement of the coastwise laws under certain circumstances. If MARAD determines, in accordance with Public Law 105–383 and MARAD's regulations at 46 CFR part 388 (68 FR 23084; April 30, 2003), that the issuance of the waiver will have an unduly adverse effect on a U.S.-vessel builder or a business that uses U.S.-flag vessels in that business, a waiver will not be granted. Comments should refer to the docket number of this notice and the vessel name in order for MARAD to properly consider the comments. Comments should also state the commenter's interest in the waiver application, and address the waiver criteria given in § 388.4 of MARAD's regulations at 46 CFR part 388.
