SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me

This action is directed to the public in general. Although this action may be of particular interest to those persons who are required to register pesticides and those who maintain Heating, Ventilation, Air Conditioning and Refrigeration Systems. Since other entities may also be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the information in this notice, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. What Should I Consider as I Prepare My Comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through www.regulations.gov or e-mail. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD ROM that you mail to EPA, mark the outside of the disk or CD ROM as CBI and then identify electronically within the disk or CD ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When submitting comments, remember to:

- i. Identify the document by docket ID number and other identifying information (subject heading, **Federal Register** date and page number).
- ii. Follow directions. The Agency may ask you to respond to specific questions or organize comments by referencing a Code of Federal Regulations (CFR) part or section number.
- iii. Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.
- iv. Describe any assumptions and provide any technical information and/or data that you used.
- v. If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.

vi. Provide specific examples to illustrate your concerns and suggest alternatives.

vii. Explain your views as clearly as possible, avoiding the use of profanity or personal threats.

viii. Make sure to submit your comments by the comment period deadline identified.

B. How Can I Get Copies of this Document and Other Related Information?

1. *Docket.* EPA has established a docket for this action under docket identification (ID) number EPA-HQ-OPP-2006-0351. Publicly available docket materials are available either in the electronic docket at <http://www.regulations.gov>, or, if only available in hard copy, at the Office of Pesticide Programs (OPP) Regulatory Public Docket in Rm. S-4400, One Potomac Yard (South Building), 2777 S. Crystal Drive Arlington, VA. The hours of operation of this Docket Facility are from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The Docket telephone number is (703) 305-5805.

2. *Electronic access.* You may access this **Federal Register** document electronically through the EPA Internet under the "**Federal Register**" listings at <http://www.epa.gov/fedrgstr>.

II. What Guidance Does this PR Notice Provide?

The EPA is concerned that sanitizer, disinfectant and other antimicrobial products are being used to treat surfaces of HVAC&R systems, including but not limited to use as a part of an air duct cleaning program. When initially registered, these products were approved for use on hard surfaces such as countertops, but air ducts were not intended to be included in the broad hard surface category. EPA is concerned that data demonstrating efficacy when used in air ducts have not been submitted for review by the Agency. Moreover, use of these products in HVAC&R systems such as air ducts pose potential human exposure and health risks to applicators and building occupants which have not been assessed by the Agency.

This draft PR Notice provides guidance which, once final, the Agency would provide to registrants concerning labeling language that EPA believes would address its current concerns for sanitizer, disinfectant and other antimicrobial products whose labels bear directions for use on, or incorporation within, hard, non-porous surfaces, but which have not been specifically approved for use in

HVAC&R systems. The PR Notice describes an Agency approach that registrants of products subject to this Notice should add a "Do Not Use" statement to the labeling of such products. Supporting documents for this draft PR Notice are contained in the docket.

EPA originally published this document for comment in the **Federal Register** on September 22, 2006 (71 FR 55471). The public comment period ended on November 21, 2006. EPA received a request from The Chlorine Institute to extend the comment period. The Chlorine Institute has requested that the Agency provide additional information which was utilized in support of the draft guidance. They have requested additional time to evaluate this information. EPA agrees to reopen the comment period for an additional 60 days.

III. Do PR Notices Contain Binding Requirements?

The PR Notice discussed in this notice is intended to provide guidance to EPA personnel and decision makers and to pesticide registrants. While the requirements in the statutes and Agency regulations are binding on EPA and the applicants, this PR Notice is not binding on either EPA or pesticide registrants, and EPA may depart from the guidance where circumstances warrant and without prior notice. Likewise, pesticide registrants may assert that the guidance is not appropriate generally or not applicable to a specific pesticide or situation.

BILLING CODE 6560-50-S

ENVIRONMENTAL PROTECTION AGENCY

[FRL-8263-9; Docket ID No. EPA-HQ-ORD-2006-1009]

Draft Toxicological Review of 2,2,4-Trimethylpentane: In Support of Summary Information on the Integrated Risk Information System (IRIS)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of public comment period and external peer review panel meeting.

SUMMARY: The EPA is announcing a public comment period and an external peer review panel meeting to review the draft document titled, "Toxicological Review of 2,2,4-Trimethylpentane: In Support of Summary Information on the Integrated Risk Information System (IRIS)" (NCEA-S-2202), related to the human health assessment for 2,2,4-trimethylpentane. The document was prepared by the National Center for Environmental Assessment (NCEA) within EPA's Office of Research and Development.

EPA is releasing this draft document solely for the purpose of pre-dissemination peer review under applicable information quality guidelines. This document has not been formally disseminated by EPA. It does not represent and should not be construed to represent any Agency policy or determination. EPA will consider any public comments submitted in accordance with this notice when revising the document.

