

conflicts with 10 CFR 30.36(d), requiring that decommissioning of byproduct material facilities be completed and approved by the NRC after licensed activities cease. The NRC's analysis of the Licensee's final status survey data confirmed that the Facility meets the requirements of 10 CFR 20.1402 for unrestricted release and for license termination. Additionally, denying the amendment request would result in no change in current environmental impacts. The environmental impacts of the proposed action and the no-action alternative are therefore similar, and the no-action alternative is accordingly not further considered.

Conclusion

The NRC staff has concluded that the proposed action is consistent with the NRC's unrestricted release criteria specified in 10 CFR 20.1402. Because the proposed action will not significantly impact the quality of the human environment, the NRC staff concludes that the proposed action is the preferred alternative.

Agencies and Persons Consulted

NRC provided a draft of this Environmental Assessment to the Commonwealth of Virginia for review on October 17, 2006. On October 24, 2006, the Commonwealth of Virginia, Division of Radiological Health and Safety Regulation, responded by e-mail. The Commonwealth agreed with the conclusions of the EA, and otherwise had no comments.

The NRC staff has determined that the proposed action is of a procedural nature, and will not affect listed species or critical habitat. Therefore, no further consultation is required under Section 7 of the Endangered Species Act. The NRC staff has also determined that the proposed action is not the type of activity that has the potential to cause effects on historic properties. Therefore, no further consultation is required under Section 106 of the National Historic Preservation Act.

III. Finding of No Significant Impact

The NRC staff has prepared this EA in support of the proposed action. On the basis of this EA, the NRC finds that there are no significant environmental impacts from the proposed action, and that preparation of an environmental impact statement is not warranted. Accordingly, the NRC has determined that a Finding of No Significant Impact is appropriate.

PENSION BENEFIT GUARANTY CORPORATION

PBGC Flat Premium Rates

AGENCY: Pension Benefit Guaranty Corporation.

ACTION: Notice of flat premium rates.

SUMMARY: This notice informs the public of the PBGC flat premium rates for

premium payment years beginning in 2007. These rates can be derived from information published elsewhere but are published in this notice for the convenience of the public.

DATES: The flat premium rates apply to premium payment years beginning in 2007.

FOR FURTHER INFORMATION CONTACT:

Catherine B. Klion, Manager, Regulatory and Policy Division, Legislative and Regulatory Department, Pension Benefit Guaranty Corporation, 1200 K Street, NW., Washington, DC 20005, 202-326-4024. (TTY/TDD users may call the Federal relay service toll-free at 1-800-877-8339 and ask to be connected to 202-326-4024.)

SUPPLEMENTARY INFORMATION: The Pension Benefit Guaranty Corporation (PBGC) administers the pension plan termination insurance program under Title IV of the Employee Retirement Income Security Act of 1974 (ERISA). Pension plans covered by Title IV must pay premiums to PBGC. Section 4006 of ERISA deals with premium rates.

The Deficit Reduction Act of 2005 (Pub. L. 109-171) (DRA 2005) amends section 4006 of ERISA. DRA 2005 changes the per-participant flat premium rate for plan years beginning in 2006 from \$19 to \$30 for single-employer plans and from \$2.60 to \$8 for multiemployer plans and provides for inflation adjustments to the flat rates for future years. The adjustments are based on changes in the national average wage index as defined in section 209(k)(1) of the Social Security Act, with a two-year lag—for example, for 2007, the 2005 index is compared to the baseline (the 2004 index). The new provisions are written in such a way that the premium rate can never go down; if the change in the national average wage index is negative, the premium rate remains the same as in the preceding year. Also, premium rates are rounded to the nearest whole dollar.

The baseline national average wage index, the 2004 index, was \$35,648.55. The 2005 index is \$36,952.94. The ratio of the 2005 index to the 2004 index is 1.03659. Multiplying this ratio by \$30.00 gives \$31.10 which rounds to \$31.00. Multiplying the ratio by \$8.00 gives \$8.29, which rounds to \$8.00. Thus, the 2007 flat premium rates for PBGC's two insurance programs will be \$31.00 per participant for single-employer plans and \$8.00 per participant for multiemployer plans.

The PBGC will publish the flat premium rates annually for the convenience of the public.

Issued in Washington, DC, on this 17th day of November 2006.

Vincent K. Snowbarger,

Interim Director, Pension Benefit Guaranty Corporation.

SECURITIES AND EXCHANGE COMMISSION

[File No. 22-28824]

Application and Opportunity for Hearing: Software Brokers of America, Inc.

November 27, 2006.

The Securities and Exchange Commission gives notice that Software Brokers of America, Inc. has filed an application under Section 304(d) of the Trust Indenture Act of 1939. Software Brokers of America asks the Commission to exempt from the certificate or opinion delivery requirements of Section 314(d) of the 1939 Act certain provisions of an indenture dated August 25, 2005, as supplemented by an indenture dated October 31, 2006, between Intcomex, Inc., Software Brokers of America, Intcomex Holdings, LLC, Intcomex Holdings SPC-I, LLC, and The Bank of New York, as trustee. The indenture relates to 11¾% Second Priority Senior Secured Notes due 2011.

Section 304(d) of the 1939 Act, in part, authorizes the Commission to exempt conditionally or unconditionally any indenture from one

or more provisions of the 1939 Act. The Commission may provide an exemption under Section 304(d) if it finds that the exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the 1939 Act.

Section 314(d) requires the obligor to furnish to the indenture trustee certificates or opinions of fair value from an engineer, appraiser or other expert upon any release of collateral from the lien of the indenture. The engineer, appraiser or other expert must opine that the proposed release will not impair the security under the indenture in contravention of the provisions of the indenture. The application requests an exemption from Section 314(d) for specified dispositions of collateral that are made in Software Brokers of America's ordinary course of business.

In its application, Software Brokers of America alleges that:

1. The indenture permits Software Brokers of America to dispose of collateral in the ordinary course of its business;

2. Intcomex will deliver to the trustee annual consolidated financial statements audited by certified independent accountants; and

3. Software Brokers of America will deliver to the trustee a semi-annual certificate stating that all dispositions of collateral during the relevant six-month period occurred in Software Brokers of America's ordinary course of business and that all of the proceeds were used as permitted by the indenture.

Any interested persons should look to the application for a more detailed statement of the asserted matters of fact and law. The application is on file in the Commission's Public Reference Section, File Number 22-28824, 100 F Street, NE., Washington, DC 20549.

The Commission also gives notice that any interested persons may request, in writing, that a hearing be held on this matter. Interested persons must submit those requests to the Commission no later than December 27, 2006. Interested persons must include the following in their request for a hearing on this matter:

—The nature of that person's interest;
—the reasons for the request; and
—the issues of law or fact raised by the application that the interested person desires to refute or request a hearing on.
