NATIONAL ARCHIVES AND RECORDS **ADMINISTRATION**

Records Schedules; Availability and Request for Comments

AGENCY: National Archives and Records Administration (NARA).

ACTION: Notice of availability of proposed records schedules; request for comments.

SUMMARY: The National Archives and Records Administration (NARA) publishes notice at least once monthly of certain Federal agency requests for records disposition authority (records schedules). Once approved by NARA, records schedules provide mandatory instructions on what happens to records when no longer needed for current Government business. They authorize the preservation of records of continuing value in the National Archives of the United States and the destruction, after a specified period, of records lacking administrative, legal, research, or other value. Notice is published for records schedules in which agencies propose to destroy records not previously authorized for disposal or reduce the retention period of records already authorized for disposal. NARA invites public comments on such records schedules, as required by 44 U.S.C. 3303a(a).

DATES: Requests for copies must be received in writing on or before January 10, 2007. Once the appraisal of the records is completed, NARA will send a copy of the schedule. NARA staff usually prepare appraisal memorandums that contain additional information concerning the records covered by a proposed schedule. These, too, may be requested and will be provided once the appraisal is completed. Requesters will be given 30 days to submit comments.

ADDRESSES: You may request a copy of any records schedule identified in this notice by contacting the Life Cycle Management Division (NWML) using one of the following means:

Mail: NARA (NWML), 8601 Adelphi Road, College Park, MD 20740-6001. E-mail: requestschedule@nara.gov.

FAX: 301-837-3698. Requesters must cite the control number, which appears in parentheses after the name of the agency which

submitted the schedule, and must provide a mailing address. Those who desire appraisal reports should so indicate in their request.

FOR FURTHER INFORMATION CONTACT: Laurence Brewer, Director, Life Cycle Management Division (NWML), National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740-6001. Telephone: 301–837–1539. *E-mail:* records.mgt@nara.gov.

SUPPLEMENTARY INFORMATION: Each year Federal agencies create billions of records on paper, film, magnetic tape, and other media. To control this accumulation, agency records managers prepare schedules proposing retention periods for records and submit these schedules for NARA's approval, using the Standard Form (SF) 115, Request for Records Disposition Authority. These schedules provide for the timely transfer into the National Archives of historically valuable records and authorize the disposal of all other records after the agency no longer needs them to conduct its business. Some schedules are comprehensive and cover all the records of an agency or one of its major subdivisions. Most schedules, however, cover records of only one office or program or a few series of records. Many of these update previously approved schedules, and some include records proposed as permanent.

No Federal records are authorized for destruction without the approval of the Archivist of the United States. This approval is granted only after a thorough consideration of their administrative use by the agency of origin, the rights of the Government and of private persons directly affected by the Government's activities, and whether or not they have historical or other value.

Besides identifying the Federal agencies and any subdivisions requesting disposition authority, this public notice lists the organizational unit(s) accumulating the records or indicates agency-wide applicability in the case of schedules that cover records that may be accumulated throughout an agency. This notice provides the control number assigned to each schedule, the total number of schedule items, and the number of temporary items (the records proposed for destruction). It also includes a brief description of the temporary records. The records schedule itself contains a full description of the records at the file unit level as well as their disposition. If NARA staff has prepared an appraisal memorandum for the schedule, it too

includes information about the records. Further information about the disposition process is available on request.

Schedules Pending (Note that the new time period for requesting copies has changed from 45 to 30 days after publication):

1. Department of Agriculture, Agricultural Marketing Service (N1– 136-06-1, 1 item, 1 temporary item). Master data file associated with an electronic information system used to collect information and report on the grading of poultry and related billing matters. This schedule authorizes the agency to apply the proposed disposition instructions to any recordkeeping medium.

Department of Agriculture, Agricultural Marketing Service (N1– 136-06-5), 4 items, 4 temporary items). Records of a system used by the Science and Technology Program to provide vital records protection and ready reference assistance. The schedule authorizes the agency to apply the proposed disposition instructions to any

recordkeeping medium.

3. Department of Agriculture, Cooperative State Research, Education, and Extension Service (N1-540-06-4, 11 items, 9 temporary items). Inputs, outputs, master files, and documentation relating to a data warehouse that provides a centralized source of information on research, education, and extension programs of the agency and its partner institutions in the areas of food, agriculture, and natural resources. Scheduled for permanent retention are recordkeeping copies of 4-H enrollment data and the documentation needed to access and maintain those files. Records with significant research value pertaining to related agency programs are scheduled separately for permanent retention.

4. Department of Agriculture, Cooperative State Research, Education, and Extension Service (N1-540-07-1, 6 items, 6 temporary items). Reports on funding and staffing levels for research projects and salary information from institutions which receive agency funding, along with working files and other supporting documentation. Records with significant research value are captured in the Current Research Information System, which has been scheduled as permanent.

5. Department of the Army, Agencywide (N1-AU-06-2, 1 item, 1 temporary item). Records related to administrative actions taken to correct conduct deficiencies of soldiers. Included are copies of administrative reprimands, admonitions, and censures of a nonpunitive nature. This schedule