DATES: The 45-day public comment period begins on December 29, 2006 and ends February 12, 2007. Technical comments should be in writing and must be received by EPA by February 12, 2007. The peer review panel meeting will be conducted on February 28, 2007, by teleconference and will begin at 1 p.m. and end at 4 pm. Members of the public may call into the teleconference meeting and are invited to provide oral statements at the commencement of the teleconference. (For more information refer to the instructions for registration provided in the **ADDRESSES** section of this notice.)

ADDRESSES: The external peer review panel meeting will be held by teleconference. Under an Interagency Agreement with EPA and the Department of Energy, the Oak Ridge Institute of Science and Education (ORISE) is organizing, convening, and conducting the peer review panel meeting. To obtain the teleconference call-in number and access code, register by February 14, 2007, by calling ORISE, P.O. Box 117, MS 17, Oak Ridge, TN 37831-0117, at (865) 576-2922 or (865) 241-3168 (facsimile). Interested parties may also register on-line at: <http://www.ornl.gov/trimethylpentane>. Public comments submitted to the EPA by February 12, 2007 will be provided to the external peer review panel prior to the teleconference meeting.

The draft, "Toxicological Review of 2,2,4-Trimethylpentane: In Support of Summary Information on the Integrated

Risk Information System (IRIS)" (NCEA-S-2202) is available primarily via the Internet on NCEA's home page under the Recent Additions menu at <http://www.epa.gov/ncea>. A limited number of paper copies are available by contacting the IRIS Hotline at (202) 566-1676, (202) 566-1749 (facsimile), or hotline.iris@epa.gov. If you are requesting a paper copy, please provide your name, mailing address, the document title, and the EPA number of the requested publication. Copies are not available from ORISE.

Technical comments may be submitted electronically via www.regulations.gov, by mail, by facsimile, or by hand delivery/courier. Please follow the detailed instructions provided in the **SUPPLEMENTARY INFORMATION** section of this notice.

FOR FURTHER INFORMATION CONTACT: Questions regarding registration and logistics should be directed to Margaret Lyday, ORISE, P.O. Box 117, MS 17, Oak Ridge, TN 37831-0117, at (865) 576-2922 or (865) 241-3168 (facsimile), lydaym@ornl.gov (email).

If you have questions about the document, contact John Stanek, Chemical Manager, National Center for Environmental Assessment; telephone: (919) 541-1048; facsimile: (919) 541-0248; email: stanek.john@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Information About the Document

IRIS is a database that contains Agency scientific positions on potential adverse human health effects that may result from chronic (or lifetime) exposure to specific chemical substances found in the environment. The database (available on the Internet at <http://www.epa.gov/iris>) contains qualitative and quantitative health effects information for more than 500 chemical substances that may be used to support the first two steps (hazard identification and dose-response evaluation) of the risk assessment process. When supported by available data, the database provides oral reference doses (RfDs) and inhalation reference concentrations (RfCs) for chronic health effects, and oral slope factors and inhalation unit risks for carcinogenic effects. Combined with specific exposure information, government and private entities use IRIS to help characterize public health risks of chemical substances in a site-specific situation and thereby support risk management decisions designed to protect public health.

2,2,4-Trimethylpentane, also known as isooctane or isobutyltrimethylmethane, is a

hydrocarbon used primarily in deriving high-octane fuels. It comprises about 10% of unleaded gasoline. 2,2,4-Trimethylpentane is released into the environment through the manufacture, use, and disposal of products associated with the gasoline and petroleum industry. The current assessment posted on IRIS (1991) does not include an evaluation of the oral non-cancer or the cancer literature; for the inhalation RfC, a message indicates that the health effects data for 2,2,4-trimethylpentane were considered inadequate for the derivation of an inhalation RfC. A review of the more recent literature identified mechanistic studies, gavage studies, and toxicokinetic studies, the majority of which were designed to specifically address and characterize the involvement of alpha_{2u}-globulin accumulation in the renal toxicity observed in the male rat. Little or no evaluation of other endpoints in tissues/organs other than the kidney was reported. Therefore, the major issues discussed in the draft assessment are: (1) the association of TMP-induced renal effects in male rats with alpha_{2u}-globulin accumulation, and (2) the lack of studies with sufficient duration and dose-response information for any endpoint from which to derive reference values.

II. How to Submit Technical Comments to the Docket at www.regulations.gov

Submit your comments, identified by Docket ID No. EPA-HQ-ORD-2006-1009 by one of the following methods:

- <http://www.regulations.gov>: Follow the on-line instructions for submitting comments.
- E-mail: ORD.Docket@epa.gov.
- Fax: (202) 566-1753.
- Mail: Office of Environmental Information (OEI) Docket (Mail Code: 2822T), U.S. Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460. The phone number is (202) 566-1752.

- Hand Delivery: The OEI Docket is located in the EPA Headquarters Docket Center, EPA West Building, Room 3334, 1301 Constitution Ave., NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566-1744. Such deliveries are only accepted during the docket's normal hours of operation, and special arrangements should be made for deliveries of boxed information.

