BILLING CODE 3510-21-P

DEPARTMENT OF COMMERCE

National Institute of Standards and Technology

Proposed Information Collection; Comment Request; Evaluation of Whole-Body Gamma-Ray System—Information Regarding the Administrated Radioactive Material

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before February 20, 2007.

ADDRESSES: Direct all written comments to Diana Hynek, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6625, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at dHynek@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to Kenneth Inn, Research Chemist, at (301) 975-5541, kenneth.inn@nist.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This project will determine the whole-body detector response of the Radioactivity Group's Virtual Gamma-ray Range system to provide support in the event of an emergency radiological incident. The project will evaluate the system's response to a variety of body geometries, and relate the system's response to handheld in vivo gamma-ray detectors readings that would be used during radiological emergency response. Because there are inadequate numbers of phantom types to approximate all body shapes and sizes, we plan to use NIST employees (participants) already subjected to

nuclear medicine procedures as radioactive "sources" to determine the response of our High Purity Germanium (HPGe) measurements system. Physical parameters of the participants such as height, weight will be needed to assess the correlation with counting response that is expected to have uncertainties as large as 50%. The physician or technician who administers the injection of nuclear radiation will be requested to provide written documentation containing the identity and time of the injected radionuclide given to the participants, its radioactivity content, and the calibration date and time of the radionuclide received. All information will be carefully safeguarded.

II. Method of Collection

A paper form will be distributed to the physicians by the participant. Once completed by the physician/technician, the paper form will be returned, by the participant, to the investigator.

III. Data

OMB Number: None.

Form Number: None.

Type of Review: Regular.

Affected Public: Business or other for-profit organizations; Federal Government; and Individuals or households.

Estimated Number of Respondents: 250.

Estimated Time Per Response: 6 minutes.

Estimated Total Annual Burden Hours: 5.

Estimated Total Annual Cost to Public: \$0.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: December 18, 2006.

Gwellnar Banks,

Management Analyst, Office of the Chief Information Officer.

National Institute of Standards and Technology

[Docket Number: 061128313-6313-01]

Summer Undergraduate Research Fellowships (SURF) Gaithersburg and Boulder Programs; Availability of Funds

AGENCY: National Institute of Standards and Technology, Commerce.

ACTION: Notice.

SUMMARY: The National Institute of Standards and Technology (NIST) announces that the following programs are soliciting applications for financial assistance for FY 2007: (1) The Gaithersburg Summer Undergraduate Research Fellowship Program, and (2) the Boulder Summer Undergraduate Research Fellowship Program. Each program will only consider applications that are within the scientific scope of the program as described in this notice and in the detailed program descriptions found in the Federal Funding Opportunity (FFO) announcement for these programs.

DATES: See below.

ADDRESSES: See below.

SUPPLEMENTARY INFORMATION: Catalog of Federal Domestic Assistance Name and Number: Measurement and Engineering Research and Standards—11.609.

Summer Undergraduate Research Fellowships (SURF) Gaithersburg and Boulder Programs

Program Description: The SURF Gaithersburg program is soliciting applications in the areas of Electronics and Electrical Engineering, Manufacturing Engineering, Chemical Science and Technology, Physics, Materials Science and Engineering, Building and Fire Research, and Information Technology.

The SURF Boulder program is soliciting applications in the areas of Electronics and Electrical Engineering, Chemical Science and Technology, Physics, Materials Science and Engineering, and Information Technology.

Applications for the Gaithersburg and Boulder programs are separate. Application to one program does not

constitute application to the other, and applications will not be exchanged between the Gaithersburg and Boulder programs. If applicants wish to be considered at both sites, two separate applications must be submitted.

Both SURF programs will provide an opportunity for the NIST laboratories and the National Science Foundation (NSF) to join in a partnership to encourage outstanding undergraduate students to pursue careers in science and engineering. The programs will provide research opportunities for students to work with internationally known NIST scientists, to expose them to cutting-edge research and promote the pursuit of graduate degrees in science and engineering.

The NIST SURF Gaithersburg and Boulder Program Directors will work with appropriate department chairs, outreach coordinators, and directors of multi-disciplinary academic organizations to identify outstanding undergraduates (including graduating seniors) who would benefit from off-campus summer research in a world-class scientific environment.

