Garkane Energy; Notice of Availability of Draft Environmental Assessment

December 14, 2006.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR Part 380 (Order No. 486, 52 FR 47897), the Office of Energy Projects has reviewed the application for new license for the Boulder Creek Hydroelectric Project, located on Boulder Creek in Garfield County, Utah, and has prepared a Draft Environmental Assessment (DEA) for the project. The project occupies 29.59 acres of federal land, administered by the U.S. Forest Service as part of the Dixie National Forest.

The DEA contains the staff's analysis of the potential environmental impacts of the project and concludes that issuing a new license for the project, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

A copy of the DEA is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. Post Falls Hydroelectric Project; Spokane River Developments Project; Avista Corporation; Spokane, WA; Notice of Availability of the Draft Environmental Impact Statement for the Spokane River Developments and Post Falls Hydroelectric Projects

December 28, 2006.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission (Commission or FERC) regulations contained in the Code of Federal Regulations (CFR) (18 CFR Part 380 [FERC Order No. 486, 52 FR 47897]) the Office of Energy Projects staff (staff) reviewed the applications for New Major Licenses for the Spokane River Hydroelectric Project and Post Falls Project. Staff prepared a draft environmental impact statement (DEIS) for the projects which are located on the Spokane River, Washington.

The DEIS contains staff's analysis of the potential environmental effects of the projects and concludes that licensing the projects, with staff's recommended measures, would not constitute a major Federal action significantly affecting the quality of the human environment. Copies of the DEIS have been sent to Federal, state, and local agencies; public interest groups; and individuals on the Commission's mailing list.

A copy of the DEIS is available for review at the Commission's Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "e-Library" link. Enter the docket number (P-2545) or (P-12606), to access the document. For assistance, contact FERC Online
