**II. Background**

Section 1813 of the Energy Policy Act of 2005 (Pub. L. 109-58) requires the Department of the Interior and the Department of Energy (Departments) to jointly conduct a study of issues regarding grants, expansions, and renewals of energy rights-of-way (ROWs) on tribal lands. Section 1813 also requires the Departments to consult with Indian tribes, the energy industry, appropriate governmental entities, and affected businesses and consumers in the course of the study. The Act further directs the Departments to submit a report to Congress on the findings of the study, including: (1) An analysis of historic rates of compensation paid for energy ROWs on tribal land; (2) recommendations for appropriate standards and procedures for determining fair and appropriate compensation to Indian tribes for grants, expansions, and renewals of energy ROWs on tribal land; (3) an assessment of the tribal self determination and sovereignty interests implicated by applications for the grant, expansion, or renewal of energy ROWs on tribal land; and (4) an analysis of relevant national energy transportation policies relating to grants, expansions, and renewals of energy ROWs on tribal land.

The Departments held a number of public meetings to seek input and feedback from Indian tribes, the energy industry, appropriate governmental entities, and affected businesses and consumers. In addition, the Departments held a number of government-to-government consultations with Indian tribes. On August 9, 2006, the Departments released a first draft of the Report to Congress and accepted comments on that draft report. This revised Draft Report to Congress reflects the Departments' considered response to the substantial number of comments received.

The Draft Report to Congress is available for review on the Section 1813 Web site (<http://1813.anl.gov>).

Dated: December 19, 2006.