EEEL, MEL, CSTL, PL, MSEL, BFRL, and ITL SURF Gaithersburg Programs

DATES: All SURF Gaithersburg Program applications, paper and electronic, must

be received no later than 5 p.m. Eastern Standard Time on February 15, 2007.

ADDRESSES: For all SURF Gaithersburg Programs, paper applications must be submitted to: Ms. Anita Sweigert, Administrative Coordinator, National Institute of Standards and Technology, 100 Bureau Drive, Stop 8400, Gaithersburg, MD 20899-8400; Tel: (301) 975-4200; E-mail: anita.sweigert@nist.gov; Web site: <http://www.surf.nist.gov/surf2.htm>.

FOR FURTHER INFORMATION CONTACT: For complete information about this program and instructions for applying by paper or electronically, read the Federal Funding Opportunity Notice (FFO) at <http://www.grants.gov>. A paper copy of the FFO may be obtained by calling (301) 975-6328. The Gaithersburg and Boulder SURF programs will publish separate FFOs on www.grants.gov. Program questions should be addressed to Ms. Anita Sweigert, Administrative Coordinator, National Institute of Standards and Technology, 100 Bureau Drive, Stop 8400, Gaithersburg, MD 20899-8400, Tel: (301) 975-4200, E-mail: anita.sweigert@nist.gov. The SURF Gaithersburg program Web site is: <http://www.surf.nist.gov/surf2.htm>. All grants related administration questions

concerning this program should be directed to Marilyn Goldstein, NIST Grants and Agreements Management Division at (301) 975-6359 or marilyn.goldstein@nist.gov or for assistance with using Grants.gov contact support@grants.gov.

Funding Availability

Funds budgeted for payment to students under these programs are stipends, not salary. The stipend is an amount that is expected to be provided to the participating student to help defray the cost of living, for the duration of the program, in the Washington National Capital Region. The SURF Gaithersburg Programs will not authorize funds for indirect costs or fringe benefits. The table below summarizes the anticipated annual funding levels from the NSF to operate our REU (Research Experience for Undergraduates) programs, subject to program renewals and availability of funds. In some programs, anticipated NIST co-funding will supplement the number of awards supported. Program funding will be available to provide for the costs of stipends (\$363.64 per week per student), travel, and lodging (up to \$3,400 per student).

Program	Anticipated NSF funding	Anticipated NIST funding	Total program funding	Anticipated No. of awards
EEEL	\$80,000	\$40,000	\$120,000	~12
MEL	90,000	0	90,000	~13
CSTL	70,000	70,000	140,000	~16
PL	110,000	60,000	170,000	~26
MSEL	80,000	0	80,000	~20
BFRL	65,000	0	65,000	~8
ITL	0	80,000	80,000	~12

The actual number of awards made under this announcement will depend on the proposed budgets and the availability of funding. For all SURF Gaithersburg Programs described in this notice, it is expected that individual awards to institutions will range from approximately \$3,000 to \$70,000. Funding for student housing will be included in cooperative agreements awarded as a result of this notice.

The SURF Gaithersburg Programs are anticipated to run from May 29, 2007 through August 10, 2007; adjustments may be made to accommodate specific academic schedules (e.g., a limited number of 9-week cooperative agreements).

Funding for the programs listed in this notice is contingent upon the availability of Fiscal Year 2007 appropriations. NIST issues this notice subject to the appropriations made

available under the current continuing resolution, H.R. 5631, "Continuing Appropriations Resolution, 2007," Public Law 109-289, as amended by H.J. Res. 100, Public Law 109-369. NIST anticipates making awards for the programs listed in this notice provided that funding for the programs is continued beyond December 8, 2006, the expiration of the current continuing resolution.

Statutory Authority: The authority for the SURF Gaithersburg Programs is 15 U.S.C. 278g-1 authorizes NIST to fund financial assistance awards to students at institutions of higher learning within the United States. These students must show promise as present or future contributors to the missions of NIST.

Eligibility: NIST's SURF Gaithersburg Programs are open to colleges and universities in the United States and its territories with degree granting

programs in materials science, chemistry, engineering, computer science, mathematics, or physics. Participating students must be U.S. citizens or permanent U.S. residents. The SURF Gaithersburg Programs do not require any matching funds.

