

Any changes in methodology will be applied in all investigations initiated on the basis of petitions received on or after the first day of the month following the date of publication of the Department's final notice of the new weighted average dumping margin calculation methodology.

71 FR at 11189.

Section 123(g)(2) of the URAA provides that a final modification may not go into effect before the end of the 60-day period after the consultations described in section 123(g)(1)(E) begin, unless the President determines that an earlier effective date is in the national interest. While the statute establishes the manner of determining the effective date of any final modification adopted pursuant to section 123, the statute does not specify whether the final modification must apply only to new segments of proceedings initiated after the effective date, or may apply to any segments pending as of the effective date.

The SAA does not provide any more specific guidance regarding the application of any final modification adopted pursuant to section 123. The SAA states that section 129 determinations will apply only with respect to entries occurring on or after the effective date. SAA at 1026. However, the SAA makes no such statement with respect to section 123 modifications. The SAA merely states, "A final rule may not go into effect before the end of the 60-day consultation period unless the President determines that an earlier date is in the national interest." SAA at 1021.

In the prior four section 123 proceedings, the Department has applied the final modification or final rule to segments initiated after the effective date. *See, e.g., Procedures for Conducting Five-year ("Sunset") Reviews of Antidumping and Countervailing Duty Orders*, 70 FR 62061 (October 28, 2005) (applying amended regulations to sunset reviews initiated on or after the effective date); *Notice of Final Modification of Agency Practice Under Section 123 of the Uruguay Round Agreements Act*, 68 FR 37125, 37138 (June 23, 2003) (applying new privatization methodology to investigations and reviews initiated on or after the effective date); *Antidumping Proceedings: Affiliated Party Sales in the Ordinary Course of Trade*, 67 FR 69186, 69197 (November 15, 2002) ("Arm's Length Test") (applying new methodology to investigations and reviews initiated on or after the effective date); *Amended Regulation Concerning the Revocation of Antidumping and*

Countervailing Duty Orders, 64 FR 51236 (September 22, 1999). However, on occasion the Department has adopted and applied a change in policy involving a statutory interpretation to all segments pending as of the date of the change. *See, e.g., Basis for Normal Value When Foreign Market Sales Are Below Cost*, Policy Bulletin 98.1 (February 23, 1998); *Treatment of Inventory Carrying Cost in Constructed Value*, Policy Bulletin 94.1 (March 25, 1994).

In the section 123 proceeding concerning the *Arm's Length Test*, the Department found it significant that section 123 uses the term "go into effect." 67 FR at 69196. Thus, the Department noted that section 123 does not preclude applying the change so as to affect entries made prior to the announcement of the change. *Id.*

After careful consideration of the arguments presented by the commentors and of the information needed to implement this change, and weighing the administrative burdens, the Department has determined to apply the final modification adopted through this proceeding to all investigations pending before the Department as of the effective date.

First, in this particular instance, applying this final modification to all investigations pending before the Department will not create any undue administrative burden on the Department. The number of pending antidumping investigations is few (*i.e.* there are seven ongoing antidumping investigations).

Second, applying this change will not require the Department to gather any new information in those investigations.

Third, this announcement of the Department's intention to apply this modification to all pending investigations will not prejudice any of the parties to those proceedings. All of the currently pending investigations were initiated as a result of petitions filed after the date of publication of the Department's proposed modification. Thus, all of the interested parties in each of these investigations had notice of the Department's intention to modify the manner in which it calculates the weighted-average dumping margin when using the average-to-average comparison methodology in investigations. Moreover, even in the most advanced of the on-going investigations, there is sufficient time to permit the parties to comment on the application of this approach prior to the final determination in the investigation. In those investigations in which the Department will have reached a preliminary determination prior to the

effective date of this notice, the Department will provide parties with notice and an opportunity to comment on the application of this methodology on the record of the investigation.

Timetable

The effective date of this notice is January 16, 2007, which is sixty days after the date on which the United States Trade Representative and the Department began consultations with the appropriate congressional committees, consistent with section 123(g)(1)(E) of the URAA. This methodology will be used in implementing the findings of the WTO panel in *US - Zeroing (EC)* pursuant to section 129 of the URAA concerning the specific antidumping investigations challenged by the EC in that dispute. The Department will apply this final modification in all current and future antidumping investigations as of the effective date.

Availability of Grant Funds for Fiscal Year 2007

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice.

SUMMARY: The NOAA publishes this notice to provide the general public with a consolidated source of program and application information related to its competitive grant and cooperative agreement (CA) award offerings for fiscal year (FY) 2007. This Omnibus notice is designed to replace the multiple **Federal Register** notices that traditionally advertised the availability of NOAA's discretionary funds for its various programs. It should be noted that additional program initiatives unanticipated at the time of the publication of this notice may be announced through subsequent **Federal Register** notices. All announcements will also be available through the Grants.gov website.

DATES: Proposals must be received by the date and time indicated under each program listing in the **SUPPLEMENTARY INFORMATION** section of this notice.

ADDRESSES: Proposals must be submitted to the addresses listed in the **SUPPLEMENTARY INFORMATION** section of this notice for each program. The **Federal Register** and Full Funding Opportunity (FFO) notices may be found on the Grants.gov website. The URL for Grants.gov is <http://www.grants.gov>.

FOR FURTHER INFORMATION CONTACT: Please contact the person listed within this notice as the information contact under each program.

SUPPLEMENTARY INFORMATION: Applicants must comply with all requirements contained in the FFO announcements for each of the programs listed in this omnibus notice. These FFOs are available at <http://www.grants.gov>.

The list of entries below describe the basic information and requirements for competitive grant/cooperative agreement programs offered by NOAA. These programs are open to any applicant who meets the eligibility criteria provided in each entry. To be considered for an award in a competitive grant/cooperative agreement program, an eligible applicant must submit a complete and responsive application to the appropriate program office. An award is made upon conclusion of the evaluation and selection process for the respective program.

NOAA Project Competitions

This omnibus notice describes funding opportunities for the following NOAA discretionary grant programs:

National Marine Fisheries Service

1. 2007 Hawaii Seafood Program