If you provide comments in writing, please submit one unbound original with pages numbered consecutively,

and three copies of the comments. For attachments, provide an index, number pages consecutively with the comments, and submit an unbound original and three copies.

Instructions: Direct your comments to Docket ID No. EPA-HQ-ORD-2006-1009. EPA's policy is that all comments received will be included in the public docket without change and may be made available online at <http://www.regulations.gov>, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit information that you consider to be CBI or otherwise protected through www.regulations.gov or e-mail. The www.regulations.gov Web site is an "anonymous access" system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an e-mail comment directly to EPA without going through www.regulations.gov, your e-mail address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses. For additional information about EPA's public docket visit the EPA Docket Center homepage at <http://www.epa.gov/epahome/dockets.htm>.

Docket: All documents in the docket are listed in the www.regulations.gov index. Although listed in the index, some information is not publicly available, e.g., CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, will be publicly available only in hard copy. Publicly available docket materials are available either electronically in www.regulations.gov or in hard copy at the OEI Docket in the EPA Headquarters Docket Center.

Dated: December 20, 2006.

George Alapas,

Deputy Director, National Center for Environmental Assessment.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[FRL-8264-6]

Fort Ord Superfund Site; Proposed Notice of Administrative Order on Consent for Cleanup of Portions of the Former Fort Ord

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; request for public comment.

SUMMARY: Notice is hereby given that a proposed Administrative Order on Consent ("Agreement") concerning portions of the Fort Ord Superfund Site ("Site") in Monterey, California has been negotiated by the United States Environmental Protection Agency ("EPA"), the California Department of Toxic Substances Control ("DTSC") and the Fort Ord Reuse Authority ("Respondent") subject to the final review and approval of the EPA, DTSC and the U.S. Department of Justice. The proposed Agreement concerns cleanup of portions of the Site pursuant to the Comprehensive Environmental Response, Compensation and Liability Act, 42 U.S.C. 9604, 9606 and 9622 ("CERCLA"). Pursuant to a Federal Facilities Agreement ("FFA"), the U.S. Army ("Army") is required to perform the CERCLA response actions for the Site; however, the FFA will be amended to suspend the obligations of the Army to conduct those response actions that will be undertaken by the Respondent pursuant to the Agreement. The Army is preparing a Finding of Suitability for Early Transfer ("FOSET"), which will be submitted to EPA Region 9, and the State of California for their approval after a public comment period. Upon approval of the FOSET, the Army will transfer portions of the Site to the Respondent. The Army and the Respondent will enter into an Environmental Services Cooperative Agreement, which will require the Respondent to perform certain CERCLA response actions on the transferred portions of the Site, using grant monies from the Army. The proposed Agreement would require the Respondent to prepare and perform removal actions, one or more remedial investigations and feasibility studies and one or more remedial designs and remedial actions for certain contaminants present on the transferred portions of the Site, under the oversight of EPA and the State of California. The proposed Agreement includes EPA and DTSC covenants not to sue or to take administrative action against the Respondent, provided that the

Respondent complies with all the terms and conditions of the Agreement. The Agreement also commits the Respondent to reimburse direct and indirect future response costs incurred by EPA and DTSC in connection with actions conducted under CERCLA at the transferred portions of the Site.

For thirty (30) calendar days following the date of publication of this notice, EPA will receive written comments relating to the proposed Agreement. EPA's response to any comments received will be available for public inspection at the U.S. Environmental Protection Agency, 75 Hawthorne Street, San Francisco, CA 94105.

DATES: Comments must be submitted on or before January 29, 2007.

ADDRESSES: The proposed Agreement may be obtained from Judith Winchell, Docket Clerk, telephone (415) 972-3124. Comments regarding the proposed Agreement should be addressed to Judith Winchell (SFD-7) at United States EPA Region IX, 75 Hawthorne Street, San Francisco, California 94105, and should reference "Former Fort Ord Superfund Site," and "Docket No. R9-2007-03".

FOR FURTHER INFORMATION CONTACT: Michele Benson, Assistant Regional Counsel (ORC-3), Office of Regional Counsel, U.S. EPA Region IX, 75 Hawthorne Street, San Francisco, CA 94105; E-mail: benson.michele@epa.gov; phone: (415) 972-3918.

Dated: December 20, 2006.

Keith Takata,

Director, Superfund Division, Region IX.

BILLING CODE 6560-50-P

FEDERAL RESERVE SYSTEM

Agency Information Collection

Activities: Announcement of Board Approval Under Delegated Authority and Submission to OMB; Correction

This notice corrects a notice published on pages 77022-77023 of the issue for December 22, 2006.

Summary:

Background

Notice is hereby given of the final approval of proposed information collection(s) by the Board of Governors of the Federal Reserve System (Board) under OMB delegated authority, as per 5 CFR 1320.16 (OMB Regulations on Controlling Paperwork Burdens on the Public). Board-approved collections of information are incorporated into the official OMB inventory of currently