Review and Selection Process: All SURF Gaithersburg Program proposals are submitted to the Administrative Coordinator. Each proposal is examined for completeness and responsiveness. Incomplete or non-responsive proposals will not be considered for funding, and the applicant will be notified in writing. The Program will retain one copy of each non-responsive application for three years for recordkeeping purposes. The remaining copies will be destroyed. Proposals should include the following:

(A) Student Information:

(1) Student application information cover sheet;

(2) Academic transcript for each student nominated for participation (it is recommended that students have a G.P.A. of 3.0 or better, out of a possible 4.0);

(3) A statement of motivation and commitment from each student to participate in the 2007 SURF program, including a description of the student's prioritized research interests;

(4) A resume for each student;

(5) Two letters of recommendation for each student; and

(6) Confirmation of U.S. citizenship or permanent legal resident status for each student.

(B) Information About the Applicant Institution:

(1) Description of the institution's education and research programs; and

(2) A summary list of the student(s) being nominated.

Institution proposals will be separated into student/institution packets. Each student/institution packet will be comprised of the required application forms, including a complete copy of the student information and a complete copy of the institution information. The student/institution packets will be directed to the SURF Gaithersburg Program designated by the student as his/her first choice. Each SURF Gaithersburg Program will have three independent, objective NIST employees, who are knowledgeable in the scientific areas of the program, conduct a technical review of each student/institution packet based on the Evaluation Criteria for the SURF Gaithersburg Programs described in this notice. Each technical reviewer will recommend that each student/institution packet be placed into one of three categories: Priority Funding; Fund if Possible; and Do Not Fund. Each student/institution packet will then be placed into one of the three categories by the Program's Director, who will take into consideration the reviewers' recommendations, the relevance of the student's course of study to the program objectives of the NIST laboratory in which that SURF Gaithersburg Program resides as described in the Program Description section of the FFO, the relevance of the student's statement of commitment to the goals of the SURF Gaithersburg Program, and the availability of funding.

Student/institution packets placed in the Priority Funding category will be selected for funding in that SURF Gaithersburg Program. Student/institution packets placed in the Do Not Fund category will not be considered for funding.

Student/institution packets placed in the Fund if Possible Category will be

considered for funding by the SURF Gaithersburg Program designated by the student as his/her second choice. In making selections for funding, the Director of the student's second choice SURF Gaithersburg Program will take into consideration the recommendations of the reviewers who conducted the technical reviews for the student's first choice SURF Gaithersburg Program, the program objectives of the NIST laboratory in which the student's second choice SURF Gaithersburg Program resides as described in the Program Description section of the FFO, the relevance of the student's statement of commitment to the goals of the SURF Gaithersburg Program, and the availability of funding.

Students not selected for funding by their first or second choice SURF Gaithersburg Program, and students who did not designate a second choice, will then be considered for funding from all SURF Gaithersburg Programs that still have slots available. In making selections for funding, the SURF Gaithersburg Program Directors will take into consideration the recommendations of the reviewers who conducted the technical reviews for the student's first choice SURF Gaithersburg Program, the program objectives of the NIST laboratory in which their SURF Gaithersburg Program resides as described in the Program Description section of the FFO, the relevance to the goals of the SURF Gaithersburg Program, and the availability of funding.

Student/institution packets placed in the Fund if Possible category, but not selected through the process described above, will not be funded.

The final approval of selected applications and award of cooperative agreements will be made by the NIST Grants Officer based on compliance with application requirements as published in this notice, compliance with applicable legal and regulatory requirements, compliance with Federal policies that best further the objectives of the Department of Commerce, and whether the recommended applicants appear to be responsible. Applicants may be asked to modify objectives, work plans, or budgets and provide supplemental information required by the agency prior to award. The decision of the Grants Officer is final.

The SURF Gaithersburg Program will retain one copy of each unsuccessful application for three years for record keeping purposes, and unsuccessful applicants will be notified in writing. The remaining copies will be destroyed.

Evaluation Criteria: For the SURF Gaithersburg Programs, the evaluation criteria are:

(A) Evaluation of Student's Academic Ability and Commitment to Program Goals: Includes evaluation of completed course work; expressed research interest; compatibility of the expressed research interest with SURF Gaithersburg Program research areas; research skills; grade point average in courses relevant to the SURF Gaithersburg Program; career goals; honors and activities.

