**BILLING CODE 4310-55-P**

**DEPARTMENT OF THE INTERIOR**

**Fish and Wildlife Service**

**Proposed Low-Effect Habitat Conservation Plan for 93-129 Ltd in the City of Laguna Niguel, California**

**AGENCY:** Fish and Wildlife Service, Interior.

**ACTION:** Notice of availability.

**SUMMARY:** 93-129 LTD (Applicant) has applied to the U.S. Fish and Wildlife Service (Service) for a 10-year incidental take permit for one covered species pursuant to section 10(a)(1)(B) of the Endangered Species Act of 1973, as amended (Act). The application addresses the potential for "take" of the federally threatened coastal California gnatcatcher (*Poliptila californica californica*) associated with the proposed grading and infrastructure for Tentative Parcel Map 93-129. A conservation program to mitigate for the project activities would be implemented as described in the proposed Low-Effect Habitat Conservation Plan for Grading and Infrastructure for Tentative Parcel Map 93-129 (proposed Plan), which would be implemented by the Applicant.

We are requesting comments on the permit application and on the preliminary determination that the proposed Plan qualifies as a "low-effect" Habitat Conservation Plan, eligible for a categorical exclusion under the National Environmental Policy Act (NEPA) of 1969, as amended. The basis for this determination is discussed in the Environmental Action Statement (EAS) and the associated Low Effect
