**Annual Surveys in the Manufacturing Area**

**AGENCY:** Bureau of the Census, Commerce.

**ACTION:** Notice of determination.

**SUMMARY:** The Bureau of the Census (Census Bureau) is conducting the 2006 Annual Surveys in the Manufacturing Area. The 2006 Annual Surveys consist of the Current Industrial Reports surveys, the Annual Survey of Manufactures, the Survey of Industrial Research and Development, the Survey of Plant Capacity Utilization, and the Survey of Pollution Abatement Costs and Expenditures. We have determined that annual data collected from these surveys are needed to aid the efficient performance of essential governmental functions and have significant application to the needs of the public and industry. The data derived from these surveys, most of which have been

conducted for many years, are not publicly available from non-governmental or other governmental sources.

**ADDRESSES:** The Census Bureau will furnish report forms to organizations included in the survey. Additional copies are available upon written request to the Director, U.S. Census Bureau, Washington, DC 20233-0101.

**FOR FURTHER INFORMATION CONTACT:** Thomas E. Zabelsky, Chief, Manufacturing and Construction Division, at (301) 763-4598.

**Annual Survey of Manufactures**

The Annual Survey of Manufactures collects industry statistics, such as total value of shipments, employment, payroll, workers' hours, capital expenditures, cost of materials consumed, supplemental labor costs, and so forth. This survey, conducted on a sample basis, covers all manufacturing industries, including data on plants under construction but not yet in operation.

**Survey of Industrial Research and Development**

The Survey of Industrial Research and Development measures spending on research and development activities in private U.S. businesses. The Census Bureau collects and compiles this information in accordance with a joint project agreement between the National Science Foundation (NSF) and the Census Bureau. The NSF publishes the results in its publication series. Five data items in the survey provide interim statistics to those collected in the Census Bureau's economic censuses. These items (total company sales, total employment, total expenditures for research and development conducted within the company, federally-funded expenditures for research and development conducted within the company, and total expenditures and federally-funded expenditures for research and development within the company by state) are collected on a mandatory basis under the authority of Title 13, United States Code. Responses to all other data collected are voluntary.

**Survey of Plant Capacity Utilization**

The Survey of Plant Capacity Utilization is designed to measure the use of industrial capacity. The survey collects information on actual output and estimates of potential output in terms of value of production. These data are the basis for calculating rates of utilization of full production capability and use of production capability under national emergency conditions.

**Survey of Pollution Abatement Costs and Expenditures**

Under a joint project agreement with the Environmental Protection Agency (EPA), the Survey of Pollution Abatement Costs and Expenditures is designed to collect from establishments in manufacturing, mining, and electric utilities industries the total expenditures by industry and geographic area to abate pollutant emissions. The survey covers current operating costs and capital expenditures to abate air and water pollution and solid waste. The survey also obtains the costs recovered from abatement activities.

Notwithstanding any other provision of law, no person is required to respond to, nor shall a person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act (PRA) unless that collection of information displays a current, valid Office of Management and Budget (OMB) control number. In

accordance with the PRA, 44 U.S.C., Chapter 35, the OMB approved the 2006 Annual Surveys under the following OMB control numbers: Current Industrial Reports—0607-0392, 0607-0395, and 0607-0476; Annual Survey of Manufactures—0607-0449; Survey of Industrial Research and Development—0607-0912; Survey of Plant Capacity Utilization—0607-0175, and Survey of Pollution Abatement Costs and Expenditures—0607-0176.

Based upon the foregoing, I have directed that the Annual Surveys in the Manufacturing Area be conducted for the purpose of collecting these data.