(B) Evaluation of Applicant Institution's Commitment to Program Goals: Includes evaluation of the institution's academic department(s) relevant to the discipline(s) of the student(s).

Each of these factors is given equal weight in the evaluation process.

SURF NIST Boulder Program:

DATES: All SURF NIST Boulder Program applications, paper and electronic, must be received no later than 5 p.m. Mountain Standard Time on February 15, 2007.

ADDRESSES: Paper applications for the SURF NIST Boulder Program must be submitted to: Ms. Eyvon Petty, Administrative Coordinator, National Institute of Standards and Technology, 325 Broadway, Mail Stop 847.00, Boulder, CO 80305-3328.

FOR FURTHER INFORMATION CONTACT: For complete information about this program and instructions for applying by paper or electronically, read the Federal Funding Opportunity Notice (FFO) at <http://www.grants.gov>. A paper copy of the FFO may be obtained by calling (301) 975-6328. The Gaithersburg and Boulder SURF programs will publish separate FFOs on www.grants.gov. Program questions should be addressed to Ms. Eyvon Petty, Administrative Coordinator, National Institute of Standards and Technology, 325 Broadway, Mail Stop 847.00, Boulder, CO 80305-3328, Tel: (303) 497-3295, E-mail: pettye@boulder.nist.gov; Web site: <http://surf.boulder.nist.gov/>. All grants related administration questions concerning this program should be directed to Marilyn Goldstein, NIST Grants and Agreements Management Division at (301) 975-6359 or marilyn.goldstein@nist.gov for assistance with using Grants.gov contact support@grants.gov.

Additional Information

Funding Availability

Funds budgeted for payment to students under these programs are stipends, not salary. The stipend is an amount that is expected to be provided to the participating student to help

defray the cost of living, for the duration of the program, in the Boulder area. The SURF NIST Boulder Program will not authorize funds for indirect costs or fringe benefits. The table below summarizes the anticipated annual

funding levels from the NSF to operate the SURF NIST Boulder program, broken out by Laboratory, subject to program approval and availability of funds. In some Laboratories, anticipated NIST co-funding will supplement the

number of awards supported. Program funding will be available to provide for the costs of stipends (\$4000 per student for 12 weeks), travel, and lodging (approximately \$1890 per student for 12 weeks).

Laboratory	Anticipated NSF funding	Anticipated NIST funding	Total program funding	Anticipated number of awards
EEEL	\$29,560	\$29,560	\$59,120	8
PL	18,475	18,475	36,950	5
CSTL	11,085	11,085	22,170	3
MSEL	7,390	7,390	14,780	2
ITL	7,390	7,390	14,780	2

The actual number of awards made under this announcement will depend on the proposed budgets and the availability of funding. For the SURF NIST Boulder Program described in this notice, it is expected that individual awards to institutions will range from approximately \$4,000 to \$70,000. Funding for student housing will be included in cooperative agreements awarded as a result of this notice.

The SURF NIST Boulder Program is anticipated to run from May 21, 2007 through August 10, 2007; adjustments may be made to accommodate specific academic schedules (e.g., a limited number of 12 week cooperative agreements shifted to begin 3 weeks after the regular start in order to accommodate institutions operating on quarter systems).

Funding for the programs listed in this notice is contingent upon the availability of Fiscal Year 2007 appropriations. NIST issues this notice subject to the appropriations made available under the current continuing resolution, H.R. 5631, "Continuing Appropriations Resolution, 2007," Public Law 109-289, as amended by H.J. Res. 100, Public Law 109-369. NIST anticipates making awards for the programs listed in this notice provided that funding for the programs is continued beyond December 8, 2006, the expiration of the current continuing resolution.

Statutory Authority: 15 U.S.C. 278g-1.

Eligibility: The SURF NIST Boulder Program is open to colleges and universities in the United States and its territories with degree granting programs in materials science, chemistry, engineering, computer science, mathematics, or physics. Participating students must be U.S. citizens or permanent U.S. residents. The SURF NIST Boulder Programs do not require any matching funds.

