SUPPLEMENTARY INFORMATION: This is a summary of the Commission’s Order released November 20, 2006. The complete text of the Order is available for inspection and copying during business hours at the FCC Reference Information Center, Portals II, 445 12th St., SW., Room CY-A257, Washington, DC 20554. The complete text of this document also may be purchased from the Commission’s copy contractor, Best Copy and Printing, Inc., 445 12th Street, SW., Room, CY-B402, Washington, DC 20554. The complete text may also be downloaded at: <http://www.fcc.gov>. By the Order, the Wireline Competition Bureau (WCB) grants a motion requesting an extension of the date for filing reply comments on an intercarrier compensation plan called the “Missoula Plan.” The Missoula Plan was filed on July 24, 2006 by the National Association of Regulatory Utility Commissioners’ Task Force on Intercarrier Compensation. On July 25, 2006, the WCB released a Public Notice requesting that comments on the Missoula Plan be filed by September 25, 2006, and reply comments by November 9, 2006. 71 FR 45510, Aug. 9, 2006. On August 29, 2006, WCB released an order granting extensions of the comment and reply comment filing dates to October 25, 2006 and December 11, 2006. 71 FR 54008, Sep. 13, 2006. Over 110 parties filed initial comments on or before October 25, 2006. On November 17, 2006, the National Association of Regulatory Utility Commissioners filed a motion requesting an extension of the reply comment date to January 11, 2007.

The WCB determined that providing additional time to file reply comments will facilitate the development of a more substantive and complete record in this proceeding. Although it is the policy of the Commission that extensions of time shall not be routinely granted, the WCB determined that given the number, length, and variety of initial comments, good cause exists to provide parties an extension of time, from December 11,

2006 to January 11, 2007 for filing reply comments in this proceeding.

Accordingly, it is ordered that, pursuant to sections 4(i), 4(j), and 5(c) of the Communications Act, 47 U.S.C. 154(i), 154(j), 155(c), and §§ 0.91, 0.291, and 1.46 of the Commission's rules, 47 CFR 0.91, 0.291, 1.46, the pleading cycle established in this matter shall be modified as follows:

Reply Comments Due: January 11, 2007.

All other filing procedures remain unchanged from those previously established in this proceeding.

It is further ordered that the Motion of the National Association of Regulatory Utility Commissioners for Extension of Time is granted, as set forth herein.

Federal Communications Commission.

Thomas J. Navin,

Chief, Wireline Competition Bureau.

1. The WT Docket No. 01-289 rulemaking proceeding was established to ensure that part 87 of the Commission's rules remains up-to-date and continues to further the Commission's goals of accommodating new technologies, facilitating the efficient and effective use of the aeronautical spectrum, avoiding unnecessary regulation, and, above all, enhancing the safety of flight. The Commission takes the following significant actions in the *Second FNPRM* in WT Docket No. 01-289: (i) Invites further comment on technical standards and regulatory provisions for Aeronautical Mobile Satellite (Route) Service (AMS(R)S) in the 1.6 GHz, 2 GHz, and 5 GHz frequency bands, including whether to revise the AMS(R)S technical standards to accommodate additional satellite systems and whether to accord priority and preemptive access to AMS(R)S communications in these bands; (ii) proposes to delete a regulatory provision which permits limited use of the VHF band for AMS(R)S communications; (iii) invites comment on whether the Commission should consider proposing rules that would require a transition to 8.33 kHz channelization in the aeronautical enroute service; (iv) invites comment on whether the Commission should reduce the number of frequencies designated for Flight Information Services—Broadcast (FIS-B); (v) proposes to

codify the terms of special temporary authorizations (STAs) permitting the use of specified frequencies for air-to-air communications in Hawaii and in the Los Angeles area; (vi) proposes to clarify the circumstances under which an airport is limited to a single aeronautical advisory station (unicom); (vii) invites comment on whether the Commission should permit the assignment and transfer of control of aircraft radio licenses; and (viii) invites comment on whether the Commission should phase out its authorization of emergency locator transmitters (ELTs) designed to operate on 121.5 MHz.