Review and Selection Process: All SURF NIST Boulder Program proposals

are submitted to the Administrative Coordinator. Each proposal is examined for completeness and responsiveness. Incomplete or non-responsive proposals will not be considered for funding, and the applicant will be so notified. The Program will retain one copy of each non-responsive application for three years for record keeping purposes. The remaining copies will be destroyed. Proposals should include the following:

(A) Student Information:

(1) Student application information cover sheet;

(2) Academic transcript for each student nominated for participation (it is recommended that students have a G.P.A. of 3.0 or better, out of a possible 4.0);

(3) A statement of motivation and commitment from each student to participate in the SURF NIST Boulder program, including a description of the student's prioritized research interests;

(4) A resume for each student;

(5) Two letters of recommendation for each student; and

(6) Confirmation of U.S. citizenship or permanent legal resident status for each student.

(B) Information About the Applicant Institution:

(1) Description of the institution's education and research programs; and

(2) A summary list of the student(s) being nominated.

Institution proposals will be separated into student/institution packets. Each student/institution packet will be comprised of the required application forms, including a complete copy of the student information and a complete copy of the institution information. The student/institution packets will be directed to a review committee of NIST staff appointed by the SURF NIST Boulder Program Directors. Each SURF Program packet will be reviewed by three independent, objective NIST employees, who are knowledgeable in the scientific areas of the program and are able to conduct a technical review

of each student/institution packet based on the Evaluation Criteria for the SURF NIST Boulder Program described in this notice. Each technical reviewer will recommend that each student/institution packet be placed into one of three categories: Priority Funding; Fund if Possible; and Do Not Fund. Each student/institution packet will then be placed into one of the three categories by the SURF NIST Boulder Program Directors, who will take into consideration the reviewers' recommendations, the relevance of the student's course of study to the program objectives of the NIST Boulder Laboratories as described in the Program Description section of the FFO, the relevance of the student's statement of commitment to the goals of the SURF NIST Boulder Program, and the availability of funding.

Student/institution packets placed in the Priority Funding category will be selected for funding in the SURF NIST Boulder Program. Student/institution packets placed in the Do Not Fund category will not be considered for funding.

Student/institution packets placed in the Fund if Possible category will be considered for funding by the SURF NIST Boulder Program when possible. For example, when an award has been declined by another applicant, a back-up will be selected from student/institution packets in this category. In this case, it is likely that either the student's second or third choice of research opportunity would be assigned. In making selections for funding, the SURF NIST Boulder Program Directors will take into consideration the recommendations of the reviewers who conducted the technical reviews, the program objectives of the NIST Boulder laboratory in which the student's requested research opportunity resides as described in the Program Description and Objectives section of the FFO, the relevance of the student's statement of

commitment to the goals of the SURF NIST Boulder Program, and the availability of funding.

Students not selected for funding for either their first, second or third choice of research opportunities, and students who did not designate a second or third choice, will then be considered for funding from all Boulder Laboratories that still have slots available. In making selections for funding, the SURF NIST Boulder Program Directors will take into consideration the recommendations of the reviewers who conducted the technical reviews, the program objectives of the NIST Laboratory in which their SURF NIST Boulder SURF Program research opportunity resides as described in the Program Description section of the FFO, the relevance to the goals of the SURF NIST Boulder Program, and the availability of funding.

Student/institution packets placed in the Fund if Possible category but not selected through the process described above, will not be funded.

The final approval of selected applications and award of cooperative agreements will be made by the NIST Grants Officer based on compliance with application requirements as published in this notice, compliance with applicable legal and regulatory requirements, and compliance with Federal policies that best further the objectives of the Department of Commerce. Applicants may be asked to modify objectives, work plans, or budgets and provide supplemental information required by the agency prior to award. The decision of the Grants Officer is final.

The SURF NIST Boulder Program will retain one copy of each unsuccessful application for three years for record keeping purposes, and unsuccessful applicants will be notified in writing. The remaining copies will be destroyed.

Evaluation Criteria: For the SURF NIST Boulder Program, the evaluation criteria are:

(A) Evaluation of Student's Academic Ability and Commitment to Program Goals: Includes evaluation of completed course work; expressed research interest; compatibility of the expressed research interest with SURF NIST Boulder Program research areas; research skills; grade point average in courses relevant to the SURF NIST Boulder Program; career goals; honors and activities;

(B) Evaluation of Applicant Institution's Commitment to Program Goals: Includes evaluation of the institution's academic department(s) relevant to the discipline(s) of the student(s).

Each of these factors is given equal weight in the evaluation process.

The following information applies to all programs announced in this notice:

The Department of Commerce Pre-Award Notification Requirements for Grants and Cooperative Agreements: The Department of Commerce Pre-Award Notification Requirements for Grants and Cooperative Agreements contained in the **Federal Register** notice of December 30, 2004 (69 FR 78389). On the form SF-424, the applicant's 9-digit Dun and Bradstreet Data Universal Numbering System (DUNS) number must be entered in the Applicant Identifier block (68 FR 38402).

Collaborations with NIST Employees: All applications should include a description of any work proposed to be performed by an entity other than the applicant, and the cost of such work should ordinarily be included in the budget.

If an applicant proposes collaboration with NIST, the statement of work should include a statement of this intention, a description of the collaboration, and prominently identify the NIST employee(s) involved, if known. Any collaboration by a NIST employee must be approved by appropriate NIST management and is at the sole discretion of NIST. Prior to beginning the merit review process, NIST will verify the approval of the proposed collaboration. Any unapproved collaboration will be stricken from the proposal prior to the merit review.

Use of NIST Intellectual Property: If the applicant anticipates using any NIST-owned intellectual property to carry out the work proposed, the applicant should identify such intellectual property. This information will be used to ensure that no NIST employee involved in the development of the intellectual property will participate in the review process for that competition. In addition, if the applicant intends to use NIST-owned intellectual property, the applicant must comply with all statutes and regulations governing the licensing of Federal government patents and inventions, described at 35 U.S.C. 200-212, 37 CFR part 401, 15 CFR 14.36, and in section B.20 of the Department of Commerce Pre-Award Notification Requirements, published on December 30, 2004 (69 FR 78389). Questions about these requirements may be directed to the Counsel for NIST, 301-975-2803.

Any use of NIST-owned intellectual property by a proposer is at the sole discretion of NIST and will be negotiated on a case-by-case basis if a project is deemed meritorious. The

applicant should indicate within the statement of work whether it already has a license to use such intellectual property or whether it intends to seek one.

If any inventions made in whole or in part by a NIST employee arise in the course of an award made pursuant to this notice, the United States government may retain its ownership rights in any such invention. Licensing or other disposition of NIST's rights in such inventions will be determined solely by NIST, and include the possibility of NIST putting the intellectual property into the public domain.

Initial Screening of all Applications: All applications received in response to this announcement will be reviewed to determine whether or not they are complete and responsive to the scope of the stated objectives for each program. Incomplete or non-responsive applications will not be reviewed for technical merit. The Program will retain one copy of each non-responsive application for three years for record keeping purposes. The remaining copies will be destroyed.

Paperwork Reduction Act: The standard forms in the application kit involve a collection of information subject to the Paperwork Reduction Act. The use of Standard Forms 424, 424A, 424B, SF-LLL, and CD-346 have been approved by OMB under the respective Control Numbers 0348-0043, 0348-0044, 0348-0040, 0348-0046, and 0605-0001.

Notwithstanding any other provision of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection subject to the requirements of the Paperwork Reduction Act, unless that collection of information displays a currently valid OMB Control Number.

Research Projects Involving Human Subjects, Human Tissue, Data or Recordings Involving Human Subjects: Any proposal that includes research involving human subjects, human tissue, data or recordings involving human subjects must meet the requirements of the Common Rule for the Protection of Human Subjects, codified for the Department of Commerce at 15 CFR part 27. In addition, any proposal that includes research on these topics must be in compliance with any statutory requirements imposed upon the Department of Health and Human Services (DHHS) and other Federal agencies regarding these topics, all regulatory policies and guidance adopted by DHHS, FDA, and other

Federal agencies on these topics, and all Presidential statements of policy on these topics.

NIST will accept the submission of human subjects protocols that have been approved by Institutional Review Boards (IRBs) registered with DHHS and performed by entities possessing a current, valid Federal-wide Assurance (FWA) from DHHS. NIST will not issue a single project assurance (SPA) for any IRB reviewing any human subjects protocol proposed to NIST.

On August 9, 2001, the President announced his decision to allow Federal funds to be used for research on existing human embryonic stem cell lines as long as prior to his announcement (1) The derivation process (which commences with the removal of the inner cell mass from the blastocyst) had already been initiated and (2) the embryo from which the stem cell line was derived no longer had the possibility of development as a human being. NIST will follow guidance issued by the National Institutes of Health at <http://ohrp.osophs.dhhs.gov/humansubjects/guidance/stemcell.pdf> for funding such research.

Research Projects Involving Vertebrate Animals: Any proposal that includes research involving vertebrate animals must be in compliance with the National Research Council's "Guide for the Care and Use of Laboratory Animals" which can be obtained from National Academy Press, 2101 Constitution Avenue, NW., Washington, DC 20055. In addition, such proposals must meet the requirements of the Animal Welfare Act (7 U.S.C. 2131 *et seq.*), 9 CFR parts 1, 2, and 3, and if appropriate, 21 CFR part 58. These regulations do not apply to proposed research using pre-existing images of animals or to research plans that do not include live animals that are being cared for, euthanized, or used by the project participants to accomplish research goals, teaching, or testing. These regulations also do not apply to obtaining animal materials from commercial processors of animal products or to animal cell lines or tissues from tissue banks.

Limitation of Liability: Funding for the programs listed in this notice is contingent upon the availability of Fiscal Year 2007 appropriations. NIST issues this notice subject to the appropriations made available under the current continuing resolution, H.R. 5631, "Continuing Appropriations Resolution, 2007," Public Law 109-289, as amended by H.J. Res. 100, Public Law 109-369 and H.J. res 102, Public Law 109-383. NIST anticipates making awards for the programs listed in this

notice provided that funding for the programs is continued beyond February 15, 2007, the expiration of the current continuing resolution. In no event will the Department of Commerce be responsible for proposal preparation costs if these programs fail to receive funding or are cancelled because of other agency priorities. Publication of this announcement does not oblige the agency to award any specific project or to obligate any available funds.

Executive Order 12866: This funding notice was determined to be not significant for purposes of Executive Order 12866.

Executive Order 13132 (Federalism): It has been determined that this notice does not contain policies with federalism implications as that term is defined in Executive Order 13132.

Executive Order 12372: Applications under this program are not subject to Executive Order 12372, "Intergovernmental Review of Federal Programs."

Administrative Procedure Act/Regulatory Flexibility Act: Notice and comment are not required under the Administrative Procedure Act (5 U.S.C. 553) or any other law, for rules relating to public property, loans, grants, benefits or contracts (5 U.S.C. 553(a)). Because notice and comment are not required under 5 U.S.C. 553, or any other law, for rules relating to public property, loans, grants, benefits or contracts (5 U.S.C. 553(a)), a Regulatory Flexibility Analysis is not required and has not been prepared for this notice, 5 U.S.C. 601 *et seq.*

Dated: December 14, 2006.

James E. Hill,

Acting Deputy Director, NIST.

BILLING CODE 3510-13-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Proposed Information Collection; Comment Request; Management and Oversight of the National Estuarine Research Reserve System

AGENCY: National Oceanic and Atmospheric Administration (NOAA).

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information

collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before February 20, 2007.

ADDRESSES: Direct all written comments to Diana Hynek, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6625, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at dHynek@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to Doris Grimm, 301-713-3155, ext. 107, or Doris.Grimm@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

The National Estuarine Research Reserve System consists of carefully selected estuarine areas of the U.S. that are designated, preserved, and managed for research and educational purposes. The information is needed from states to review proposed designations. For sites selected, states must develop management plans and submit an annual report/work plan. NOAA needs the information to ensure that the sites selected meet national standards.

II. Method of Collection

The information can be submitted electronically via a Web site; other information is submitted in paper form.

III. Data

OMB Number: 0648-0121.

Form Number: None.

Type of Review: Regular submission.

Affected Public: State or Local Government.

Estimated Number of Respondents: 28.

Estimated Time Per Response: 2,000 hours for a management plan; 2,000 hours for a site nomination; 15 hours for an annual report/work plan; and 2 hours beyond basic application information for an application requiring a categorical exclusion checklist, state historical office comments, a preliminary engineering report for a construction project or restoration, or a Federal Consistency Certification.

Estimated Total Annual Burden Hours: 14,105.

Estimated Total Annual Cost to Public: \$29,815.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including
